

Commerce will determine, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

For DSM and Hyundai Steel, we calculated importer-specific assessment rates on the basis of the ratio of the total amount of antidumping duties calculated for each importer's examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1).³ For entries of subject merchandise during the period of review produced by DSM or Hyundai Steel for which it did not know its merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. We intend to issue liquidation instructions to CBP 15 days after publication of the final results of these reviews.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of this notice for all shipments of CTL plate from Korea entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for the companies listed above will be equal to the weighted-average dumping margins established in the final results of this administrative review; (2) for merchandise exported by producers or exporters not covered in this review but covered in a prior completed segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the producer has been covered in a prior complete segment of this proceeding, the cash deposit rate will be the rate established for the most recent period for the producer of the merchandise; (4) the cash deposit rate for all other manufacturers or exporters will continue to be 0.98 percent,⁴ the all-others rate determined in the less-than-fair-value investigation, adjusted for the

export-subsidy rate in the companion countervailing duty investigation. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

This notice is published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(5).

Dated: July 9, 2018.

Environmental Technologies Trade Advisory Committee (ETTAC) Public Meeting

AGENCY: International Trade Administration, DOC.

Topic to be considered: At this final meeting of the current (2016–2018) ETTAC charter, interagency representatives of the Trade Promotion Coordinating Committee's Environmental Trade Working Group (TPCC ETWG) will respond to the recommendations that the ETTAC presented to the Secretary of Commerce's designee on May 15. The meeting will be co-chaired by senior officials from the International Trade Administration and the U.S. Environmental Protection Agency. The ETTAC's recommendations cover two primary themes: (1) Recommendations regarding how the U.S. Government can help level the playing field, address barriers and increase opportunities for U.S. environmental exporters through market development efforts, export financing, and trade policy engagements and negotiations; and recommendations aimed at improving the overall quality of services delivered by the U.S. Government to U.S. environmental exporters through enhancements to digital tools aimed at improving lead generation, lead dissemination, and metrics and tracking. The recommendations were developed by the ETTAC's three subcommittees: Trade Promotion and Export Market Development, Professional Services and Infrastructure Advancement, and Trade Policy and American Competitiveness. OEEI will make the final agenda available to the public at least one week prior to the meeting. Please email amy.kreps@trade.gov or contact 202–482–3835 for a copy.

Background: The ETTAC is mandated by Section 2313(c) of the Export Enhancement Act of 1988, as amended, 15 U.S.C. 4728(c), to advise the Environmental Trade Working Group of the Trade Promotion Coordinating Committee, through the Secretary of Commerce, on the development and administration of programs to expand U.S. exports of environmental technologies, goods, services, and products. The ETTAC was originally chartered in May of 1994. It was most recently re-chartered until August 2018.

Dated: July 9, 2018.

Certain Steel Nails From the People's Republic of China: Notice of Court Decision Not in Harmony With the Final Results of Administrative Review and Notice of Amended Final Results of Antidumping Duty Administrative Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On June 19, 2018, the United States Court of International Trade (Court) issued its final judgment in *Xi'an Metals & Minerals Import & Export Co., Ltd. v. United States*, Consol. Court No. 15–00109, sustaining, in part, and vacating, in part, the U.S. Department of Commerce's (Commerce) final remand results in the fifth administrative review of certain steel nails from the People's Republic of China (China). Commerce is notifying the public that the final judgment in this case is not in harmony with Commerce's final results of the administrative review, covering the period of review (POR) August 1, 2012, through July 31, 2013, and that Commerce is amending the final results with respect to the dumping margin assigned to The Stanley Works (Langfang) Fastening Systems Co., Ltd. (Stanley). The margin for Xi'an Metals & Minerals Import & Export Co., Ltd. (Xi'an Metals) remains unchanged as a result of the Court's final judgment.

DATES: Applicable June 19, 2018.

FOR FURTHER INFORMATION CONTACT: Matthew Renkey, AD/CVD Operations Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2312.

SUPPLEMENTARY INFORMATION:

Background

On April 8, 2015, Commerce issued the *Final Results*, in which it determined weighted-average dumping margins of 13.19 percent for Stanley and 72.52 percent Xi'an Metals.¹ On September 6, 2017, the Court remanded to Commerce certain aspects of the *Final Results*, ordering Commerce to reconsider, in relevant part: (1) The potential double counting of certain

labor costs by including line items such as “Salary & Bonus,” “Welfare,” and “Social Security and Compensation” as selling, general, and administrative (SG&A) expenses in the surrogate financial ratios;² and (2) the presence of a transcription error in Stanley's post-verification factors of production (FOP) database.³

On December 21, 2017, Commerce filed the AR5 Remand Redetermination with the Court.⁴ Under respectful protest, Commerce recalculated the surrogate financial ratios by reclassifying certain labor-related line items from the selling, general, and administrative expenses numerator, to the materials, labor, and energy denominator of the financial ratios.⁵ Additionally, under respectful protest, Commerce corrected the transcription error present in Stanley's post-verification FOP database.⁶ As a result of these modifications, there were changes to the dumping margins assigned to both Xi'an Metals and Stanley. The resulting antidumping margins for Xi'an Metals and Stanley were 64.27 percent and 8.04 percent, respectively.⁷

On June 19, 2018, the Court sustained the AR5 Remand Redetermination with respect to the correction of the transcription error in Stanley's FOP database.⁸ In addition, the Court vacated the remand order with respect to the issue of the calculation of the surrogate financial ratios, and reinstated this aspect of Commerce's *Final Results*.⁹ In light of the Court's *Final Judgment*, the dumping margin for Xi'an Metals is unchanged from its dumping margin assigned in the *Final Results*. Additionally, because the Court reinstated the *Final Results* with respect to the calculation of the surrogate financial ratios, for these amended final results, we recalculated Stanley's dumping margin to reflect only the correction of the transcription error in Stanley's FOP database.¹⁰
