SUPPLEMENTARY INFORMATION:

A. Purpose

The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA) provides that an agency generally cannot conduct or sponsor a collection of information, and no person is required to respond to, nor be subject to, a penalty for failure to comply with a collection of information, unless that collection has obtained Office of Management and Budget (OMB) approval and displays a currently valid OMB Control Number.

DoD, GSA, and NASA requested and OMB authorized emergency processing of an information collection involved in this rule, as OMB Control Number 9000–0197 (FAR case 2018–010, 52.204–23, Prohibition on Contracting for Hardware, Software, and Services Developed or Provided by Kaspersky Lab and Other Covered Entities) consistent with 5 CFR 1320.13. DoD, GSA, and NASA have determined the following conditions have been met:

a. The collection of information is needed prior to the expiration of time periods normally associated with a routine submission for review under the provisions of the Paperwork Reduction Act, in view of the deadline for this provision of the NDAA which was signed into law in December 2017 and requires action before the prohibition goes into effect on October 1, 2018.

b. The collection of information is essential to the mission of the agencies to ensure the Federal Government does not purchase prohibited articles, and can respond appropriately if any such articles are not identified until after delivery or use.

c. The use of normal clearance procedures would prevent the collection of information from contractors, for national security purposes.

This requirement supports implementation of Section 1634 of Division A of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115–91). This section prohibits Government use of any hardware, software, or services developed or provided, in whole or in part, by Kaspersky Lab or its related entities. This requirement is implemented in the Federal Acquisition Regulation (FAR) through the clause at FAR 52.204–23, Prohibition on Contracting for Hardware, Software, and Services Developed or Provided by Kaspersky Lab and Other Covered Entities.

This clearance covers the following requirement:

FAR 52.204–23 requires contractors to report covered products identified during performance of a contract.

DoD, GSA, and NASA request approval of this information collection in order to implement the law. The information will be used by agency personnel to identify and remove prohibited hardware, software, or services from Government use. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor.

A notice was published in the **Federal Register** at 83 FR 28141, on June 15, 2018, as a part of an interim rule under FAR Case 2018–010, Use of Products and Services of Kaspersky Lab.

B. Annual Reporting Burden

Number of Respondents: 4,882.

Responses per Respondent: 5.

Total Responses: 24,410.

Average Burden Hours per Response: 1.5.

Total Burden Hours: 36,615.

The public reporting burden for this collection of information consists of reports of identified covered articles during contract performance as required by 52.204–23. Reports are estimated to average 1.5 hour per response, including the time for reviewing definitions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the report.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and will have practical utility; whether the estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those entities who will respond, through the use of appropriate technological collection techniques or other forms of information technology (IT).

With respect to the evaluation of burdens, in particular, DoD, GSA, and NASA especially welcome public comments on:

(1) The types of personnel that would be involved in developing and maintaining compliance with prohibition and required reports (e.g., IT security and cyber specialists, attorneys, compliance officers) and assumptions about the amount of labor hours and associated costs required to meet these responsibilities;

(2) The types of system changes specifically required within an entity to comply with this rule, as well as associated costs; and

(3) Steps that an entity will take in order to achieve compliance, as well as associated hours and costs;

(4) Any data that can help to inform the average number of subcontracts that may be affected by this rule.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW, Washington, DC 20405, telephone 202–501–4755.

DoD, GSA, and NASA have determined the following conditions have been met:

a. The collection of information is needed prior to the expiration of time periods normally associated with a routine submission for review under the provisions of the Paperwork Reduction Act.

b. The collection of information is essential to the mission of the agencies to ensure the Federal Government does

not award contracts to offerors, and any entity owned or controlled by the offeror that has engaged in any activity that violates arms control treaties or agreements with the United States.

c. The use of normal clearance procedures would prevent the collection of information from contractors, for national security purposes.

Section 1290 of Public Law 114–328 (codified at 22 U.S.C. 2593e) went into effect on December 23, 2016. The implementation of this FAR case will protect against doing business with entities that engage in any activity that contributed to or is a significant factor in a country’s failure to comply with arms control treaties or agreements with the United States. This action is necessary because of statutory requirements relating to a national security function of the United States.

SUPPLEMENTARY INFORMATION:

I. Background

Under the Medicare program, eligible beneficiaries may receive covered services in a rural health clinic (RHC) provided certain requirements are met by the RHC. Section 1861(aa) and 1905(l)(1) of the Social Security Act (the Act), establish distinct criteria for facilities seeking designation as a RHC. Regulations concerning provider agreements are at 42 CFR part 489 and those pertaining to activities relating to the survey and certification of facilities are at 42 CFR part 488, subpart A. The regulations at 42 CFR part 491, subpart A specify the conditions that a RHC must meet to participate in the Medicare program. The scope of covered services and the conditions for Medicare payment for RHCs are set forth at 42 CFR part 405, subpart X.

Generally, to enter into a provider agreement with the Medicare program, a RHC must first be certified by a state survey agency as complying with the
