RIN 2120-AA66

Proposed Establishment and Modification of Area Navigation Routes, Florida Metroplex Project; Southeastern United States

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to establish 16 high altitude area navigation (RNAV) routes (Q-routes), and modify 7 existing Q-routes, in support of the Florida Metroplex Project. The proposed routes were developed to improve the efficiency of the National Airspace System (NAS) and reduce dependency on ground-based navigational systems that cause system inefficiencies due to their limitations.

DATES: Comments must be received on or before July 9, 2018.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12-140, Washington, DC 20590; telephone: 1(800) 647-5527 or (202) 366-9826. SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would expand the availability of area navigation routes in the NAS, increase airspace capacity, and reduce complexity in high air traffic volume areas.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA-2018-0437; Airspace Docket No. 18-ASO-5) and be submitted in triplicate to the Docket Management Facility (see **ADDRESSES** section for address and phone number). You may also submit comments through the internet at <http://www.regulations.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments

on this action must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to FAA Docket No. FAA-2018-0437; Airspace Docket No. 18-ASO-5." The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified comment closing date will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the comment closing date. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at http://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see **ADDRESSES** section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Eastern Service Center, Federal Aviation Administration, Room 210, 1701 Columbia Ave., College Park, GA 30337.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this proposed rule. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

The Florida Metroplex Project developed Performance Based Navigation (PBN) routes involving Jacksonville Air Route Traffic Control Center (ARTCC), Miami ARTCC, and San Juan Center Radar Approach

Control (CERAP). The proposed new and amended Q-routes would support the strategy to transition the NAS from a ground-based navigation and radar-based system to a satellite-based PBN system. Additionally, the routes would connect to Caribbean Air Traffic Service routes to provide efficient direct routings to and from Caribbean locations.

Taking advantage of the capabilities of the advanced flight management systems in modern aircraft, these Q-routes would serve to reduce air traffic control (ATC) sector complexity, increase NAS capacity, reduce pilot-to-air traffic controller communications, and allow aircraft to be cleared to their cruising altitude and flight planned route more expeditiously.

Comment Period

This NPRM includes a 30-day public comment period instead of the 45-day period generally provided for area navigation route proposals. The proposed Q-routes would support the FAA's Next Generation Air Transportation System (NextGen) efforts to modernize the NAS. The routes would be a critical part of that effort to improve NAS efficiency by increasing airspace capacity and reducing complexity in high air traffic volume areas. The 30-day comment period would provide the opportunity for public input on the proposal as well as an option for FAA to consider the possibility of synchronizing the implementation of the routes with other scheduled NextGen programs and equipment upgrades.

The Proposal

The FAA is proposing an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to establish 16 new Q-routes, and amend 7 existing Q-routes, in the southeastern United States in support of the Florida Metroplex Project. The proposed new routes would be designated Q-75, Q-77, Q-79, Q-81, Q-83, Q-85, Q-87, Q-89, Q-93, Q-97, Q-99, Q-109, Q-113, Q-135, Q-172, and Q-409. In addition, amendments are proposed to the descriptions of Q-65, Q-69, Q-103, Q-104, Q-110, Q-116, and Q-118. The proposed new and amended route end points are listed below. Note: In the regulatory text, below, some route descriptions include waypoints located over international waters. In those route descriptions, in place of a two-letter state abbreviation, either "OA," meaning "Offshore Atlantic," or "OG," meaning "Offshore Gulf of Mexico," is used.

RNAV routes are published in paragraph 2006 of FAA Order 7400.11B dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR

71.1. The RNAV routes listed in this document would be subsequently published in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and

Procedures" prior to any FAA final regulatory action.
