

All tool chests and cabinets that meet the above definition are included in the scope unless otherwise specifically excluded.

Excluded from the scope of these orders are tool boxes, chests, and cabinets with bodies made of plastic, carbon fiber, wood, or other non-metallic substances.

Also excluded from the scope of these orders are industrial grade steel tool chests and cabinets. The excluded industrial grade steel tool chests and cabinets are those:

- (1) Having a body that is over 60 inches in width; or
- (2) having each of the following physical characteristics:

(a) a body made of steel that is 0.047 inches or more in thickness;

(b) a body depth (front to back) exceeding 21 inches; and

(c) a unit weight that exceeds the maximum unit weight shown below for each width range:

Weight to Width Ratio Tool Chests	
Inches	Maximum Pounds
21 > ≤ 25	90
25 > ≤ 28	115
28 > ≤ 30	120
30 > ≤ 32	130
32 > ≤ 34	140
34 > ≤ 36	150
36 > ≤ 38	160
38 > ≤ 40	170
40 > ≤ 42	180
42 > ≤ 44	190
44 > ≤ 46	200
46 > ≤ 48	210
48 > ≤ 50	220
50 > ≤ 52	230
52 > ≤ 54	240
54 > ≤ 56	250
56 > ≤ 58	260
58 > ≤ 60	270

Weight to Width Ratio Tool Cabinets	
Inches	Maximum Pounds
21 > ≤ 25	155
25 > ≤ 28	170
28 > ≤ 30	185
30 > ≤ 32	200
32 > ≤ 34	215
34 > ≤ 36	230
36 > ≤ 38	245
38 > ≤ 40	260
40 > ≤ 42	280
42 > ≤ 44	290
44 > ≤ 46	300
46 > ≤ 48	310
48 > ≤ 50	320
50 > ≤ 52	330
52 > ≤ 54	340
54 > ≤ 56	350
56 > ≤ 58	360
58 > ≤ 60	370

Also excluded from the scope of these orders are service carts. The excluded service carts have all of the following characteristics:

(1) Casters, wheels, or other similar devices which allow the service cart to be rolled from place to place;

(2) an open top for storage, a flat top, or a flat lid on top of the unit that opens;

(3) a space or gap between the casters, wheels, or other similar devices, and the bottom of the enclosed storage space (e.g., drawers) of at least 10 inches; and

(4) a total unit height, including casters, of less than 48 inches.

Also excluded from the scope of these orders are non-mobile work benches. The excluded non-mobile work benches have all of the following characteristics:

(1) A solid top working surface;

(2) no drawers, one drawer, or two drawers in a side-by-side configuration; and

(3) the unit is supported by legs and has no solid front, side, or back panels enclosing the body of the unit.

Also excluded from the scope of these orders are metal filing cabinets that are configured to hold hanging file folders and are classified in the Harmonized Tariff

Schedule of the United States (HTSUS) at subheading 9403.10.0020.

Merchandise subject to these orders is classified under HTSUS categories 9403.20.0021, 9403.20.0026, 9403.20.0030, 9403.20.0080, 9403.20.0090, and 7326.90.8688, but may also be classified under HTSUS category 7326.90.3500. While HTSUS subheadings are provided for convenience and Customs purposes, the written description of the scope of these orders is dispositive.

RIN 0648-XG272

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council's Surfclam and Ocean Quahog Committee will hold a public meeting via conference call.

DATES: The meeting will be held on Thursday, June 21, 2018, from 9 a.m. to 11 a.m.

ADDRESSES: The meeting will be held via conference call by dialing 1-800-832-0736 and entering room number 9294759.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; website: www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The Mid-Atlantic Fishery Management Council's Surfclam and Ocean Quahog Committee will meet via conference call to discuss possible support for research on surfclam genetics.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: May 30, 2018.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

RIN 0648-XG182

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Joint notice of receipt and notice of availability.

SUMMARY: Notice is hereby given that NMFS has received one permit application from the Monterey Peninsula Water Management District (District) to enhance propagation and survival of species listed under the Endangered Species Act (ESA) of 1973, as amended, for a five-year period (with a five-year renewal). As part of this permit application, the District has submitted a Rescue and Rearing Management Plan (RRMP). The RRMP specifies operational methods for South-Central California Coast (S-CCC) steelhead (*Oncorhynchus mykiss*) rescue, rearing, and relocation activities associated with the Sleepy Hollow Steelhead Rearing Facility (Facility). The Facility is located on the Carmel River on the Central California Coast. This document serves to notify the public of the availability of the permit application and associated RRMP for review and comment prior to a decision by NMFS whether to issue the permit. The permit application and associated RRMP can be viewed online at: http://www.westcoast.fisheries.noaa.gov/hatcheries/carmel_rrmp/carmel_rrmp_nor.html.

DATES: Comments or requests for a public hearing on applications must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5:00 p.m. Pacific Standard Time on July 5, 2018.

ADDRESSES: Written comments on the application should be submitted to the California Coastal Office, NMFS, c/o Erin Seghesio, 777 Sonoma Avenue Room 325, Santa Rosa, CA 95404. Comments may also be submitted via fax to 707-578-3435, or by email to: WCR-shrescuemngt.comment@noaa.gov. Include in the subject line of the email the following identifier: Comments on Permit 14741.

FOR FURTHER INFORMATION CONTACT: Erin Seghesio at 707-578-8515, Erin.Seghesio@noaa.gov

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The following listed species are covered in this notice:

Steelhead (*Oncorhynchus mykiss*): Threatened, South-Central California Coast (S-CCC).

Authority: Scientific research permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR parts 222-227). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permit.

Any one requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Permit Applications Received

Permit 14741

The District has applied for a permit under section 10(a)(1)(A) of the ESA for a period of five years (with a five-year renewal) that would allow take of juvenile and adult steelhead from the threatened S-CCC Distinct Population Segment (DPS) pursuant to an RRMP, which was developed with technical assistance from NMFS. The objective of the District's program is to assist with the restoration, conservation, and maintenance of the steelhead population in the Carmel River Watershed as mitigation for environmental impacts caused by

diversion of surface and subsurface streamflow in the lower 24 miles of the mainstem Carmel River. The program which was initiated in 1997, was necessary to ensure compliance with California Environmental Quality Act (CEQA) from the environmental impacts of California American Water Company's water withdrawals.

The RRMP will be implemented as an enhancement program at the Facility; actions taken pursuant to the permit are designed to enhance survival of S-CCC steelhead that are subject to annual low-flow river dryback. The RRMP incorporates three main components: (1) Rescue and relocation activities; (2) captive rearing activities; and (3) subsequent post-release monitoring. There is no captive spawning of steelhead reared at the facility.

Activities that constitute take of S-CCC steelhead and would be permitted include: Rearing, handling and transport, and tagging. The RRMP includes measures to minimize the likelihood of genetic or ecologic effects to naturally produced S-CCC steelhead resulting from operations at the Facility, and rescue and translocation activities. Post-release monitoring activities conducted by the District will collect necessary data to document achievement of performance indicators specified in the RRMP. For a more detailed discussion of these activities, please see the permit application.

Public Comments Solicited

NMFS invites the public to comment on the permit application and associated RRMP during a 30 day public comment period beginning on the date of this notice. This notice is provided pursuant to section 10(c) of the ESA (16 U.S.C. 1529(c)). All comments and materials received, including names and addresses, will become part of the administrative record and may be released to the public. We provide this notice in order to allow the public, agencies, or other organizations to review and comment on these documents.

Next Steps

NMFS will evaluate the application, associated documents, and comments submitted during the comment period to determine whether the application meets the requirements of section 10(a)(1)(A) of the ESA and Federal regulations. The final permit decision will not be made until after the end of the 30-day public comment period and after NMFS has fully considered all relevant comments received. NMFS will publish public notice of its final action in the **Federal Register**.
