BEA offers electronic filing through its eFile system for use in reporting on the BE-9 quarterly survey form. For information about eFile, go to www.bea.gov/efile. In addition, BEA posts all its survey forms and reporting instructions on its website, www.bea.gov/ssb. These may be downloaded, completed, printed, and submitted via fax or mail.

III. Data

OMB Control Number: 0608-0068.

Form Number: BE-9.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Responses: 180 annually (45 filed each quarter: 44 reporting mandatory data, and one that would file an exemption claim).

Estimated Time Per Response: 6 hours is the average for those reporting data. One hour is the average for those filing an exemption claim. Hours may vary considerably among respondents because of differences in the volume and complexity of information on the foreign air carriers represented by the reporter.

Estimated Total Annual Burden Hours: 1,060.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Mandatory.

Legal Authority: International Investment and Trade in Services Survey Act (Pub.L. 94-472, 22 U.S.C. 3101-3108, as amended).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection;

they also will become a matter of public record.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Quarterly Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons (BE-185) is one of BEA's primary data sources for its estimates of financial services exports and imports. A U.S. financial services provider must report if it had sales of covered services to foreign persons that exceeded \$20 million for the previous fiscal year or that are expected to exceed

that amount during the current fiscal year, or if it had purchases of covered services from foreign persons that exceeded \$15 million for the previous fiscal year or that are expected to exceed that amount during the current fiscal year.

The data are needed to monitor U.S. trade in financial services, to analyze the impact of U.S. trade on the U.S. and foreign economies, to compile and improve the U.S. economic accounts, to support U.S. commercial policy on trade in services, to conduct trade promotion, and to improve the ability of U.S. businesses to identify and evaluate market opportunities. The data are used in estimating the financial services component of the U.S. international transactions accounts (ITAs) and national income and product accounts (NIPAs).

The Bureau of Economic Analysis (BEA) is proposing no additions or modifications to the current BE-185 survey. The effort to keep current reporting requirements unchanged is intended to minimize respondent burden while considering the needs of data users. Existing language in the instructions and definitions will be reviewed and adjusted as necessary to clarify survey requirements.

II. Method of Collection

BEA contacts potential respondents by mail at the end of each fiscal quarter. Respondents must file completed BE-185 forms within 45 days after the end of each fiscal quarter, or within 90 days after the close of the fiscal year. Reports are required from each U.S. financial services provider that had sales of covered services to foreign persons that exceeded \$20 million for the previous fiscal year, or that are expected to exceed that amount during the current fiscal year, or if it had purchases of covered services from foreign persons that exceeded \$15 million for the previous fiscal year, or that are expected to exceed that amount during the current fiscal year. Entities required to report will be contacted individually by BEA. Entities not contacted by BEA have no reporting responsibilities.

BEA offers its electronic filing option, the eFile system, for use in reporting on Form BE-185. For more information about eFile, go to www.bea.gov/efile. In addition, BEA posts all its survey forms and reporting instructions on its website, www.bea.gov/ssb. These may be downloaded, completed, printed, and submitted via fax or mail.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Quarterly Survey of Transactions in Selected Services and Intellectual Property with Foreign Persons (BE-125) is a survey that collects data from U.S. persons who engage in covered transactions with foreign persons in selected services or intellectual property. A Person means any individual, branch, partnership, associated group, association, estate, trust, corporation, or other organization (whether or not organized under the laws of any State), and any government, (including a foreign government, the United States Government, a State or local government, and any agency, corporation, financial institution, or other entity or instrumentality thereof, including a government sponsored agency). A U.S. person must report if it had sales of covered services or

intellectual property to foreign persons that exceeded \$6 million for the previous fiscal year, or are expected to exceed that amount during the current fiscal year, or if it had purchases of covered services or intellectual property from foreign persons that exceeded \$4 million for the previous fiscal year, or are expected to exceed that amount during the current fiscal year.

The data are needed to monitor U.S. trade in services, to analyze the impact on the U.S. and foreign economies, to compile and improve the U.S. economic accounts, to support U.S. commercial policy on trade in services, to conduct trade promotion, and to improve the ability of U.S. businesses to identify and evaluate market opportunities. The data are used in estimating the services component of the U.S. international transactions accounts (ITAs) and national income and product accounts (NIPAs).

The Bureau of Economic Analysis (BEA) is proposing one change to the reporting requirements and several modifications to the data collected on the BE-125 survey, beginning with reporting for first quarter 2019. These modifications would allow BEA to align its statistics more closely with international economic accounting guidelines, increasing the quality and usefulness of BEA's published statistics on trade in services:

BEA proposes to adjust the reporting requirements of the survey so they are applied based on "combined" thresholds. Currently, the reporting requirements for the BE-125 survey are applied based on the dollar amount of each covered transaction type collected on the survey. For example, a reporter with transactions in several of the services and intellectual property categories covered by the survey may only exceed the threshold for mandatorily reporting additional detail by country, and by relationship to the foreign transactor (foreign affiliate, foreign parent group, or unaffiliated), for a single transaction type. Under this approach, the reporter is only required to report this additional detail on the mandatory schedule(s) for the single transaction type in excess of the \$6 million (sales) or \$4 million (purchases) threshold.

The proposed change would modify the reporting thresholds such that they are applied based on a "combined" threshold for sales or purchases of the covered types of services and intellectual property transactions. U.S. persons with combined sales in excess of \$6 million or combined purchases in excess of \$4 million would be required to disaggregate all transaction types by
