Economic Development Administration

Notice of Petitions by Firms for Determination of Eligibility To Apply for Trade Adjustment Assistance

AGENCY: Economic Development Administration, U.S. Department of Commerce.

ACTION: Notice and opportunity for public comment.

SUMMARY: The Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of the firms contributed importantly to the total or partial separation of the firms' workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Polyester Staple Fiber From the Republic of Korea and Taiwan: Final Results of Changed Circumstances Reviews, and Revocation of Antidumping Duty Orders, in Part

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: For the final results of these changed circumstances reviews (CCRs), the Department of Commerce (Commerce) is revoking, in part, the antidumping duty (AD) orders on polyester staple fiber (PSF) from the Republic of Korea (Korea) and Taiwan with respect to certain low-melt PSF.

DATES: Applicable May 18, 2018.

FOR FURTHER INFORMATION CONTACT: Emily Halle or Nicholas Czajkowski, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue

NW, Washington, DC 20230; telephone (202) 482-0176 or (202) 482-1395, respectively.

SUPPLEMENTARY INFORMATION:

Background

On March 16, 2018, Commerce published the notice of initiation of the CCRs requested by DAK Americas, LLC; Nan Ya Plastics Corporation, America; Auriga Polymers; and Palmetto Synthetics LLC (*i.e.*, the domestic producers) pursuant to section 751(b)(1) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.216(b). The domestic producers requested the revocation of the orders with respect to any low-melt PSF that may be covered by the *Orders*¹ to avoid any potential overlap in coverage between the *Orders* and the AD orders that may result from the pending less-than-fair-value investigations of low-melt polyester staple fiber from Korea and Taiwan.²

On April 19, 2018, Commerce published the preliminary results of these CCRs, in which it found that producers accounting for substantially all of the production of the domestic like product to which the *Orders* pertain lack interest in the relief afforded by the *Orders* with respect to certain low-melt PSF.³ Commerce invited interested

parties to submit comments on the preliminary results. We received no comments.

Final Results of Changed Circumstances Reviews, and Revocation of the Orders, in Part

Because no party submitted comments opposing Commerce's preliminary results, and the record contains no other information or evidence that calls into question the preliminary results, Commerce determines, pursuant to section 751(d)(1) of the Act, section 782(h) of the Act, and 19 CFR 351.222(g), that there are changed circumstances that warrant revocation of the *Orders*, in part. Specifically, because the producers accounting for substantially all of the production of the domestic like product to which the *Orders* pertain lack interest in the relief provided by the *Orders* with respect to the following type of PSF, we are revoking the *Orders*, in part, by replacing the following language currently in the scope of the *Orders*: “{i}n addition, low-melt PSF is excluded from these orders. Low-melt PSF is defined as a bi-component fiber with an outer sheath that melts at a significantly lower temperature than its inner core,” with the following language: “{i}n addition, low-melt PSF is excluded from these orders. Low-melt PSF is defined as a bi-component polyester fiber having a polyester fiber component that melts at a lower temperature than the other polyester fiber component.” The scope description below includes this replacement language.

Scope of the Orders

The product covered by the *Orders* is certain polyester staple fiber (PSF). PSF is defined as synthetic staple fibers, not carded, combed or otherwise processed for spinning, of polyesters measuring 3.3 decitex (3 denier, inclusive) or more in diameter. This merchandise is cut to lengths varying from one inch (25 mm) to five inches (127 mm). The
