

cane sugar exempt from the tariff-rate quota (TRQ) for the raw cane sugar imports and related requirements on the condition that an equivalent quantity of refined sugar be: (1) Exported as refined sugar; (2) exported as an ingredient in sugar containing products; or (3) used in production of certain polyhydric alcohols. The information requirements set forth in the regulation are necessary to enable FAS to administer the licensing program in full compliance with the regulation and to ensure that licensed imports do not enter the commercial sugar market in circumvention of the TRQ for raw cane sugar.

Need and Use of the Information: FAS will collect information to verify that the world-priced sugar is actually exported and not diverted onto the domestic market, thereby undermining the objectives of politically sensitive U.S. sugar policies. This collection enables USDA to monitor participants in an effort to ensure compliance with program parameters. Without the collection, there would be increased opportunity to divert sugar onto the domestic market.

Foreign Agricultural Service

Title: Specialty Sugar Certificate Application.

OMB Control Number: 0551-0025.

Summary of Collection: The collect of information is necessary to fulfill the legal obligations of the regulation at 15 CFR 2011 subpart B to issue specialty sugar certificates, letters to importers signed by the Foreign Agricultural Service (FAS) Certifying Authority, and ensuring that U.S. importers comply with the program's requirements. The regulation sets forth the terms and conditions under which the Certifying Authority in FAS issues certificates to importers allowing them to enter specialty sugars under the tariff-rate quota (TRQ) for refined sugar.

Need and Use of the Information: The collected information will be used to: (1) Determine whether applicants for the program meet the regulation's eligibility criteria; (2) ensure that sugar to be imported is specialty sugar and meets the requirements of the regulation; (3) audit participants' compliance with the regulation; and (4) prevent entry of world-priced program sugar from entering the domestic commercial sugar market instead of domestic specialty sugar market. The Certifying Authority

needs the information to manage, plan, evaluate, and account for program activities. Less frequent collection or no collection would impede administration of the specialty sugar certificate program and reduce or eliminate imports essential to U.S. organic food and beverages processors.

Description of Respondents: Business or other for-profit.

Number of Respondents: 60.

Frequency of Responses: Reporting: Annually.
