

contained on electronic media are degaussed or erased in accordance with 384 Departmental Manual 1 and NARA guidelines.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

The records contained in this system are safeguarded in accordance with 43 CFR 2.226 and other applicable security and privacy rules and policies. During normal hours of operation, paper records are maintained in locked file cabinets under the control of authorized personnel. Electronic records are safeguarded by permissions set to "Authenticated Users" which require password login. Computer servers on which electronic records are stored are located in secured DOI controlled facilities with physical, technical and administrative levels of security to prevent unauthorized access to the DOI network and information assets. The computer servers in which electronic records are stored are located in DOI facilities that are secured by security guards, alarm systems and off-master key access. Access to servers containing records in this system is limited to DOI personnel and other authorized parties who have a need to know the information for the performance of their official duties. Data exchanged between the servers and the system is encrypted. Backup tapes are encrypted and stored in a locked and controlled room in a secure, off-site location.

Computerized records systems follow the National Institute of Standards and Technology privacy and security standards as developed to comply with the Privacy Act of 1974, 5 U.S.C. 552a; Paperwork Reduction Act of 1995, 44 U.S.C. 3501–3521; Federal Information Security Modernization Act of 2014, 44 U.S.C. 3551–3558; and the Federal Information Processing Standards 199: Standards for Security Categorization of Federal Information and Information Systems. Security controls include user identification, passwords, database permissions, encryption, firewalls, audit logs, and network system security monitoring, and software controls. Access to records in the system is limited to authorized personnel who have a need to access the records in the performance of their official duties, and each user's access is restricted to only the functions and data necessary to perform that person's job responsibilities. System administrators and authorized users are trained and required to follow established internal security protocols and must complete all security, privacy, and records management training and sign the DOI Rules of Behavior.

RECORD ACCESS PROCEDURES:

An individual requesting records on himself or herself should send a signed, written inquiry to the applicable System Manager identified above. The request must include the specific bureau or office that maintains the record to facilitate location of the applicable records.
