National Agricultural Statistics Service

Title: Contractor Labor Survey.

OMB Control Number: 0535—New.

Summary of Collection: Agricultural labor statistics are an integral part of the primary function of the National Agricultural Statistics Service (NASS), which is the collection, processing, and dissemination of current State, regional, and national agricultural statistics. Wage rate estimates have been published since 1866 and U.S. farm employment estimates have been published since 1910. General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204. Historically, NASS has only collected worker data related to farm workers who were hired directly by the farm operator either on a part-time or full-time basis.

Need and Use of the Information: The Contract Labor Survey is a new data collection that NASS will begin conduction in October 2018 as a pilot survey. The pilot survey will help to better understand the contractor population, as well as the type of data that contractors can and will provide. The results of the pilot study will be used to improve the next biannual survey, which is scheduled for April 2019.

Description of Respondents: Business or other for-profit; Farms.

Number of Respondents: 11,333.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 8,982.

Foreign-Trade Zones Board

[B-42-2018]

Foreign-Trade Zone (FTZ) 244— Riverside County, California; Notification of Proposed Production Activity; ModusLink Corporation (Camera and Accessories Kitting); Riverside, California

ModusLink Corporation (ModusLink) submitted a notification of proposed production activity to the FTZ Board for its facility in Riverside, California. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on June 28, 2018.

ModusLink already has authority for the kitting of cameras and accessories into retail packages on behalf of Go Pro, Inc., within Site 11 of FTZ 244. The current request would add finished products and foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt ModusLink from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below and in the existing scope of authority, ModusLink would be able to choose the duty rates during customs entry procedures that apply to: Manfrotto/MBooms3K monopods; wireless transmitters; digital video camera bundles; pro seat rail mounts; karma upgrade kits (cameras, mounts, batteries, chargers, grips, and stabilizers); point of purchase displays, and lens replacement kits (duty rate ranges from duty-free to 10%). ModusLink would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: Dog harness camera mounts; chest mount harnesses (textile); camera mount hardware; USB
