

0010]. These royalty reports result in accounts receivables and capture the vast majority of the mineral revenue collected by ONRR.

The basis for the data that companies submit on forms ONRR-2014 and ONRR-4430 is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling such minerals. The information that we collect under the ICR includes data necessary to ensure that ONRR's accounts receivables are accurately based on the value of the mineral production, as reported to ONRR on forms ONRR-2014 and ONRR-4430.

Information Collections

Every year, the Chief Financial Officer (CFO) under Chief Financial Officers Act of 1990, the Office of Inspector General, or its agent (agent), audits the accounts receivable portions of the Department's financial statements, which are based on ONRR forms ONRR-2014 and ONRR-4430. Accounts receivable confirmations are a common practice in the audit business. Due to a continuous increase in scrutiny of financial audits, a third-party confirmation of the validity of ONRR's financial records is necessary.

As part of the CFO audit, the agent selects a sample of accounts receivable items based on forms ONRR-2014 and ONRR-4430, and provides the sample items to ONRR. ONRR then identifies the company names and addresses for the sample items selected and creates accounts receivable confirmation letters. In order to meet the CFO requirements, the letters must be on ONRR letterhead and the Deputy Director for ONRR, or his or her designee, must sign the letters. The letter requests third-party confirmation responses by a specified date on whether or not ONRR's accounts receivable records agree with royalty payor records for the following items: (1) Customer identification; (2) royalty invoice number; (3) payor assigned document number; (4) date of ONRR receipt; (5) original amount the payor reported; and (6) remaining balance due to ONRR. The agent mails the letters to the payors, instructing them to respond directly to the agent to confirm the accuracy and validity of selected royalty receivable items and amounts. In turn, it is the responsibility of the payors to verify, research, and analyze the amounts and balances reported on their respective forms ONRR-2014 and ONRR-4430.

OMB Approval

We will request OMB approval to continue to collect this information. Not

collecting this information would limit the Secretary's ability to discharge the duties of the office, could result in a violation of the Chief Financial Officers Act of 1990, and may also result in the inability to confirm the accuracy of ONRR's accounts receivables which are based on the accurate reporting of forms ONRR-2014 and ONRR-4430. ONRR protects the proprietary information received and does not collect items of a sensitive nature.
