SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection. The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and

related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, [USCG–2018–0134], and must be received by June 21, 2018.

OIRA posts its decisions on ICRs online at <http://www.reginfo.gov/public/do/PRAMain> after the comment period for each ICR. An OMB Notice of Action on each ICR will become available via a hyperlink in the OMB Control Number: 1625–0012.

Previous Request for Comments

This request provides a 30-day comment period required by OIRA. The Coast Guard published the 60-day notice (83 FR 9010, March 2, 2018) required by 44 U.S.C. 3506(c)(2). That Notice elicited one comment. The commenter expressed concern about the burden of the master signing all three copies of the collection in ink. The commenter explained that when the entire crew is discharged, the master must sign his name in excess of 60 times. The commenter also proposed allowing digital signatures on the collection.

In response to the burden of signing a certificate more than once, the Coast Guard is bound by regulation in 46 CFR 14.307(a) to require the certificate and its copies to be ink signed. We may consider changing this regulation at a future time. The Coast Guard will not accept electronic signed certificates at this time because the regulation

expressly states they must be ink signed. Additionally, the Coast Guard has not evaluated or selected any certain software for electronic signatures from the public and do not currently have the capabilities to implement electronic signature verification. Accordingly, no changes have been made to the Collections.
