SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

An authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth.

Summary of Request

On October 27, 2017, NMFS issued an IHA to Venoco to take marine mammals, by Level B harassment, incidental to the Casitas Pier Fender Pile Replacement Project, effective from November 1, 2017, through October 31, 2018 (82 FR 55579). On January 1, 2018, Chevron succeeded Venoco as the owner and operator of Carpinteria Gas Plant, including Casitas Pier.

Chevron subsequently submitted a written request to transfer the current IHA from Venoco to Chevron. With the transfer of the Casitas Pier IHA, Chevron agrees to comply with the associated terms, conditions, stipulations, and restrictions of the original Casitas Pier IHA. No other changes were requested. The revised IHA, if issued, would remain effective through October 31, 2018.

This **Federal Register** notice sets forth only a proposed change in the Casitas

Pier IHA holder's name. There are no other changes to the current IHA as described in the November 22, 2017, **Federal Register** notice of a final IHA (82 FR 55579): The specified activity; description of marine mammals in the area of the specified activity; potential effects on marine mammals and their habitat; mitigation and related monitoring used to implement mitigation; reporting; estimated take by incidental harassment; negligible impact and small numbers analyses and determinations; impact on availability of affected species or stocks for subsistence uses and the period of effectiveness remain unchanged and are herein incorporated by reference.

Proposed Revisions to the Casitas Pier IHA

NMFS is proposing a change in the name of the holder of the Casitas Pier IHA from "Venoco, LLC" to "Chevron USA, Inc".

Request for Public Comments

NMFS invites comment on the proposed change to the current IHA. Please include with your comments any supporting data or literature citations to help inform our final decision on Venoco and Chevron's request for transfer of the Casitas Pier authorization.
