

A CMS provider that elects not to transmit WEA Alert Messages, in part or in whole, shall use the notification language set forth in § 10.240 (c) or (d) respectively, except that the last line of the notice shall reference FCC Rule 47 CFR 10.250, rather than FCC Rule 47 CFR 10.240.

In the case of prepaid customers, if a mailing address is available, the CMS provider shall provide the required notification via U.S. mail. If no mailing address is available, the CMS provider shall use any reasonable method at its disposal to alert the customer to a change in the terms and conditions of service and directing the subscriber to voice-based notification or to a website providing the required notification.

Database Collection

The Commission also seeks to collect new information in connection with its creation of a WEA database to improve information transparency for emergency managers and the public regarding the extent to which WEA is available in their area. The Commission will request this information from CMS providers on a voluntary basis, including geographic area served and devices that are programmed, at point of sale, to transmit WEAs. We note that many participating CMS providers already provide information of this nature in their docketed filings. As discussed below, this database will remove a major roadblock to emergency managers' ability to conduct tests of the alerting system and enable individuals and emergency managers to identify the alert coverage area.

Since ensuring consumer notice and collection information on the extent of CMS providers' participation is statutorily mandated, the Commission requests approval of this collection by OMB so that the Commission may

continue to meet its statutory obligation under the WARN Act. The database information collection is voluntary, but also requires OMB approval.
