[8–31–2018]

Foreign-Trade Zone 87—Lake Charles, Louisiana; Application for Subzone; Driftwood LNG, LLC; Sulphur, Louisiana

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the Lake Charles Harbor & Terminal District, grantee of FTZ 87, requesting subzone status for the facility of Driftwood LNG, LLC, located in Sulphur, Louisiana. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on May 17, 2018.

The proposed subzone (782 acres) is located at 8000 Global Drive in Sulphur (Calcasieu Parish), Louisiana. No authorization for production activity has been requested at this time.

In accordance with the FTZ Board’s regulations, Camille Evans of the FTZ Staff is designated examiner to review the application and make recommendations to the FTZ Board. Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board’s Executive Secretary at the address below. The closing period for their receipt is July 2, 2018. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to July 16, 2018.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230–0002, and in the “Reading Room” section of the FTZ Board’s website, which is accessible via www.trade.gov/ftz.

For further information, contact Camille Evans at Camille.Evans@trade.gov or (202) 482–2350.

Andrew McGilvray,
Executive Secretary.

Stainless Steel Bar From Brazil: Final Results of Antidumping Duty Administrative Review; 2016–2017

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On March 1, 2018, the Department of Commerce (Commerce) published the preliminary results of the administrative review of the antidumping duty order on stainless steel bar (SSB) from Brazil. The period of review (POR) is February 1, 2016, through January 31, 2017. For the final results of this review, we continue to find that Villares Metals S.A. (Villares) has not made sales of subject merchandise at less than normal value during the POR.

SUPPLEMENTARY INFORMATION:

Background

On March 1, 2018, Commerce published the Preliminary Results of the administrative review of the antidumping duty order on SSB from Brazil. The administrative review covers one producer/exporter of the subject merchandise, Villares. We gave interested parties an opportunity to comment on the Preliminary Results. We received no comments. Hence, these final results are unchanged from the Preliminary Results. Commerce conducted this review in accordance with section 751(a)(1)(B) and (2) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The merchandise subject to the order is SSB. The term SSB with respect to the order means articles of stainless steel in straight lengths that have been either hot-rolled, forged, turned, cold-drawn, cold-rolled or otherwise cold-finished, or ground, having a uniform solid cross section along their whole length in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles, hexagons, octagons or other convex polygons. SSB includes cold-finished SSBs that are turned or ground in straight lengths, whether produced from hot-rolled bar or from straightened and cut round or wire, and reinforcing bars that have indentations, ribs, grooves, or other deformations produced during the rolling process.

Except as specified above, the term does not include stainless steel semi-finished products, cut length flat-rolled products (i.e., cut length rolled products which if less than 4.75 mm in thickness have a width measuring at least 10 times the thickness, or if 4.75 mm or more in thickness having a width which exceeds 150 mm and measures at least twice the thickness), wire (i.e., cold-formed products in coils, of any uniform solid cross section along their whole length, which do not conform to the definition of flat-rolled products), and angles, shapes and sections.

The SSB subject to the order is currently classifiable under subheadings 7222.10.00, 7222.11.00, 7222.19.00, 7222.20.00, 7222.30.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the order is dispositive.

Final Results of the Administrative Review

We determine that a weighted-average dumping margin of 0.00 percent exists for Villares for the period of February 1, 2016, through January 31, 2017.

Assessment

In accordance with section 751(a)(2)(C) of the Act, 19 CFR 351.212(b)(1) and the Final Modification, Commerce will instruct U.S. Customs and Border Protection (CBP) to liquidate all appropriate entries for Villares without regard to antidumping duties.

For entries of subject merchandise during the POR produced by Villares for
