

L. 104–13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. The Office of Strategic Employee and Organization Development, Federal Consulting Group has submitted a request to Office of Management and Budget to renew its approval of this collection of information for three years.

This information collection activity provides a means to consistently assess, benchmark, and improve customer satisfaction with Federal government agency websites within the Executive Branch. The Federal Consulting Group of the Department of the Interior serves as the executive agent for this methodology and has partnered with ForeSee to offer this assessment to federal agencies.

ForeSee is a leader in customer satisfaction and customer experience management on the web and related media. Its methodology (Customer Experience Analytics or CXA) is a derivative of one of the most respected, credible, and well known measures of customer satisfaction in the country, the American Customer Satisfaction Index (ACSI). The ForeSee CXA methodology combines survey data and a patented econometric model to precisely measure the customer satisfaction of website users, identify specific areas for improvement, and determine the impact of those improvements on customer satisfaction and future customer behaviors.

The ForeSee CXA is the only cross-agency methodology for obtaining comparable measures of customer satisfaction with Federal Government websites. The ultimate purpose of ForeSee CXA is to help improve the quality of goods and services available to American citizens, including those from the Federal government.

The E-Government website Customer Satisfaction Surveys will be completed subject to the Privacy Act of 1974, Public Law 93–579, December 31, 1974 (5 U.S.C. 522a). The agency information collection will be used solely for the purpose of the survey. The contractor will not be authorized to release any agency information upon completion of the survey without first obtaining permission from the Federal Consulting Group and the participating agency. In no case shall any new system of records containing privacy information be developed by the Federal Consulting Group, participating agencies, or the contractor collecting the data. In addition, participating Federal agencies may only provide information used to

randomly selected respondents from among established systems of records provided for such routine uses.

There is no other agency or organization able to provide the information accessible through the surveying approach used in this information collection. Further, the information will enable Federal agencies to determine customer satisfaction metrics with discrimination capability across variables. Thus, this information collection will assist Federal agencies in making the best use of resources in a targeted manner to improve service to the public.

This survey asks no questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, or other matters that are commonly considered private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it is operating under a currently valid Office of Management and Budget control number. The Office of Management and Budget control number for this collection is 1090–0008. The control number will be displayed on the surveys used. For expeditious administration of the surveys, the expiration date will not be displayed on the individual instruments. Response to the surveys is voluntary.

Title of Collection: American Customer Satisfaction Index (ACSI) E-Government website Customer Satisfaction Surveys

OMB Control Number: 1090–0008

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Individuals, Business, and State, Local, or Tribal Governments who have utilized Federal Government services.

Estimated Completion Time per Response: Participation by Federal agencies will vary as new websites are added or deleted. However, based on our experience from the previous three-year approval period, the number of surveys has been very consistent with little change and estimate for the next three years are as follows:

Average Expected Annual Number of Customer Satisfaction Surveys: 250 with 5,000 respondents per survey.

Total Estimated Number of Annual Responses: 1,250,000.

Estimated Completion Time per Response: 2.5 minutes

Total Estimated Number of Annual Burden Hours: 52,083.

Respondent's Obligation: Voluntary.

Frequency of Collection: Once per survey.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
