intent was to eliminate any confusion about with whom regulated entities and other persons should interact when complying with these various rules.

In that document, the FAA assigned amendment number 65–56 to the rule. However, the FAA previously assigned that amendment number to a final rule that published on December 16, 2014, entitled “Elimination of the air traffic control tower operator certificate for controllers who hold a federal aviation administration credential with a tower rating on” (79 FR 74607). The correct amendment number should have been 65–57A, and this action fixes that error.

Correction

1. On page 9162, in the first column, in the heading under the docket number correct “65–56” to read “65–57A”.

2. Issued under authority provided by 49 U.S.C. 106(f), 44701(a), and 44703 in Washington, DC, on June 27, 2018.

Dale Bouffiou,
Deputy Executive Director, Office of Rulemaking.
