DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60 Day-18-18AEJ; Docket No. CDC-2018-
0048]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and
Prevention (CDC), Department of Health
and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease
Control and Prevention (CDC), as part of
its continuing effort to reduce public
burden and maximize the utility of

government information, invites the
general public and other Federal
agencies the opportunity to comment on
a proposed and/or continuing
information collection, as required by
the Paperwork Reduction Act of 1995.
This notice invites comment on a
proposed information collection project
titled Applied Research to Address
Emerging Public Health Priorities, a
broad agency announcement for the
competitive selection of research
proposals.

DATES: CDC must receive written
comments on or before July 30, 2018.

ADDRESSES: You may submit comments,
identified by Docket No. CDC-2018-
0048 by any of the following methods:

- *Federal eRulemaking Portal:*
Regulations.gov. Follow the instructions
for submitting comments.

- *Mail:* Jeffery M. Zirger, Information
Collection Review Office, Centers for
Disease Control and Prevention, 1600
Clifton Road NE, MS-D74, Atlanta,
Georgia 30329.

Instructions: All submissions received
must include the agency name and
Docket Number. CDC will post, without
change, all relevant comments to
Regulations.gov.

Please note: Submit all comments through
the Federal eRulemaking portal
(regulations.gov) or by U.S. mail to the
address listed above.

FOR FURTHER INFORMATION CONTACT: To
request more information on the
proposed project or to obtain a copy of
the information collection plan and
instruments, contact Jeffery M. Zirger,
Information Collection Review Office,
Centers for Disease Control and
Prevention, 1600 Clifton Road NE, MS-
D74, Atlanta, Georgia 30329; phone:
404-639-7570; email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the
Paperwork Reduction Act of 1995 (PRA)
(44 U.S.C. 3501-3520), Federal agencies
must obtain approval from the Office of
Management and Budget (OMB) for each
collection of information they conduct
or sponsor. In addition, the PRA also
requires Federal agencies to provide a
60-day notice in the **Federal Register**
concerning each proposed collection of
information, including each new
proposed collection, each proposed
extension of existing collection of
information, and each reinstatement of
previously approved information
collection before submitting the
collection to the OMB for approval. To
comply with this requirement, we are
publishing this notice of a proposed
data collection as described below.

The OMB is particularly interested in
comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
5. Assess information collection costs.

Proposed Project

Applied Research to Address Emerging Public Health Priorities—New ICR—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

On March 26, 2018, CDC issued a Broad Agency Announcement (FY2018–OADS–01) available at <https://www.fbo.gov/spg/HHS/CDCP/PGOA/FY2018-OADS-BAA/listing.html>. There

is potential for standardized information collection attached to a limited number of awarded projects. For those projects, a 30-day notice will be published in the **Federal Register** and information collection requests will be submitted to OMB for approval. This **Federal Register** notice is intended to broadly inform the public of CDC’s intent to contract with researchers to carry out a variety of different research projects awarded through this announcement. For this announcement, CDC has identified the following research areas of interest. Interested parties are invited to consider innovative approaches to support advanced research and development strategies in the following research areas of interest:

1. New Diagnostic, Sequencing, and Metagenomic Tools for AR Detection and Improved Antibiotic Use

2. International Transmission, Colonization, and Prevention of AR Pathogens

3. Domestic Transmission, Colonization, and Prevention of AR Pathogens and CDI

4. Develop Human Microbiome Disruption Indices Relevant to Antibiotic Resistance

5. Antibiotic Resistant Pathogens and Genes in Water Systems and the Environment and their Contribution to Human Infections

6. Improving Antibiotic Stewardship

7. Approaches to Prevention and Control of Parasitic Infections in the United States

8. Approaches to Prevention and Control of Parasitic Infections and Neglected Tropical Diseases Globally
9. Surveillance and Control of Arthropod Vectors of Human Pathogens
10. Modernization of the Surveillance Data Platform

Contracts that are awarded based on responses to this BAA are as a result of full and open competition and therefore in full compliance with the provisions of Public Law 98–369, “The Competition in Contracting Act of 1984.” CDC contracts with educational institutions, nonprofit organizations, state and local government, and private industry for research and development (R&D) in those areas covered in this BAA.

The public is invited to look at the BAA online for greater detail and more specific research areas falling under the ten topics listed above.

Authorizing legislation comes from Section 301 of the Public Health Service Act. Responses will be voluntary and it is not expected that there will be any cost to respondents other than the time to participate in information collection. The total estimated burden for all of the information collections is not expected to exceed 1,500 hours (100 hours of burden for a maximum of 15 potentially PRA-applicable contracts).

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Public	Information collection	150	10	1	1,500
Total					1,500

Jeffery M. Zirger,
Acting Chief, Information Collection Review Office, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.
