Certain Cold-Rolled Steel Flat Products From the People's Republic of China: Affirmative Final Determination of Circumvention of the Antidumping Duty and Countervailing Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that imports of certain cold-rolled steel flat products (CRS), produced in the Socialist Republic of Vietnam (Vietnam) using carbon hot-rolled steel (HRS) manufactured in the People's Republic of China (China), are circumventing the antidumping duty (AD) and countervailing duty (CVD) orders on CRS from China.

DATES: Applicable May 23, 2018.

FOR FURTHER INFORMATION CONTACT: Tyler Weinhold or John Drury, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-1121 or (202) 482-0195, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 11, 2017, Commerce published the *Preliminary Determination*¹ of circumvention of the *CRS Orders*.² A summary of the events that occurred since Commerce published the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.³ The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and it is available to all parties in the Central Records Unit, room B8024 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Scope of the Orders

The products covered by these orders are certain cold-rolled (cold-reduced), flat-rolled steel products, whether or not annealed, painted, varnished, or coated with plastics or other non-metallic substances. For a complete description of the scope of the orders, see the Issues and Decision Memorandum.

Scope of the Anti-Circumvention Inquiries

These anti-circumvention inquiries cover CRS produced in Vietnam using HRS substrate manufactured in China and subsequently exported from Vietnam to the United States (inquiry merchandise). These rulings apply to all

shipments of inquiry merchandise on or after the date of the initiation of these inquiries. Importers and exporters of CRS produced in Vietnam using HRS manufactured in Vietnam or third countries must certify that the HRS processed into CRS in Vietnam did not originate in China, as provided for in the certifications attached to this **Federal Register** notice. Otherwise, their merchandise may be subject to antidumping and countervailing duties.

Methodology

Commerce is conducting these anti-circumvention inquiries in accordance with section 781(b) of the Tariff Act of 1930, as amended (the Act). Because Vietnam and China⁴ are non-market economy countries, within the meaning of section 771(18) of the Act, Commerce calculated the value of certain processing and merchandise using factors of production and market economy values, as discussed in section 773(c) of the Act. Because Vietnam and China are non-market economy countries, within the meaning of section 771(18) of the Act, in the *Preliminary Determination* Commerce calculated the value of certain processing and merchandise using factors of production and market economy values, as discussed in section 773(c) of the Act. See Preliminary Decision Memorandum for a full description of the methodology. We have continued to apply this methodology for our final determination. For further information, see Comment 6 of the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in these inquiries are addressed in the Issues and Decision Memorandum. A list of the issues raised is attached to this notice as Appendix I.

Based on our analysis of the comments received and our findings at verification, we made certain changes to our value of processing calculation

since the *Preliminary Determination*. These changes are discussed in the Issues and Decision Memorandum.

Final Affirmative Determination of Circumvention

We determine that CRS produced in Vietnam from HRS substrate manufactured in China is circumventing the *CRS Orders*. We, therefore, find it appropriate to determine that this merchandise falls within the *CRS Orders* and to instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of any entries of CRS from Vietnam produced using HRS substrate manufactured in China.

Continuation of Suspension of Liquidation

As stated above, Commerce has made an affirmative determination of circumvention of the *CRS Orders* by exports to the United States of CRS produced in Vietnam using Chinese-origin HRS substrate. This circumvention finding applies to CRS produced by any Vietnamese company using Chinese-origin HRS substrate. In accordance with 19 CFR 351.225(l)(3), Commerce will direct CBP to continue to suspend liquidation and to require a cash deposit of estimated duties on unliquidated entries of CRS produced in Vietnam using Chinese-origin HRS substrate that were entered, or withdrawn from warehouse, for consumption on or after November 4, 2016, the date of initiation of these anti-circumvention inquiries.

The suspension of liquidation instructions will remain in effect until further notice. Commerce will instruct CBP to require AD cash deposits equal to the rate established for the China-wide entity (199.76 percent) and CVD cash deposits equal to the rate established for China all-others rate (256.44 percent). In the underlying AD and CVD investigations, there were no cooperating respondents and, accordingly, all producers/exporters, as appropriate, of subject merchandise received the same AD rate of 199.76 and CVD rate of 256.44.

CRS produced in Vietnam using HRS substrate that is not of Chinese-origin is not subject to these inquiries. Therefore, cash deposits are not required for such merchandise. If an importer imports CRS from Vietnam and it claims that the CRS was not produced using HRS substrate manufactured in China, in order not to be subject to cash deposit requirements, the importer and exporter are required to meet the certification and documentation requirements described in Appendix II. Exporters of CRS produced in Vietnam using non-

Chinese origin HRS substrate must prepare and maintain an Exporter Certification and documentation supporting the Exporter Certification (see Appendix IV). In addition, importers of such CRS must prepare and maintain an Importer Certification (see Appendix III) as well as documentation supporting the Importer Certification. In addition to the Importer Certification, the importer must also maintain a copy of an Exporter Certification (see Appendix IV) and relevant supporting documentation from its exporter of CRS produced using non-Chinese-origin HRS substrate.

Notification Regarding Administrative Protective Orders

This notice will serve as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction or APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

These determinations are issued and published in accordance with section 781(b) of the Act and 19 CFR 351.225(f).

Dated: May 16, 2018.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix II—Certification Requirements

If an importer imports certain cold rolled steel products (CRS) from the Socialist Republic of Vietnam (Vietnam) and claims that the CRS was not produced using hot-rolled steel substrate (substrate) manufactured in the People’s Republic of China (China), the importer is required to complete and maintain the importer certification attached as Appendix III. The importer is further required to maintain a copy of the exporter certification, discussed below. The importer certification must be completed, signed, and dated at the time of filing of the entry summary for the relevant importation. Where the importer uses a broker to facilitate the entry process, it should obtain the entry number from the broker. Agents of the importer, such as brokers, however, are not permitted to make this certification.

The exporter is required to complete and maintain the exporter certification, attached as Appendix IV, and is further required to provide the importer a copy of that certification. The exporter certification must be completed, signed, and dated before or at the time of shipment of the relevant entries. The exporter certification should be completed by the party selling the merchandise manufactured in Vietnam to the United States, which is not necessarily the producer of the product.

The importer and third-country exporter are also required to maintain sufficient documentation (as indicated in the certifications) supporting their certifications.

The importer will not be required to submit the certifications or supporting documentation to U.S. Customs and Border Protection (CBP) as part of the entry process. However, the importer and the exporter will be required to present the certifications and supporting documentation, to the U.S. Department of Commerce (Commerce) and/or CBP, as applicable, upon request by the respective agency. Additionally, the claims made in the certifications and any supporting documentation are subject to verification by Commerce and/or CBP. The importer and exporter are required to maintain the certifications and supporting documentation for the later of (1) a period of five years from the date of entry or (2) a period of three years after the conclusion of any litigation in United States courts regarding such entries. If it is determined that the certification and/or documentation requirements in a certification have not been met, Commerce intends to instruct CBP to suspend, under the China CRS orders A–570–029 and C–570–030, all unliquidated entries for which these

requirements were not met and require the importer to post applicable antidumping duty (AD) and/or countervailing duty (CVD) cash deposits equal to the rates as determined by Commerce. Entries suspended under A-570-029 and C-570-030 will be liquidated pursuant to applicable administrative reviews of the China orders or through the automatic liquidation process.

For CRS produced in Vietnam using Chinese hot-rolled substrate, Commerce has established the following third-country case numbers in the Automated Commercial Environment (ACE): A-552-996 and C-552-997.

For entries suspended pursuant to the *Preliminary Determination* of these anti-circumvention inquiries that were (1) shipped and/or (2) entered, or withdrawn from warehouse, for consumption during the period November 4, 2016, through December 10, 2017, the day preceding publication of the preliminary determination in the **Federal Register**, which are claimed to be produced using non-Chinese HRS substrate, Commerce permitted importer and exporter certifications to be completed for a limited period following the *Preliminary Determination*.⁵ Specifically, Commerce required completion of the importer and exporter certifications within 45 days of publication of the *Preliminary Determination Federal Register* notice. Likewise, for such merchandise, the exporter was required to provide the importer a copy of the exporter certification within 45 days of the *Preliminary Determination* publication.

For unliquidated entries (and entries for which liquidation has not become final) of merchandise entered as type 01 entries that were (1) shipped and/or (2) entered, or withdrawn from warehouse, for consumption during the period November 4, 2016, through December 10, 2017, the day preceding publication of the preliminary determination in the **Federal Register**, produced from Chinese substrate, importers should file a Post Summary Correction with CBP, in accordance with CBP's regulations, regarding possible conversion of such entries from type 1 to type 3 entries and report those type 3 entries using the third-country case numbers A-552-996 and C-552-997. Accordingly, the importer also should pay cash deposits on those entries consistent with the regulations governing post summary corrections that require payment of additional duties.

For merchandise (1) shipped and/or (2) entered, or withdrawn from warehouse, for consumption during the period November 4, 2016, through December 10, 2017, the day preceding publication of the preliminary determination in the **Federal Register**, for which certifications are required, importers and exporters each had the option to complete a blanket certification covering multiple entries, individual certifications for each entry, or a combination thereof.⁶ The

⁵ Commerce Memorandum, "Clarification of Certification Requirements Pursuant to Preliminary Affirmative Anti-circumvention Rulings and Extension of 30-Day Deadline for Pre-Preliminary Determination Shipments," dated January 9, 2018, at 2-3.

⁶ Commerce Memorandum, "Clarification of Certification Requirements Pursuant to Preliminary

importer certifications, and copies of the exporter certifications, should be maintained by the importer and provided to CBP or Commerce upon request by the respective agency.

Appendix III—Importer Certification

I hereby certify that:

- My name is {INSERT COMPANY OFFICIAL'S NAME} and I am an official of {IMPORTING COMPANY};
- This certification pertains to {INSERT ENTRY NUMBER(S), ENTRY LINE NUMBER(S), AND PRODUCT CODE(S) REFERENCED ON ENTRY SUMMARY};
- I have direct personal knowledge of the facts regarding the importation into the Customs territory of the United States of the cold-rolled steel products produced in the Socialist Republic of Vietnam (Vietnam) that entered under entry number(s) {INSERT ENTRY NUMBER(S)} and are covered by this certification. "Direct personal knowledge" for purposes of this certification refers to facts in records maintained by the importing company in the normal course of its business. The importer should have "direct personal knowledge" of the importation of the product (e.g., the name of the exporter) in its records;
- I have personal knowledge of the facts regarding the production of the imported products covered by this certification. "Personal knowledge" for purposes of this certification includes facts obtained from another party (e.g., correspondence received by the importer (or exporter) from the producer regarding the source of the substrate used to produce the imported products);
- The cold-rolled steel products produced in Vietnam that are covered by this certification do not contain hot-rolled steel substrate produced in the People's Republic of China;

• I understand that {INSERT IMPORTING COMPANY NAME} is required to maintain a copy of this certification and sufficient documentation supporting this certification (i.e., documents maintained in the normal course of business, or documents obtained by the certifying party, for example, mill certificates, production records, invoices, etc.) for the later of (1) a period of five years from the date of entry or (2) a period of three years after the conclusion of any litigation in the United States courts regarding such entries;

• I understand that {INSERT IMPORTING COMPANY NAME} is required to provide this certification and supporting records, upon request, to U.S. Customs and Border Protection (CBP) and/or the Department of Commerce (Commerce);

• I understand that {INSERT IMPORTING COMPANY NAME} is required to maintain a copy of the Exporter's Certification for the later of (1) a period of five years from the date of entry or (2) a period of three years after the conclusion of any litigation in United States courts regarding such entries;

Polyethylene Retail Carrier Bags From Malaysia: Final Results of Antidumping Duty Administrative Review; 2016-2017

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) has completed the administrative review of the antidumping duty order on

polyethylene retail carrier bags from Malaysia for the period of review (POR) August 1, 2016, through July 31, 2017.

We continue to find that Euro SME Sdn Bhd (Euro SME) did not have shipments of subject merchandise during the POR.

DATES: Applicable May 23, 2018.

FOR FURTHER INFORMATION CONTACT: Alex Rosen or Brendan Quinn, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-7814 or (202) 482-5848, respectively.

SUPPLEMENTARY INFORMATION:

Background

On March 19, 2018, Commerce published the *Preliminary Results*.¹ We invited interested parties to comment on the *Preliminary Results*.² We received a case brief from the Polyethylene Retail Carrier Bag Committee and its individual members, Hilex Poly Co., LLC and Superbag Corp. (the petitioners).³ No other parties submitted comments or rebuttal comments.

Scope of the Order

The merchandise subject to this antidumping duty order is polyethylene retail carrier bags (PRCBs), which also may be referred to as t-shirt sacks, merchandise bags, grocery bags, or checkout bags. The subject merchandise is defined as non-sealable sacks and bags with handles (including drawstrings), without zippers or integral extruded closures, with or without gussets, with or without printing, of polyethylene film having a thickness no greater than 0.035 inch (0.889 mm) and no less than 0.00035 inch (0.00889 mm), and with no length or width shorter than 6 inches (15.24 cm) or longer than 40 inches (101.6 cm). The depth of the bag may be shorter than 6 inches (15.24 cm) but not longer than 40 inches (101.6 cm).

PRCBs are typically provided without any consumer packaging and free of charge by retail establishments, *e.g.*, grocery, drug, convenience, department, specialty retail, discount stores, and restaurants to their customers to package and carry their purchased products. The scope of this antidumping duty order excludes (1) PRCBs that are

not printed with logos or store names and that are closeable with drawstrings made of polyethylene film and (2) PRCBs that are packed in consumer packaging with printing that refers to specific end-uses other than packaging and carrying merchandise from retail establishments, *e.g.*, garbage bags, lawn bags, trash-can liners.

Imports of merchandise included within the scope of this antidumping duty order are currently classifiable under statistical category 3923.21.0085 of the Harmonized Tariff Schedule of the United States (HTSUS). This subheading may also cover products that are outside the scope of this antidumping duty order. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this antidumping duty order is dispositive.

Comments Received

On April 11, 2018, the petitioners submitted a case brief which notes only that the 2.40 percent rate listed for all-other producers or exporters in the *Preliminary Results* notice is incorrect, and that the final results should reflect the 84.94 percent all-others rate established in the investigation of this order.⁴ Because this issue is addressed *infra*, and no further issues were briefed in the instant proceeding, no decision memorandum accompanies this **Federal Register** notice.

Changes Since the Preliminary Results

The *Preliminary Results* stated that, “effective upon publication of the final results of this administrative review . . . the cash deposit rate for all other producers or exporters is 2.40 percent.”⁵ The 2.40 percent rate for all-other producers or exporters, as stated in the *Preliminary Results* notice, was a typographical error. Commerce agrees with the petitioners that it determined an all-others rate of 84.94 percent in the *Investigation*,⁶ that this all-others rate has not changed.⁷ Thus, the correct rate applicable to all-other producers or exporters in this review continues to be 84.94 percent. Accordingly, we are correcting the all-others rate listed in the “Cash Deposit Requirements” section below to accurately reflect the
