SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–83425; File No. SR–CHX–2018–001]

Self-Regulatory Organizations; Chicago Stock Exchange, Inc.; Order Instituting Proceedings To Determine Whether To Approve or Disapprove a Proposed Rule Change To Adopt the Route QCT Cross Routing Option

June 13, 2018.

I. Introduction

On March 6, 2018, the Chicago Stock Exchange, Inc. (“CHX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Exchange Act”) ¹ and Rule 19b–4 thereunder,² a proposed rule change to adopt the Route QCT Cross routing option. The proposed rule change was published for comment in the **Federal Register** on March 20, 2018.³ On May 1, 2018, pursuant to Section 19(b)(2) of the Exchange Act,⁴ the Commission designated a longer period within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to disapprove the proposed rule change.⁵ The Commission received no comment

letters on the proposed rule change. This order institutes proceedings under Section 19(b)(2)(B) of the Exchange Act ⁶ to determine whether to approve or disapprove the proposed rule change.

II. Description of the Proposed Rule Change

Currently, under the Exchange’s rules, Routable Orders ⁷ submitted to the CHX matching system (“Matching System”) ⁸ for execution are routed away from the Matching System automatically if a Routing Event ⁹ is triggered. The Exchange’s current rules provide that all Routable Orders ¹⁰ are limit orders. Market ¹¹ and cross orders ¹² are never routable. The Exchange does not currently permit orders to be directly routed to an away Trading Center ¹³ without first being submitted to the Matching System.

Because Qualified Contingent Trade (“QCT”) Crosses ¹⁴ are exempt from the trade-through prohibition of Rule 611 of Regulation NMS,¹⁵ the Matching System permits QCT Crosses to trade-through protected quotes of away markets. Under the Exchange’s current rules, QCT Crosses are handled IOC ¹⁶ and can never rest on the CHX book. Moreover, a QCT Cross submitted to the Matching System will be cancelled back to the order sender as “blocked” if a precedent limit order priced at or better than the QCT Cross is resting on the CHX book,¹⁷ except that a QCT Cross priced at the top of the CHX book (*i.e.*, the best-ranked order on the CHX book pursuant to Article 20, Rule 8(b)) that qualifies for Cross With Size ¹⁸ handling will be permitted to execute.

The Exchange has proposed to adopt the Route QCT Cross routing option, which will permit only Institutional

Brokers (“IBs”) ¹⁹ to directly route a QCT Cross to a non-affiliated third-party broker-dealer designated by the IB (“designated executing broker”) for execution. Route QCT Cross orders will be handled like current Routable Orders,²⁰ except that the Route QCT Cross order will never be submitted to the Matching System for execution. Specifically, upon receipt of a Route QCT Cross order, the Exchange will cause the order to be routed IOC ²¹ from the Exchange, through CHXBD, LLC (“CHXBD”), the Exchange’s affiliated routing broker, to the designated executing broker identified by the IB.²² The Exchange states that the relationship between a designated executing broker and CHXBD will be governed by applicable CHX Rules ²³ and customary interbroker agreements, such as fully-disclosed clearing and customer agreements. The Exchange represents that at all times, the use of Route QCT Cross will be optional.²⁴ The Exchange also states that Route QCT Cross is similar to the routing options available on the Nasdaq Stock Market ²⁵ and Cboe BYX and Cboe BZX exchanges.²⁶

Specifically, the Exchange has proposed to adopt proposed Article 19, Rule 4 (Routing Options) to provide that routing options may be combined with all available order types, modifiers and related terms, except for order types, modifiers, and related terms that are inconsistent with the terms of a routing option, and that the Exchange may activate or deactivate any routing option at its discretion and, if practicable, after notice to Participants.²⁷ Article 19, Rule 4(a)(1) provides that Route QCT Cross is

a routing option,²⁸ which may only be utilized by IBs, that instructs the Exchange to route a cross order marked QCT directly to a non-affiliated third-party broker-dealer designated by the IB without submitting the order into the Matching System for execution. In addition, each IB is permitted to identify only one designated executing broker to which all Route QCT Cross orders submitted by the IB would be routed. Furthermore, the Exchange represents that prior to the Exchange accepting any Route QCT Cross orders directed to a specific designated executing broker, the Exchange would confirm that the designated executing broker has established connectivity to the Exchange's routing systems.²⁹ In addition, the IB would be responsible for all away execution fees resulting from the execution of Route QCT Cross orders, including any guaranteed payments to its designated executing broker.³⁰ Moreover, Route QCT Cross orders would be routed IOC and a Route QCT Cross order that could not be executed by a designated executing broker, for any reason, would be cancelled back to the original order sender.³¹

As Route QCT Cross orders would be routed away from the Exchange without being submitted to the Matching System for execution, the Exchange proposes to amend Article 19, Rules 1(a) and (c), and Rule 2(a) to replace the term "Matching System" with "Exchange." Moreover, since Route QCT Cross orders are a subset of cross orders that will not be handled IOC upon receipt by the Exchange, and all cross orders currently received by the Exchange are deemed to have been received IOC, the Exchange proposes to amend the definition of "cross orders" under Article 1, Rule 2(a)(2) to provide that all cross orders submitted to the Matching System for execution shall be deemed to have been received IOC.

The Exchange has also proposed to amend Article 19, Rule 3(a) to provide that a Routable Order that is submitted to the Matching System would be routed away from the Matching System pursuant to the CHX Routing Services if a Routing Event is triggered.³²

In addition, the Exchange proposes non-substantive amendments to Article 19, Rules 3(a)(1)–(5) to clarify the current operation of the Routing Events.³³

II. Proceedings To Determine Whether To Approve or Disapprove SR-CHX-2018-001 and Grounds for Disapproval Under Consideration

The Commission is instituting proceedings pursuant to Section 19(b)(2)(B) of the Exchange Act³⁴ to determine whether the proposed rule change should be approved or disapproved. Institution of such proceedings is appropriate at this time in view of the legal and policy issues raised by the proposed rule change. Institution of proceedings does not indicate that the Commission has reached any conclusions with respect to any of the issues involved. Rather, as described below, the Commission seeks and encourages interested persons to provide comments on the proposed rule change.

Pursuant to Section 19(b)(2)(B) of the Exchange Act,³⁵ the Commission is providing notice of the grounds for disapproval under consideration. As discussed above, the Exchange has proposed to offer a new Route QCT Cross routing option, which would be available only to IBs. Route QCT Crosses would not check the CHX order book. In addition, Route QCT Crosses would only route to a single designated broker, as designated by each IB, for execution.

The Commission is instituting proceedings to allow for additional analysis of the proposed rule change's consistency with Sections 6(b)(5)³⁶ and 6(b)(8)³⁷ of the Exchange Act. Section 6(b)(5) of the Exchange Act requires that the rules of a national securities exchange be designed, among other things, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest, and not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers. Section 6(b)(8) of the Exchange Act requires that the rules of a national securities exchange not impose any

burden on competition that is not necessary or appropriate in furtherance of the purposes of the Exchange Act.

III. Procedure: Request for Written Comments

The Commission requests that interested persons provide written submissions of their views, data, and arguments with respect to the issues identified above, as well as any other concerns they may have with the proposal. In particular, the Commission invites the written views of interested persons concerning whether the proposal is consistent with Sections 6(b)(5) and 6(b)(8), or any other provision of the Exchange Act, or the rules and regulations thereunder. Although there do not appear to be any issues relevant to approval or disapproval that would be facilitated by an oral presentation of views, data, and arguments, the Commission will consider, pursuant to Rule 19b-4, any request for an opportunity to make an oral presentation.³⁸

Interested persons are invited to submit written data, views, and arguments regarding whether the proposal should be approved or disapproved by July 10, 2018. Any person who wishes to file a rebuttal to any other person's submission must file that rebuttal by July 24, 2018.

Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-CHX-2018-001 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Numbers SR-CHX-2018-001. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's

²⁸ In addition, since the cross orders are not currently Routable Orders, the Exchange has proposed to amend Article 1, Rule 1(o)(2), which would expand the definition of Routable Orders to include any order marked by a routing option listed under proposed Article 19, Rule 4 (*i.e.*, Route QCT Cross).

³⁰ See *id.*

³¹ See *id.* at 12215–16.

³² To clarify this distinction, the Exchange has proposed to amend the title to Article 19, Rule 3 from "Routing Events" to "Mandatory Routing

Events." Also, the Exchange has proposed to eliminate the word "incoming" from proposed Rule 1(o)(1), which it states is redundant in light of the proposed clarifying amendments to Article 19, Rule 3.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-83424; File No. SR-NYSE-2018-27]

Self-Regulatory Organizations; New York Stock Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Its Price List

June 13, 2018.

Pursuant to Section 19(b)(1) ¹ of the Securities Exchange Act of 1934 (the "Act") ² and Rule 19b-4 thereunder, ³ notice is hereby given that, on June 1, 2018, New York Stock Exchange LLC ("NYSE" or the "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in

Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Price List to (1) add a new incentive for member organizations and Supplemental Liquidity Providers ("SLP") in Tape A securities when adding liquidity in securities traded pursuant to Unlisted Trading Privileges ("UTP") (Tapes B and C) on the Pillar Trading Platform; (2) add a new Tier 4 for SLPs; and (3) make non-substantive changes to eliminate obsolete footnotes. The Exchange proposes to implement these changes to its Price List effective June 1, 2018. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Price List to (1) add a new incentive for member organizations and SLPs on Tape A when adding liquidity in UTP Securities (Tapes B and C) on the Pillar Trading Platform; (2) add a new Tier 4 for SLPs; and (3) make non-substantive changes to eliminate obsolete footnotes.

The Exchange proposes to implement these changes to its Price List effective June 1, 2018.

New Cross Tape Incentive

The Exchange proposes an additional incentive to member organizations and SLPs in Tape A securities that add liquidity to the Exchange in UTP Securities, as follows.

As proposed, member organizations that meet the current requirements for the Non-Tier Adding Credit, Tier 3 Adding Credit, and Tier 4 Adding Credit on Tape A would be eligible to receive an additional \$0.0001 per share if the member organization adds liquidity, excluding liquidity added as an SLP, in UTP Securities of at least 0.20% of Tape B and Tape C consolidated average daily volume ("CADV") combined.

Similarly, SLPs that (1) meet the current requirements for SLP Tier 3, SLP Tier 2 and SLP Tier 1A credits, and (2) add liquidity in UTP Securities of at least 0.30% of Tape B and Tape C CADV combined, would be eligible for an additional \$0.0001 per share in securities with a per share price of \$1.00 or more that meet the 10% average or more quoting requirement in an assigned security pursuant to Rule 107B (quotes of an SLP-Prop and an SLMM of the same member organization would not be aggregated).

New SLP Tier 4

The Exchange proposes a new, fifth SLP Tier designated "4" that would provide that an SLP that either (1) is in the first two calendar months as an SLP, or (2) adds liquidity for all assigned SLP securities in the aggregate (including shares of both an SLP-Prop and an SLMM ⁴ of the same or an affiliated member organization) of an ADV of more than 0.03% of NYSE CADV after averaging less an adding ADV ⁵ of than 0.01% in each of the prior 3 months, after a discount of the percentage for the prior quarter of NYSE CADV in DMM assigned securities as of the last business day of the prior month, would receive a credit of \$0.0029, or \$0.00105 if a Non-Displayed Reserve Order, if the SLP meets the 10% average or more quoting requirement in an assigned security pursuant to Rule 107B when adding liquidity to the NYSE with orders, other than Mid-Point Liquidity ("MPL") orders, in securities with a per share price of \$1.00 or more. For

⁴ Under Rule 107B, an SLP can be either a proprietary trading unit of a member organization ("SLP-Prop") or a registered market maker at the Exchange ("SLMM"). For purposes of the 10% average or more quoting requirement in assigned securities pursuant to Rule 107B, quotes of an SLP-Prop and an SLMM of the same member organization are not aggregated. However, for purposes of adding liquidity for assigned SLP securities in the aggregate, shares of both an SLP-Prop and an SLMM of the same member organization are included.

⁵ The phrase "Adding ADV" in the proposed tier would have a citation to footnote 4 in the current Price List, which provides "For purposes of transaction fees and Supplemental Liquidity Provider liquidity credits, ADV calculations exclude early closing days." The text of current footnote 4 would remain unchanged.
