Abstract: EPA contractors are required to disclose business relationships and corporate affiliations to determine whether EPA's interests are jeopardized by such relationships. Because EPA has the dual responsibility of cleanup and enforcement and because its contractors are often involved in both activities, it is imperative that contractors are free from conflicts of interest so as not to prejudice response and enforcement actions. Contractors are required to maintain a database of business relationships and report information to EPA on either an annual basis or when each work order is issued.

Form numbers: None.

Respondents/affected entities: Businesses or organizations performing contracts for the EPA.

Respondent's obligation to respond: Required to obtain or retain benefits.

Estimated number of respondents: 45.

Frequency of response: Annually and on occasion.

Total estimated burden: 56,055 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$4,139,627 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in estimates: There is a significant reduction in expected respondents (135 to 45), burden hours (164,525 to 50,055), and costs associated with this proposed renewal package compared to the ICR currently approved by OMB. These reductions are solely a result of corrections to the ICR's burden calculations; they are not a product of modifications to the collection methodology or the actual respondent universe.

Courtney Kerwin,

Director, Regulatory Support Division.
