Therefore, NMFS has determined that the total taking of affected species or stocks would not have an unmitigable adverse impact on the availability of such species or stocks for taking for subsistence purposes.

**National Environmental Policy Act**

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 et seq.) and NOAA Administrative Order (NAO) 216–6A, NMFS must review our proposed action (i.e., the issuance of an IHA) with respect to potential impacts on the human environment.

This action is consistent with categories of activities identified in Categorical Exclusion B4 (IHAs with no anticipated serious injury or mortality) of the Companion Manual for NOAA Administrative Order 216–6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that the issuance of the IHA qualifies to be categorically excluded from further NEPA review.

**Endangered Species Act (ESA)**

No incidental take of ESA-listed species is authorized or expected to result from this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required for this action.

**Authorization**

As a result of these determinations, NMFS has issued an IHA to Point Blue for the potential harassment of small numbers of marine mammals incidental to seabird research activities in central California, provided the previously mentioned mitigation, monitoring and reporting requirements are incorporated.

Dated: June 29, 2018.

Donna S. Wieting,

Director, Office of Protected Resources, National Marine Fisheries Service.

Estimated Total Annual (Non-hour) Respondent Cost Burden: $0. There are no capital start-up, maintenance, postage, or recordkeeping costs associated with this information collection.

IV. Request for Comments

Comments are invited on:
(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility;
(b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information;
(c) ways to enhance the quality, utility, and clarity of the information to be collected; and
(d) ways to minimize the burden of the collection of information on respondents, e.g., the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Marcie Lovett, Director, Records and Information Governance Division, Office of the Chief Information Officer, United States Patent and Trademark Office.

Requests for additional information should be directed to Raul Tamayo, Senior Legal Advisor, Office of the Patent Legal Administration, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450; by telephone at 571–272–7728; or by email to Raul.Tamayo@uspto.gov with “0651–0064 comment” in the subject line of the message.

Additional information about this collection is also available at http://www.reginfor.gov under “Information Collection Review.”

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. 131 and 151 to examine applications and, when appropriate, allow applications and issue them as patents. Chapter 30 of Title 35 U.S.C. provides that any person at any time may file a request for reexamination by the USPTO of any claim of a patent on the basis of prior art patents or printed publications. Once initiated, the reexamination proceedings under Chapter 30 are substantially ex parte and do not permit input from third parties. The rules outlining ex parte reexaminations are found at 37 CFR 1.510–1.570.

35 U.S.C. 257 permits a patent owner to request supplemental examination of a patent by the USPTO to consider, reconsider, or correct information believed to be relevant to the patent. The rules outlining supplemental examination are found at 37 CFR 1.601–1.625.

The Leahy-Smith America Invents Act terminated inter partes reexamination effective September 16, 2012. However, inter partes reexamination proceedings based on inter partes reexamination requests filed before September 16, 2012, continue to be prosecuted. Therefore, this collection continues to include items related to the prosecution of inter partes reexamination proceedings. The rules outlining inter partes reexamination are found at 37 CFR 1.903–1.931.

Thus, the items included in this collection cover: (1) Requests for ex parte reexamination, (2) requests for supplemental examination, and (3) information that may be submitted by patent owners and third-party requesters in relation to the prosecution of an ex parte or inter partes reexamination proceeding. The transmittal forms are used by a requester (patent owner or third party) as a checklist to ensure compliance with the requirements of the statutes and rules for ex parte reexaminations and supplemental examinations. The public uses this information collection to request ex parte reexamination and supplemental examination, to prosecute reexamination proceedings, and to ensure that the associated documentation is submitted to the USPTO.

II. Method of Collection

By mail, facsimile, hand delivery, or electronically to the USPTO.
