Overview

Federal Agency: Rural Housing Service.

Funding Opportunity Title: Notice of Solicitation Applications for Section 514 Farm Labor Housing Loans and

Section 516 Farm Labor Housing Grants for Off-Farm Housing for Fiscal Year 2018.

Announcement Type: Solicitation of pre-applications from qualified applicants for FY 2018.

Catalog of Federal Domestic Assistance Numbers (CFDA): 10.405 and 10.427.

A. Federal Award Description

Pre-applications will only be accepted through the date and time listed in this Notice. All awards are subject to availability of funding. Individual requests may not exceed \$3 million (total loan and grant). A State Office may not receive more than 30 percent of FLH funding available in FY 2018.

If there are insufficient applications from around the country to exhaust the Section 514 and Section 516 funds available, the Agency may then exceed the 30 percent cap per State. Section 516 off-farm FLH grants may not exceed 90 percent of the total development cost (TDC) of the housing as defined in 7 CFR 3560.11.

If leveraged funds are going to be used and are in the form of tax credits, the applicant must include in its pre-application written evidence that a tax credit application has been submitted and accepted by the Housing Finance Agency (HFA). All applications that receive any leveraged funds must have firm commitments in place within 12 months of the issuance of a "Notice of Pre-Application Review Action," Handbook Letter 106 (3560). Applicants without written evidence that a tax credit application has been submitted and accepted by HFA must certify in writing they will apply for tax credits to HFA and obtain a firm commitment within 12 months of the issuance of a "Notice of Pre-Application Review Action."

Rental Assistance (RA) and operating assistance will be available for new construction in FY 2018. Operating assistance is explained at 7 CFR 3560.574 and may be used in lieu of tenant-specific RA in off-farm FLH projects that serve migrant farm workers as defined in 7 CFR 3560.11, that are financed under Section 514 or Section 516 (h) of the Housing Act of 1949, as amended (42 U.S.C. 1484 and 1486(h) respectively), and otherwise meet the requirements of 7 CFR 3560.574.

In order to maximize the use of our limited supply of FLH funds, we may contact eligible Notice of Solicitation Applications (NOSA) responses selected for an award in point score order starting with the higher scores, with proposals to modify the transaction's proportions of grant and loan funds. In

addition, if funds remain after the highest scoring eligible NOSA responses are selected for awards, we may contact those eligible responses not selected for awards, in point score order starting with the highest scores, to ascertain whether those respondents will accept those remaining funds.

C. Application and Submission Information

1. Pre-Application Submission

The application process will be in two phases: The initial pre-application (or proposal) and the submission of a final application. Only those pre-applications or proposals that are selected for further processing will be invited to submit final applications. In the event that a proposal is selected for further processing and the applicant declines, the next highest ranked unfunded pre-application may be selected for further processing. All pre-applications for Sections 514 and 516 funds must be filed with the appropriate Rural Development State Office and must meet the requirements of this Notice. Incomplete pre-applications will not be reviewed and will be returned to the applicant. No pre-application will be accepted after the deadline unless date and time are extended by another Notice published in the **Federal Register**.

Pre-applications can be submitted either electronically using the FLH Pre-Application form found at: <http://www.rd.usda.gov/programs-services/farm-labor-housing-direct-loans-grants> or in hard copy to the appropriate Rural Development Office where the project will be located. Follow the link to find the appropriate Rural Development State Office address for requesting and submitting a pre-application at: <https://www.rd.usda.gov/about-rd/offices/state-offices>. Applicants are strongly encouraged; but not required, to submit the pre-application electronically. The electronic form contains a button labeled “Send Form.” By clicking on the button, the applicant will see an email message window with an attachment that includes the electronic form the applicant filled out as a data file with a .pdf extension. In addition, an auto-reply acknowledgement will be sent to the applicant when the electronic Loan Proposal form is received by the Agency unless the sender has software that will block the receipt of the auto-reply email. The State Office will record pre-applications received electronically by the actual date and time when all attachments are received at the State Office.

Submission of the electronic Section 514 Loan Proposal form *does not* constitute submission of the entire proposal package which requires additional forms and supporting documentation as listed within this Notice. You may use one of the following options for submitting the entire proposal package comprising of all required forms and documents. On the Loan Proposal form you can indicate the option you will be using to submit each required form and document.

(a) **Electronic Media Option.** Submit all forms and documents as read-only Adobe Acrobat files on electronic media such as CDs, DVDs or USB drives. For each electronic device submitted, the applicant should include a Table of Contents of all documents and forms on that device. The electronic media should be submitted to the Rural Development State Office listed in this Notice where the property is located. Any forms and documents that are not sent electronically, including the check for credit reports, must be mailed to the Rural Development State Office.

(b) **Email Option.** On the Loan Proposal form you will be asked for a submission email address. This email address will be used to establish a folder on the U.S. Department of Agriculture (USDA) server with your unique email address. Once the Loan Proposal form is processed, you will receive an additional email notifying you of the email address that you can use to email your forms and documents. *Please Note:* All forms and documents must be emailed from the same submission email address. This will ensure that all forms and documents you send will be stored in the folder assigned to that email address. Any forms and documents that are not sent via the email option must be submitted on an electronic media or in hard copy to the Rural Development State Office.

(c) **Hard Copy Submission to the Rural Development State Office.** If you are unable to send the proposal package electronically using either of the options listed above, you may send a hard copy of all forms and documents to the Rural Development State Office where the property is located. Hard copy pre-applications received on or before the deadline will receive the close of business time of the day received as the receipt time. Assistance for filing electronic and hard copy pre-applications can be obtained from any Rural Development State Office.

For electronic submissions, there is a time delay between the time it is sent and the time it is received depending on network traffic. As a result, last-minute submissions sent before the deadline

date and time could be received after the deadline date and time because of the increased network traffic.

Applicants are reminded that all submissions received after the deadline date and time will be rejected, regardless of when they were sent.

If a pre-application is accepted for further processing, the applicant must submit a complete, final application, acceptable to Rural Development prior to the obligation of Rural Development funds. If the pre-application is not accepted for further processing the applicant will be notified of appeal rights under 7 CFR part 11.

D. Pre-Application Review Information

1. *Selection Criteria.* Section 514 FLH loan funds and Section 516 FLH grant funds will be distributed to States based on a national competition, as follows:

(a) Rural Development State Office will accept, review, and score pre-applications in accordance with this Notice. The scoring factors are:

(1) The presence of construction cost savings, including donated land and construction leverage assistance, for the units that will serve program-eligible tenants. The savings will be calculated as a percentage of the Rural Development TDC. The percentage calculation excludes any costs prohibited by Rural Development as loan expenses, such as a developer's fee. Construction cost savings includes, but is not limited to, funds for hard construction costs, and State or Federal funds which are applicable to construction costs. A minimum of 10 percent cost savings is required to earn points; however, if the total percentage of cost savings is less than 10 percent and the proposal includes donated land, 2 points will be awarded for the donated land. To count as cost savings for purposes of the selection criteria, the applicant must submit written evidence from the third-party funder that an application for those funds has been submitted and accepted points will be awarded in accordance with the following table using rounding to the nearest whole number.

| Percentage | Points |
|------------------|--------|
| 75 or more | 20 |
| 60-74 | 18 |
| 50-59 | 16 |

(2) The presence of operational cost savings, such as tax abatements, non-Rural Development tenant subsidies or donated services are calculated on a per-unit cost savings for the sum of the savings. Savings must be available for at least 5 years and documentation must be provided with the application demonstrating the availability of savings for 5 years. To calculate the savings, take the total amount of savings and divide it by the number of units in the project that will benefit from the savings to obtain the per-unit cost savings. For non-Rural Development tenant subsidy, if the value changes during the 5-year calculation, the applicant must use the lower of the non-Rural Development tenant subsidy to calculate per-unit cost savings. For example, a 10-unit property with 100 percent designated farm labor housing units receiving \$20,000 per year non-Rural Development subsidy yields a cost savings of \$100,000 ($\$20,000 \times 5$ years); resulting to a \$10,000 per-unit cost savings ($\$100,000/10$ units).

Use the following table to apply points:

| Per-unit cost savings | Points |
|-------------------------|--------|
| Above \$15,000 | 50 |
| \$10,001—\$15,000 | 35 |
| \$7,501—\$10,000 | 20 |
| \$5,001—\$7,500 | 15 |
| \$3,501—\$5,000 | 10 |
| \$2,001—\$3,500 | 5 |
| \$1,000—\$2,000 | 2 |

(3) 10 points will be awarded to projects in persistent poverty counties. A county is considered persistently poor if 20 percent or more of its population was living in poverty over the last 30 years (measured by the 1990, 2000 and 2010 decennial censuses and 2007–2011 American Community Survey 5-year estimates).

(4) Presence of tenant services.

Two points will be awarded for each resident service included in the tenant services plan up to a maximum of 10 points. Plans must detail how the services are to be administered, who will administer them, and where they will be administered. All tenant service plans must include letters of intent that clearly state the service that will be provided at the project for the benefit of the residents from any party administering each service, including the applicant. These services may include, but are not limited to, transportation related services, on-site English as a Second Language (ESL) classes, move-in funds, emergency assistance funds, homeownership counseling, food pantries, after school tutoring, and computer learning centers.

(5) Energy Initiative Scoring Points (the aggregate points for all the Energy Initiative categories may not exceed 20 points).

Properties may receive points for energy initiatives in the categories of energy conservation, energy generation, water conservation and green property management. Depending on the scope of work (SOW), properties may earn “energy initiative” points in either one of two categories: (1) New Construction or (2) Purchase and Rehabilitation of an Existing Non-Farm Labor Housing Building. Projects will be eligible for one category of the two, but not both.

Energy programs including LEED for Homes, Green Communities, etc., will each have an initial checklist indicating prerequisites for participation in its energy program. The applicable energy program checklist will establish whether prerequisites for the energy program’s participation will be met. All checklists must be accompanied by a signed affidavit by the project architect or engineer stating that the goals are achievable and the project has been enrolled in these programs if enrollment is applicable to that program. In addition, projects that apply for points under the energy generation category must include calculations of savings of energy. Compare property energy usage of three scenarios: (1) Property built to required code of State with no renewables, to (2) property as-designed with commitments to stated energy conservation programs without the use of renewables and (3) property as-designed with commitments to stated energy conservation programs and the use of proposed renewables. Use local average metrics for weather and utility costs and detail savings in kilowatts and dollars. Provide payback calculations. These calculations must be done by a licensed engineer or credentialed renewable energy provider. Include with application, the provider/engineer’s credentials including qualifications, recommendations, and proof of previous work. The checklist, affidavit, calculations and qualifications of engineer/energy provider must be submitted together with the loan application.

Enrollment in the EPA Portfolio Manager Program. All projects awarded scoring points for energy initiatives must enroll the project in the EPA Portfolio Manager Program to track post-construction energy consumption data. More information about this program may be found at: <http://www.energystar.gov/buildings/facility-owners-and-managers/existing-buildings/use-portfolio-manager>.

(ii) Energy Conservation for New Construction or Purchase and Rehabilitation of an Existing Non-Farm Labor Housing Building. Projects may be eligible for scoring points when the pre-application includes a written certification by the applicant to participate and achieve certification in the following energy efficiency programs. The points will be allocated as follows:

- Participation in the EPA’s Energy Star for Homes V3 program. (2 points) http://www.energystar.gov/index.cfm?c=bldrs_lenders_raters.pt_bldr.

OR

- Participation in the Green Communities program by the Enterprise Community Partners. (4 points) <http://www.enterprisecommunity.com/solutions-and-innovation/enterprise-green-communities>.

OR

- Participation in one of the following programs will be awarded points for certification.

Note: Each program has four levels of certification. State the level of certification that the applicant plans will achieve in their certification:

- LEED for Homes program by the United States Green Building Council (USGBC): <http://www.usgbc.org>.
—Certified Level (2 points), OR
—Silver Level (4 points), OR
—Gold Level (6 points), OR
—Platinum Level (8 points)

Applicant must state the level of certification that the applicant’s plans will achieve in their certification in its pre-application.

OR

- Home Innovation’s and The National Association of Home Builders (NAHB) ICC 700 National Green Building Standard TM: <http://www.nahb.org/>.
—Green-Bronze Level (2 points), OR
—Silver Level (4 points), OR
—Gold Level (6 points), OR
—Emerald Level (8 points).

Applicant must state the level of certification that the applicant’s plans will achieve in their certification in its pre-application.

AND

- Participation in the Department of Energy’s Zero Energy Ready program. (2 points) <http://www.energy.gov/eere/buildings/zero-energy-ready-home>.

AND

- Participation in local green/energy efficient building standards. Applicants who participate in a city, county, or municipality program (2 points).

(iii) Energy Conservation for Rehabilitation. Pre-applications for the purchase and rehabilitation of non-program MFH and related facilities in rural areas may be eligible for scoring points when the pre-application includes a written certification by the applicant to participate in one of the following energy efficiency programs. Again, the certification must be accompanied by a signed affidavit by the project architect or engineer stating that the goals are achievable. Points will be awarded as follows:

- Participation in the Green Communities program by the Enterprise Community Partners (3 points) <http://www.enterprisecommunity.com/solutions-and-innovation/enterprise-green-communities>. At least 30 percent of the points needed to qualify for the Green Communities program must be earned under the Energy Efficiency section of Green Communities.

AND

- Participation in local green/energy efficient building standards. Applicants who participate in a city, county or municipality program (2 points). The applicant should be aware of and look for additional requirements that are sometimes embedded in the third-party program's rating and verification systems.

(iv) Energy Generation. Pre-applications for new construction or purchase and rehabilitation of non-program multi-family projects which participate in the above-mentioned programs and receive scoring points for installation of on-site renewable energy sources. Energy analysis of preliminary building plans using industry-recognized simulation software must document the projected total energy consumption of all of the building components and building site usage. Projects with an energy analysis of the preliminary or rehabilitation building plans that propose a 10 percent to 100 percent energy generation commitment (where generation is considered to be the total amount of energy needed to be generated on-site to make the building a net-zero consumer of energy) will be awarded points as follows:

- 0 to 9 percent commitment to energy generation—0 points
- 10 to 20 percent commitment to energy generation—1 point
- 21 to 40 percent commitment to energy generation—2 points
- 41 to 60 percent commitment to energy generation—3 points
- 61 to 80 percent commitment to energy generation—4 points
- 81–100 percent or more commitment to energy generation—5 points

Projects may participate in Power Purchase Agreements or Solar Leases to achieve their on-site renewable energy generation goals provided that the financial obligations of the lease/purchase agreements are clearly documented and included in the application, and qualifying ratios continue to be achieved.

An additional 1 point will be awarded for off-grid systems, or elements of systems, provided that at least 5 percent of on-site renewable system is off-grid. See www.dsireusa.org for State and local specific incentives and regulations of energy initiatives.

(v) Water Conservation in Irrigation Measures. Projects may be awarded 1 point for the use of an engineered recycled water (gray water or storm water) for landscape irrigation covering 50 percent or more of the property's site landscaping needs.

(vi) Property Management Credentials. Projects may be awarded 1 point if the designated property management company or individuals that will assume maintenance and operations responsibilities upon completion of construction work have a Credential for Green Property Management. Credentialing can be obtained from the National Apartment Association (NAA), National Affordable Housing Management Association, The Institute for Real Estate Management, U.S. Green Building Council's Leadership in Energy and Environmental Design for Operations and Maintenance (LEED OM), or another source with a certifiable credentialing program. Credentialing must be illustrated in the resume(s) of the property management team and included with the pre-application.

The National Office will rank all pre-applications nationwide and distribute funds to States in rank order, within funding and RA limits. When proposals have an equal score, preference will be given first to Indian tribes as defined in § 3560.11 and then local non-profit organizations or public bodies whose principal purposes include low-income housing that meet the conditions of § 3560.55(c) and the following conditions:

- Is exempt from Federal income taxes under section 501(c)(3) or 501(c)(4) of the Internal Revenue Service code;
- Is not wholly or partially owned or controlled by a for-profit or limited-profit type entity;
- Whose members, or the entity, do not share an identity of interest with a for-profit or limited-profit type entity;
- Is not co-venturing with another entity; and

- The entity or its members will not be receiving any direct or indirect benefits pursuant to Low Income Housing Tax Credits.

If there are two or more applications that have the same score and both cannot be funded, a lottery in accordance with 7 CFR 3560.56(c)(2) will be used to break the tie. If insufficient funds or RA remain for the next ranked proposal, that applicant will be given a chance to modify their pre-application to bring it within remaining funding levels. This will be repeated for each next ranked eligible proposal until an award can be made or the list is exhausted.

Rural Development will notify all applicants whether their applications have been accepted or rejected and provide appeal rights under 7 CFR part 11, as appropriate.

E. Federal Award Administration Information

1. Federal Award Notices

Applicants must submit their initial applications by the due date specified in this Notice. Once the applications have been scored and ranked by the National Office, the National Office will advise State Offices of the proposals selected for further processing, State Offices will respond to applicants by letter.

If the application is not accepted for further processing, the applicant will be notified of appeal rights under 7 CFR part 11.

2. Administrative and National Policy

All FLH loans and grants are subject to the Restrictive-Use Provisions contained in 7 CFR 3560.72(a)(2).

3. Reporting

Borrowers must maintain separate financial records for the operation and maintenance of the project and for tenant services. Tenant services will not be funded by Rural Development. Funds allocated to the operation and maintenance of the project may not be used to supplement the cost of tenant services, nor may tenant service funds be used to supplement the project operation and maintenance. Detailed financial reports regarding tenant services will not be required unless specifically requested by Rural Development, and then only to the extent necessary for Rural Development and the borrower to discuss the affordability (and competitiveness) of the service provided to the tenant. The project audit, or verification of accounts on Form RD 3560–10, "Borrower Balance Sheet," together with an accompanying Form RD 3560–7,

“Multiple Family Housing Project Budget Utility Allowance,” must allocate revenue and expense between project operations and the service component.

BILLING CODE 3410-XV-P

DEPARTMENT OF COMMERCE

[Docket Number USBC-2018-0011]

Request for Comments on the Cross-Agency Priority Goal: Leveraging Data as a Strategic Asset

AGENCY: Department of Commerce.

ACTION: Notice and request for comments.

SUMMARY: In March 2018, the Trump Administration launched the President’s Management Agenda (PMA). It lays out a long-term vision for modernizing the Federal Government in key areas that will improve the ability of agencies to deliver mission outcomes, provide excellent service, and effectively steward taxpayer dollars on behalf of the American people. The PMA established a Cross-Agency Priority (CAP) goal of *Leveraging Data as a Strategic Asset* with an intended purpose of guiding development of a comprehensive long-term Federal Data Strategy to grow the economy, increase the effectiveness of the Federal Government, facilitate oversight, and promote transparency (https://www.performance.gov/CAP/CAP_goal_2.html). This notice seeks comment on best strategies and processes for achieving this CAP goal.

In addition to this request, two additional future requests for comment in September and December will inform draft federal data practices and a year-1 action plan.

DATES: Comments on this notice must be received by July 27, 2018.

ADDRESSES: Submit comments through the Federal eRulemaking Portal. We will not accept comments by fax or paper delivery. Include the Docket ID and the phrase “Leveraging Data as a Strategic Asset Phase 1 Comments” at the beginning of your comments. Also indicate which questions described in the **SUPPLEMENTARY INFORMATION** of this notice are addressed in your comments.

SUPPLEMENTARY INFORMATION:

Purpose

The Under Secretary for Economic Affairs, performing the nonexclusive duties and functions of the Deputy Secretary of the U.S. Department of Commerce, along with the Federal Chief Information Officer, the Chief Statistician of the United States, and executives from the U.S. Small Business Administration and the White House Office of Science and Technology Policy, is charged with developing a comprehensive Federal Data Strategy under the PMA CAP goal of *Leveraging Data as a Strategic Asset*. Under this goal, the Federal Government should leverage programmatic, statistical, and mission-support data as a strategic asset to grow the economy, increase the effectiveness of the Federal Government, facilitate oversight, and promote transparency. The Federal Government’s role in collecting and disseminating data is rooted in the U.S. Constitution. Advances in data science have transformed the production and use of data across society, business, and government. The Federal Government needs a robust, integrated approach to creating, acquiring, using, and disseminating data to deliver on mission, serve customers, and steward resources while respecting privacy and confidentiality. Over the next year, an interdisciplinary team from multiple federal agencies will develop work products, including principles, practices, and action steps for a unified approach to federal data stewardship and use, and will test potential plans as part of *The Data Incubator Project* (described below). Stakeholder engagement is critical to developing a data strategy that is viable and sustainable. This **Federal Register** notice is the first of three notices and requests for comment to seek public input on the strategy and process. This notice seeks comments on a four-part strategy to:

1. Manage government data as a strategic asset;
2. enable the American public, businesses, and researchers to effectively and efficiently access and use data;
