SUPPLEMENTARY INFORMATION:

A. Purpose

This information collection requires information necessary for prime applicants and recipients, excepting individuals, of Federal grants to register in the System for Award Management (SAM) and maintain an active SAM registration with current information at all times during which they have an active Federal award or an application or plan under consideration by an agency pursuant to 2 CFR Subtitle A, Chapter I, and part 25 (75 FR 55673 as amended at 79 FR 75879). 2 CFR Subtitle A, Chapter I, and part 25 designates SAM as the governmentwide repository for standard information about applicants and recipients. 2 CFR Subtitle A, Chapter II, and part 200 (80 FR 43308) also designates SAM as the system recipients are required to report certain civil, criminal, or administrative proceedings if they meet certain conditions. Further, Federal awarding agencies are required to check SAM for pre-award purposes in accordance with 2 CFR part 180. This information collection requires that all prime grant awardees, subject to the requirements in 2 CFR Subtitle A, Chapter I, and part 25 register and maintain their registration in SAM.

Pursuant to 2 CFR Subtitle A, Chapter II, part 200, Subpart C, Section 200.208 Certifications and representations, Federal agencies are authorized to require non-Federal entities to submit certifications and representations required by Federal statutes, or regulations on an annual basis.

Currently, most Federal agencies require non-Federal entities to submit certifications with each Federal assistance application by use of the Assurances for Non-Construction Programs (SF-424B) and on an annual basis thereafter. To streamline this data collection and to reduce burden, OMB, in conjunction with the Federal assistance community, developed standard governmentwide certifications and representations to be certified by the non-Federal entity when registering in SAM. In Fiscal Year 2019, OMB will reemphasize that SAM is the repository for standard information about applicants and recipients and that the standard governmentwide certifications and representations are to be certified within SAM at the time of registration and/or registration renewal should meet the need of governmentwide certifications and representations. This will reduce the unnecessary, duplicative practice of agencies requesting certifications and representations with the submission of each application and lead to phasing out the use of the SF-424B, thereby decreasing the burden level of Federal grant recipients and Federal agencies.

FOR FURTHER INFORMATION CONTACT: Mr. Curtis E. Glover, Sr. Procurement Analyst, Federal Acquisition Policy Division, GSA, telephone number 202-501-1448, or via email to curtis.glover@gsa.gov.

SUPPLEMENTARY INFORMATION: A. Federal Acquisition Regulation (FAR) Subpart 4.11 prescribes policies and procedures for requiring contractor registration in the System for Award Management (SAM) database to: (1) Increase visibility of vendor sources (including their geographical locations) for specific supplies and services; and (2) establish a common source of vendor data for the Government.

In the past, the GSA Office of Inspector General (OIG) conducted an investigation into fraudulent activities discovered within SAM. Certain bad actors have, through electronic means, used public information to impersonate legitimate entities and established new entity registrations for those entities in SAM. By establishing fraudulent entity registrations, bad actors submitted bids in certain U.S. Government procurement systems or shipped deficient or counterfeit goods to the U.S. Government. GSA established a new Information Collection Request (ICR) to collect additional information to support increased validation of entities registered and registering in the System for Award Management (SAM). This additional information is contained in a notarized letter in which an officer or other signatory authority of the entity formally appoints the Entity Administrator for the entity registering or recertifying in SAM. The original, signed letter is mailed to the Federal Service Desk for SAM prior to the registration's activation or re-registration.

The new ICR expires September 30, 2018, without authority for an extension. GSA is actively pursuing

technical alternatives to the collection of this information for all non-federal entities. GSA seeks to refine the requirement and adopt a risk-based approach. This notice for an extension of the ICR lays the groundwork for the authority to continue collection of the information provided GSA is still pursuing the technical alternative beyond the ICR expiration date. In the interim, the collection of the notarized letter information is essential to GSA's acquisition mission to meet the needs of all federal agencies, as well as the needs of the grant community. A key element of GSA's mission is to provide efficient and effective acquisition solutions across the Federal Government. SAM is essential to the accomplishment of that mission. In addition to federal contracts, federal assistance programs also rely upon the integrity and security of the information in SAM. Without assurances that the information in SAM is protected and, is at minimal risk of compromise, GSA would risk losing the confidence of the federal acquisition and assistance communities which it serves. As a result, some entities may prefer not to do business with the Federal Government.

B. Annual Reporting Burden.

Respondents: 686,400.

Responses per Respondent: 1.

Total Annual Responses: 686,400.

Hours per Response: 2.25.

Total Burden Hours: 1,544,400.

The information collection allows GSA to request the notarized letter, and apply this approach to new registrants (an average of 7,200 per month) and to existing SAM registrants (an average of 50,000 re-register per month).

Entities registered and registering in SAM are provided the template for the requirements of the notarized letter. It is estimated that the Entity Administrator will take on average 0.5 hour to create the letter and 0.25 hour to mail the hard copy letter. GSA proposes that an Entity Administrator equivalent to a GS-5, Step 5 Administrative Support person within the Government would perform these tasks. The estimated hourly rate of \$24.70 (Base + Locality + Fringe) was used for the calculation.

Based on historical data of the ratio of small entities to other than small entities registering in SAM, GSA approximates 32,200 of the 57,200 new and existing entities (re-registrants) will have in-house resources to notarize

documents. GSA proposes that the entities with in-house notaries will typically be large businesses where the projected salary of the executive or officer responsible for signing the notarized letter is on average approximately \$150 per hour. The projected time for signature and notarizing the letter internally is 0.5 hour.

The other remaining 25,000 new and existing entities (re-registrants) per month are estimated to be small entities where the projected salary of the executive or officer responsible signing the notarized letter is on average approximately \$100 per hour. These entities will more than likely have to obtain notary services from an outside source. The projected time for signature and notarizing the letter externally is 1 hour. The estimate includes a nominal fee (\$5.00) usually charged by third-party notaries.
