SUPPLEMENTARY INFORMATION:

I. Background

SBA is contemplating making substantive changes to the regulations governing both the 8(a) BD (13 CFR part 124) and HUBZone (13 CFR part 126) programs, and requests comments and input on how best to reduce unnecessary or excessive regulatory burdens in those programs. Particularly, SBA is interested in comments related to two planned rulemakings: (1) Small Business HUBZone Program and Government Contracting Programs (RIN

3245-AG38); and (2) Consolidation of Mentor Protégé Programs and Other Government Contracting Amendments (RIN 3245-AG94). The first-mentioned planned rulemaking would constitute a comprehensive revision of part 126 of SBA's regulations to clarify current HUBZone program regulations, and implement various new procedures. The latter planned rulemaking contemplates consolidating the All Small Mentor Protégé Program and the 8(a) Mentor Protégé Program into one program and possibly eliminating SBA's role in approving joint venture agreements for 8(a) competitive contracts. In addition, it would revise SBA's process for approving management changes in entity-owned 8(a) firms. It is SBA's intent to implement changes that will make it easier for small business concerns to understand and comply with the programs' requirements. SBA is also seeking to make these programs more effective and improve the delivery of them to the small business community. SBA understands that some of its regulations have significantly adversely affected small business concerns owned and controlled by tribes and Alaska Native Corporations (ANCs), including 8(a) change of ownership requirements and the process for changing an 8(a) firm's primary NAICS code, and seeks tribal participation to ease these burdens. Lastly, SBA notes that the HUBZone program is often not being fully utilized by procuring agencies, and seeks input on what changes could be made to make the HUBZone program more attractive to both procuring agencies and small businesses.

In addition to the above, the Agency is seeking comments on two recommended regulatory amendments that were proposed during a May 9, 2018, tribal consultation meeting, in Anchorage, Alaska. One such amendment would require prospective 8(a) BD program applicants to complete a preparatory tutorial designed to help such concerns determine whether they are ready to fully benefit from the program's business development assistance. SBA requests input as to whether an 8(a) preparatory tutorial would be helpful to the small business community, and whether any such tutorial should be optional or mandatory for firms seeking to obtain 8(a) certification. The other amendment would allow mentors participating in SBA's mentor protégé programs to have more than three protégés at one time. SBA is concerned that allowing a large business mentor to have additional protégé firms at one time could permit

them to unduly benefit from small business contracts, through joint ventures with their protégé firms, which they would otherwise not be eligible for. Nevertheless, SBA is seeking comments on whether lifting the current regulatory limit would benefit small businesses and further the programs' purpose.

II. Tribal Consultation Meetings

The purpose of these tribal consultation meetings is to conform to the requirements of Executive Order 13175, Tribal Consultations; to provide interested parties with an opportunity to discuss their views on the issues; and for SBA to obtain the views of SBA's stakeholders on approaches to the 8(a) BD program and HUBZone program regulations. SBA considers tribal consultation meetings a valuable component of its deliberations and believes that these tribal consultation meetings will allow for constructive dialogue with the Tribal community, Tribal Leaders, Tribal Elders, elected members of Alaska Native Villages or their appointed representatives, and principals of tribally-owned and ANC-owned firms participating in the 8(a) BD and HUBZone programs.

The format of these tribal consultation meetings will consist of a panel of SBA representatives who will preside over the session. The oral and written testimony as well as any comments SBA receives will become part of the administrative record for SBA's consideration. Written testimony may be submitted in lieu of oral testimony. SBA will analyze the testimony, both oral and written, along with any written comments received. SBA officials may ask questions of a presenter to clarify or further explain the testimony. The purpose of these tribal consultations is to assist SBA with gathering information to guide SBA's review process and to potentially develop new proposals. SBA requests that the comments focus on SBA's two planned rulemakings relating to the 8(a) BD and HUBZone programs, the two proposed regulatory revisions SBA received at the tribal consultation in Anchorage, Alaska, general issues as they pertain to the 8(a) BD and HUBZone regulations, input related to what changes could be made to make these programs more attractive to procuring agencies and small businesses, or the unique concerns of the Tribal communities. SBA requests that commenters do not raise issues pertaining to other SBA small business programs. Presenters are encouraged to provide a written copy of their testimony. SBA will accept written material that the presenter wishes to provide that further supplements his or

her testimony. Electronic or digitized copies are encouraged.

Each tribal consultation meeting will be held for one day. The meeting in Albuquerque, NM will begin at 10:00 a.m. and end at 2:30 p.m. (MDT) and the meeting in Oklahoma City, OK will begin at 10:00 a.m. and end at 2:00 p.m. (CDT). SBA will adjourn early if all those scheduled have delivered their testimony.

III. Registration

SBA respectfully requests that any elected or appointed representative of the tribal communities or principal of a tribally-owned or ANC-owned 8(a) firm that is interested in attending please pre-register in advance and indicate whether you would like to testify at the hearing. Registration requests for the tribal consultation meetings in Albuquerque and Oklahoma City should be received by SBA by May 31, 2018 and June 1, 2018, respectively. Please contact Chequita Carter of SBA's Office of Native American Affairs in writing at Chequita.Carter@sba.gov or by facsimile to (202) 481-2177. If you are interested in testifying please include the following information relating to the person testifying: Name, Organization affiliation, Address, Telephone number, Email address and Fax number. SBA will attempt to accommodate all interested parties that wish to present testimony. Based on the number of registrants it may be necessary to impose time limits to ensure that everyone who wishes to testify has the opportunity to do so. SBA will confirm in writing the registration of presenters and attendees.

Discussion

The European Aviation Safety Agency (EASA), which is the Technical Agent for the Member States of the European Union, has issued EASA AD 2017-0219, dated November 14, 2017 (referred to after this as the Mandatory Continuing Airworthiness Information, or "the MCAI"), to correct an unsafe condition for certain Dassault Aviation Model FALCON 900EX airplanes. The MCAI states:

An occurrence was reported where, during the take-off run, a red CAS [crew alerting system] message "NO TAKE OFF" was displayed, and an aural warning was given. The flight crew elected to abort the take-off. The configuration of the affected aeroplane was SF1 and indicated airspeed (IAS) was at 100 kts. Investigations showed that the outboard slat extended microswitch, located at track #7, was not correctly adjusted. A design review revealed that this deficiency may affect only Falcon 900LX (commercial designation) without modification M5636, during take-off in SF1 configuration.

This condition, if not corrected, could lead to an uncommanded retraction of inboard slats and flaps during take-off, possibly resulting in reduced control of the aeroplane.
