Amendment of Class E Airspace; Hamilton, NY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace extending upward from 700 feet or more above the surface at Hamilton Municipal Airport (formerly Elisha Payne Airport), Hamilton, NY, to accommodate airspace reconfiguration due to the decommissioning of the Georgetown VHF omni-directional radio range tactical air navigation aid (VORTAC), and cancellation of the VORTAC approach. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at the airport. This action also updates the geographic coordinates of the airport, and updates the airport name.

DATES: Effective 0901 UTC, July 19, 2018. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class E airspace at Hamilton Municipal Airport, Hamilton, NY, to support IFR operations at the airport.

History

The FAA published a notice of proposed rulemaking in the **Federal Register** for Docket No. FAA-2017-1089 (83 FR 5748, February 9, 2018) proposing to amend Class E airspace extending upward from 700 feet or more

above the surface at Hamilton Municipal Airport, Hamilton, NY.

Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005, of FAA Order 7400.11B dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E airspace extending upward from 700 feet or more above the surface within an 11.2-mile radius (increased from a 6.5-mile radius) of Hamilton Municipal Airport, Hamilton, NY, due to the decommissioning of the Georgetown VORTAC, and cancellation of the VOR approach. The changes enhance the safety and management of IFR operations at the airport.

The geographic coordinates of the airport also are adjusted to coincide with the FAA's aeronautical database, and the airport name is updated to Hamilton Municipal Airport from Elisha Payne Airport.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is

certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Amendment of Class D Airspace and Class E Airspace; Greenwood, MS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class D airspace, and Class E surface area airspace at Greenwood-Leflore Airport, Greenwood, MS, by making an editorial change to the legal descriptions replacing "Airport-Facility Directory" with the term "Chart Supplement". This action also removes the part-time Notice to Airmen (NOTAM) language from Class E airspace designated as an extension to Class D airspace. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at the airport. This action also updates the geographic coordinates of the airport in the Class designations noted in this proposal to coincide with the FAA's aeronautical database. Also, this action corrects the geographic coordinates published in the proposal incorrectly.
