The deviation is necessary to accommodate the free movement of pedestrians and vehicles during the 8th Annual Atlantic City Triathlon. This deviation allows the bridge to remain in the closed-to-navigation position.

DATES: The deviation is effective from 6 a.m. to 1 p.m. on August 11, 2018.

ADDRESSES: The docket for this deviation, [USCG-2018-0610] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH". Click on Open Docket Folder on the line associated with this deviation.

SUPPLEMENTARY INFORMATION: The event director, DelMoSports, LLC, with approval from the New Jersey Department of Transportation, who owns and operates the US40-322 (Albany Avenue) Bridge across the NJICW (Inside Thorofare), mile 70.0, at Atlantic City, NJ, has requested a temporary deviation from the current operating regulations. This temporary deviation is necessary to accommodate the free movement of pedestrians and vehicles during the 8th Annual Atlantic City Triathlon. The bridge is a double

bascule bridge and has a vertical clearance in the closed position of 10 feet above mean high water.

The current operating schedule is set out in 33 CFR 117.733 (f). Under this temporary deviation, the bridge will be maintained in the closed-to-navigation position from 6 a.m. to 1 p.m. on August 11, 2018. The NJICW (Inside Thorofare) is used by recreational vessels. The Coast Guard has carefully coordinated the restrictions with waterway users in publishing this temporary deviation.

Vessels able to pass through the bridge in the closed position may do so at anytime. The bridge will be able to open for emergencies and there is no immediate alternate route for vessels unable to pass through the bridge in the closed position. The Coast Guard will also inform the users of the waterway through our Local and Broadcast Notice to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impacts caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
