

2. DHS Form 0700–02, Contractor's Assignment of Refund, Rebates, Credits and Other Amounts (see (HSAR) 48 CFR 3004.804–570(a)(2))
3. DHS Form 0700–03, Contractor's Release (see (HSAR) 48 CFR 3004.804–570(a)(1))
4. DHS Form 0700–04, Employee Claim for Wage Restitution (see (HSAR) 48 CFR 3022.406–9)

These forms will be prepared by individuals, contractors or contract employees during contract administration. The information collected includes the following:

- DHS Forms 0700–01, 0700–02 and 0700–03: Prepared by individuals, contractors or contract employees prior to contract closure to determine whether there are excess funds that are available for deobligation versus remaining (payable) funds on contracts; assignment or transfer of rights, title, and interest to the Government; and release from liability. The contracting officer obtains the forms from the contractor for closeout, as applicable. Forms 0700–01 and 02 are mainly used for calculating costs related to the closeout of cost-reimbursement, time-and-materials, and labor-hour contracts; and, Form 0700–03 is mainly used for calculating costs related to the closeout of cost-reimbursement, time-and-materials, and labor-hour contracts but can be used for all contract types.
- DHS Form 0700–04 is prepared by contractor employees making claims for unpaid wages. Contracting officers must obtain this form from employees seeking restitution under contracts to provide to the Comptroller General. This form is applicable to all contract types, both opened and closed.

The purpose of the information collected is to ensure proper closing of physically complete contracts. The information will be used by DHS contracting officers to ensure compliance with terms and conditions of DHS contracts and to complete reports required by other Federal agencies such as the GSA and DOL. If this information is not collected, DHS could inadvertently violate statutory or regulatory requirements and DHS's interests concerning inventions and contractors' claims would not be protected.

The four DHS forms are available on the DHS Homepage (https://www.dhs.gov/sites/default/files/publications/CPO_HSAR_1_0.pdf). These forms can be filled in electronically and can be submitted via email or facsimile to the specified Government point of contact. Since the responses must meet specific

timeframes, a centralized mailbox or website would not be an expeditious or practical method of submission. The use of email or facsimile is the best solution and is most commonly used in the Government. The information requested by these forms is required by the HSAR. The forms are prescribed for use in the closeout of applicable contracts and during contract administration.

There are FAR and HSAR clauses that require protection of rights in data and proprietary information if requested and designated by an offeror or contractor. Additionally, disclosure or non-disclosure of information is handled in accordance with the Freedom of Information Act. There is no assurance of confidentiality provided to the respondents. No PIA is required as the information is collected from DHS personnel (contractors only). Although, the DHS/ALL/PIA–006 General Contacts lists PIA does provided basic coverage. And technically, because this information is not retrieved by personal identifier, no system of records notice is required. However, DHS/ALL–021 DHS Contractors and Consultants provides coverage for the collection of records on DHS contractors and consultants, to include resume and qualifying employment information.

The burden estimates provided are based upon contracts reported by DHS and its Components to the Federal Procurement Data System (FPDS) for Fiscal Year 2016. No program changes occurred and there were no changes to the information being collected. However, the burden was adjusted to reflect an agency adjustment increase of 46,701 in the number of respondents within DHS for Fiscal Year 2016, as well as an increase in the average hourly wage rate.

This is an Extension of a Currently Approved Collection, 1600–0002. DHS previously published this ICR in the **Federal Register** on Tuesday, March 6, 2018 at 83 FR 9531 for a 60-day public comment period, and is soliciting public comment for another 30 days. OMB is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION:

I. Background

Recruiting and retaining a world-class law enforcement workforce is one of CBP’s top mission support priorities. To generate a sufficient number of qualified applicants for critical frontline law enforcement positions, CBP must cultivate a large volume of interested and well-qualified applicants. CBP uses recruitment outreach, market research, data analytics, advertising, and marketing services to conduct recruiting and hiring campaigns to meet staffing requirements. These targeted efforts identify potential applicants and help them navigate the complex and multi-step hiring process for CBP frontline officers and agents. To meet aggressive recruiting goals, CBP frontline recruitment strategy requires data analytics, targeted marketing and recruiting, technology innovations, call center support, additional specialized skillsets, and internal process improvements.

On January 25, 2017, the President issued the Executive Order 13767, and

provided direction to CBP to take appropriate action to recruit and hire individuals for critical frontline law enforcement positions (such as U.S. Border Patrol Agents, Air and Marine Interdiction Agents, and CBP Officers).

CBP conducts coordinated initiatives in support of frontline recruitment and hiring, including: (1) Marketing, branding, and public opinion research; (2) direct advertising to individuals who have expressed an interest in employment opportunities with CBP; (3) direct advertising to individuals who have expressed an interest in employment opportunities to a third-party for employment purposes, who have affirmed that they may be contacted by potential employers; and (4) communication with individuals who have provided their information to CBP, including response to screening questions, in support of the preliminary application process. These activities might entail the collection of limited biographic information, contact information, and information pertinent to employment from members of the public who have not yet applied for a CBP job announcement. In addition, CBP may use aggregated data analytics and enhanced advertisements to locate potential recruits in support of efforts to maintain congressionally-mandated CBP staffing levels.

This SORN provides coverage for CBP’s recruitment and hiring efforts for frontline positions. The SORN does not cover records associated with the formal hiring process once a potential applicant submits an application for employment. The Office of Personnel Management (OPM) is responsible for all hiring activities for employment with Federal agencies. For these activities, the relevant OPM SORNs continue to apply.

Consistent with DHS’s information sharing mission, information stored in the DHS/CBP–025 National Frontline Recruitment and Hiring System of Records may be shared with other DHS Components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other homeland security functions. In addition, DHS/CBP may share information with appropriate Federal, state, local, tribal, territorial, foreign, or international government agencies consistent with the routine uses set forth in this system of records notice.

This newly established system will be included in DHS’s inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which Federal Government agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act applies to information that is maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. Additionally, the Judicial Redress Act (JRA) provides covered persons with a statutory right to make requests for access and amendment to covered records, as defined by the JRA, along with judicial review for denials of such requests. In addition, the JRA prohibits disclosures of covered records, except as otherwise permitted by the Privacy Act.

Below is the description of the DHS/CBP–025 National Frontline Recruitment and Hiring System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget and to Congress.

In addition, the individual should:

- Explain why he/she believe the Department would have information on him/her;
- Identify which component(s) of the Department the individual believes may have the information about him/her;
- Specify when the individual believes the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records;

If an individual's request is seeking records pertaining to another living individual, the first individual must include a statement from the second individual certifying his/her agreement for the first individual to access his/her records.

Without the above information, the component(s) may not be able to conduct an effective search, and the individual's request may be denied due to lack of specificity or lack of compliance with applicable regulations.
