SUPPLEMENTARY INFORMATION:

Title: FERC-566 (Annual Report of a Utility's 20 Largest Purchasers).

OMB Control No.: 1902-0114.

Type of Request: Three-year extension of the FERC-566 information collection requirements with no changes to the current reporting requirements.

Abstract: The Federal Power Act (FPA), as amended by the Public Utility Regulatory Policies Act of 1978 (PURPA), mandates federal oversight and approval of certain electric corporate activities to ensure that neither public nor private interests are adversely affected. Accordingly, the FPA proscribes related information filing requirements to achieve this goal. Such filing requirements are found in the Code of Federal Regulations (CFR), specifically in 18 CFR Section 131.31, and serve as the basis for the FERC-566.

FERC-566 implements FPA requirements that each public utility annually publish a list of the 20

purchasers which purchased the largest annual amounts of electric energy sold by such public utility during any of the three previous calendar years. The public disclosure of this information provides the information necessary to determine whether an interlocked position is with any of the 20 largest purchasers of electric energy. Similar to the Form 561,¹ the FPA identifies who must file the FERC-566 report and sets the filing deadline.

Type of Respondents: Public utilities.

*Estimate of Annual Burden:*² The Commission estimates the annual public reporting burden for the information collection as:

FERC-566 (ANNUAL REPORT OF A UTILITY'S 20 LARGEST PURCHASERS)

Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden and cost per response ³	Total annual burden hours and total annual cost	Cost per respondent (\$)
(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
300	1	300	4 hrs.; \$306	1,200 hrs.; \$91,800	\$306

Comments: Comments are invited on:

- (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility;
- (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used;
- (3) ways to enhance the quality, utility and clarity of the information collection; and
- (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

[Docket No. CP18-118-000]

Rover Pipeline LLC; Notice of Schedule for Environmental Review of the UGS-Crawford Meter Station Project

On March 15, 2018, Rover Pipeline LLC filed an application in Docket No. CP18-118-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the UGS-Crawford Meter Station Project (Project), and would receive up to 35 million standard cubic feet per day of pipeline quality natural gas from an interconnect with the gathering pipeline facilities of Utica Gas Services, LLC.

On March 28, 2018, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on

a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA: July 13, 2018.

90-day Federal Authorization

Decision Deadline: October 11, 2018.

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Project would consist of one new meter and regulating station on agricultural land west of Highway 221 in Salem Township, Jefferson County, Ohio. The station would consist of various components including a horizontal filter separator, ultrasonic meter skid, flow control skid, gas quality and measurement buildings, satellite communications, and a condensate storage tank. The facility would be constructed on 3.64 acres of land, of which 0.9 acre would be fenced and maintained for operation.

¹ FERC Form No. 561 (Annual Report of Interlocking Directorates), OMB Control No. 1902-0099.

² Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further

explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.

³ The estimates for cost per response are derived using the following formula: Average Burden Hours per Response * \$76.50 per Hour = Average Cost per Response. The figure comes from the 2017 FERC

average hourly cost (for wages and benefits) of \$76.50 (and an average annual salary of \$158,754). Commission staff is using the FERC average hourly cost because we consider any reporting completed in response to the FERC-566 to be compensated at rates similar to the work of FERC employees.

Background

On May 1, 2018, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed UGS-Crawford Meter Station Project and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; Native American tribes; other interested parties; and local libraries. In response to the NOI, the Commission received comments from U.S. Fish and Wildlife Service regarding impacts on multiple federally listed sensitive species. All substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP18-118), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.
