SUPPLEMENTARY INFORMATION:

Multnomah County, Oregon owns the Burnside Bridge, crossing the Willamette River, mile 12.4, at Portland, OR, and has requested a temporary deviation from the operating schedule. The requested deviation is to accommodate bridge repairs and upgrades. To facilitate this maintenance, the draw of the subject bridge will be authorized to operate in single leaf and

open the east leaf of the span only. The bridge is also authorized to maintain the west leaf in the closed-to-navigation position to marine traffic, and reduce the vertical clearance up to ten feet. This deviation period is from 7 a.m. on July 1, 2018 to 4 p.m. on October 13, 2018.

The Burnside Bridge provides a vertical clearance of 41 feet in the closed-to-navigation position referenced to Columbia River Datum 0.0, and the west leaf will be reduced to 31 feet with scaffolding installed. The horizontal clearance for an east leaf opening will be 100 feet. The normal operating schedule is in 33 CFR 117.897. Waterway usage on this part of the Willamette River includes vessels ranging from commercial tug and barge to small pleasure craft. The Coast Guard contacted all known users of the Willamette River for comment, and we received no objections for this deviation.

Vessels able to pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open the east side of the span only for emergencies, and there is no immediate alternate route for vessels to pass. The Coast Guard will inform the users of the waterway, through our Local and Broadcast Notices to Mariners, of the change in operating schedule for the bridges so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedules immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: May 23, 2018.
