

WQS Regulation; and, some are voluntary.

Estimated number of respondents: 2,693.

Frequency of response: Variable depending on type of information collected (once every three years; annually; on occasion or as necessary; or, only once).

Total estimated burden: From 376,097 to 514,987 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: From \$17,103,064 to \$23,173,945 of labor costs per year, and \$263,520 of operations and maintenance costs per year. There are no annualized capital costs.

Changes in Estimates: There is a decrease of 226,040 hours in the total upper estimates of respondent burden compared with the combined burden of the three ICRs currently approved by OMB and consolidated in this ICR. This decrease reflects adjustments made to the EPA's burden estimates based on experience gained since the previous ICRs were approved.

Dated: June 6, 2018.

Deborah G. Nagle,

Acting Director, Office of Science and Technology.

Announcement of the Per- and Polyfluoroalkyl Substances (PFAS) New England Community Engagement

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of an event.

SUMMARY: The Environmental Protection Agency (EPA) will kick off the Per- and Polyfluoroalkyl Substances (PFAS) community engagements with a two-day event in Exeter, New Hampshire. The goal of the event is to allow the EPA to hear directly from New England communities to understand ways the Agency can best support the work that is being done at the state, local, and tribal level. For more information on the event, visit the EPA's PFAS website: <https://www.epa.gov/pfas/pfas-community-engagement>. During the recent PFAS National Leadership Summit, the EPA announced plans to visit communities to hear directly from those impacted by PFAS. This engagement is the next step in the EPA's commitment to address challenges with

PFAS. The EPA anticipates that the community engagements will provide valuable insight for the agency's efforts moving forward. For more information, go to the **SUPPLEMENTARY INFORMATION** section of this notice.

DATES: The event will be held on June 25-26, 2018. On June 25, a listening session will be held at 4:30 p.m. to 10:00 p.m., eastern time. A working session will be held on June 26 from 8:00 a.m. to 3:00 p.m., eastern time.

ADDRESSES: The two-day event will be held at the Exeter High School, 1 Blue Hawk Drive, Exeter, New Hampshire 03833. If you are unable to attend the New England Community Engagement, you will be able to submit comments at <http://www.regulations.gov>: Enter Docket ID No. EPA-OW-2018-0270. Citizens are encouraged to send written statements to the public docket. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT:

Doug Gutro, EPA New England Headquarters (Mail Code ORAO1-1), 5 Post Office Square, Suite 100, Boston, MA 02109-3912; telephone number: 617-918-1021; fax number: 617-918-0021; email address: Gutro.Doug@epa.gov.

SUPPLEMENTARY INFORMATION:

Details about Participating in the Event: The public is invited to speak during the June 25 listening session. Those interested in speaking can sign up for a 3-minute speaking slot on EPA's website at <https://www.epa.gov/pfas/pfas-community-engagement>. Please check this website for event materials as they become available, including a full agenda, leading up to the event.

The PFAS National Leadership Summit: On May 22-23, 2018, the EPA hosted the PFAS National Leadership Summit. During the summit, participants worked together to share information on ongoing efforts to characterize risks from PFAS, develop monitoring and treatment/cleanup techniques, identify specific near-term actions (beyond those already underway) that are needed to address challenges currently facing states and local communities, and develop risk communication strategies that will help communities to address public concerns regarding PFAS.

The EPA wants to ensure the public that their input is valuable and meaningful. Using information from the National Leadership Summit, public docket, and community engagements, the EPA plans to develop a PFAS Management Plan for release later this year. A summary of the New England Community Engagement will be made available to the public following the event on the EPA's PFAS Community Engagement website at: <https://www.epa.gov/pfas/pfas-community-engagement>.

Dated: June 11, 2018.

Eric Burneson,

Acting Director, Office of Ground Water and Drinking Water.

Proposed Information Collection Request; Comment Request; Fuel Use Requirements for Great Lake Steamships (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), "Fuel Use Requirements for Great Lakes Steamships" (EPA ICR No. 2458.03, OMB Control No. 2060-0679) to the Office of Management and Budget (OMB) for review and approval in

accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through August 31, 2018. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before August 14, 2018.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2011-0928, online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Alan Stout, Office of Transportation and Air Quality, Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, MI 48105; 734-214-4805; stout.alan@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents explaining in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those

who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The U.S. Environmental Protection Agency (EPA) adopted requirements for marine vessels operating in and around U.S. territorial waters to use reduced-sulfur diesel fuel. This requirement does not apply for steamships, but it would apply for steamships that are converted to run on diesel engines. A regulatory provision allows vessel owners to qualify for a waiver from the fuel-use requirements for a defined period for such converted vessels.

One condition of the exemption from the fuel standard is that engines meet current emission standards. EPA uses the data to oversee compliance with regulatory requirements, including communicating with affected companies and answering questions from the public or other industry participants regarding the waiver in question. Since the IMO Tier III NO_x standards apply for Category 3 engines installed on U.S. vessels, we don't expect anyone to use the steamship exemption.

Form Numbers: None.

Respondents/affected entities: 0.

Respondent's obligation to respond: Required to obtain a benefit (40 CFR 1043.95).

Estimated number of respondents: 0.

Frequency of response: One time for a new notification.

Total estimated burden: 0 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$0.

Changes in Estimates: The burden estimate decreases from the current estimate of 14 hours per year in the total estimated respondent burden currently approved by OMB. Since the IMO Tier III NO_x standards apply for Category 3 engines installed on U.S. vessels, we don't expect anyone to use the steamship exemption.

Dated: June 4, 2018.

William J. Charmley,

Director, Assessment and Standards Division.
