SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov> or in person at the EPA Docket Center, EPA WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about the EPA's public docket, visit <https://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) enhance the quality, utility, and clarity of the information to be collected; and; (5) minimize the burden of the collection of information on those who are to respond, including through

the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: This information collection is an application from state, local, or tribal agencies (S/L/Ts) for delegation of regulations developed under section 112 of the Clean Air Act (CAA). The five options for delegation are (1) straight delegation, (2) rule adjustment, (3) rule substitution, (4) equivalency by permit, or (5) state program approval. The information is needed and used to determine if the entity submitting an application has met the criteria established in 40 CFR part 63, subpart E. This information is necessary for the EPA Administrator to determine the acceptability of approving S/L/T's rules, requirements, or programs in lieu of the Federal CAA section 112 rules or programs. The collection of information is authorized under 42 U.S.C. 7401-7671q.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are S/L/Ts participating in this voluntary program. These government establishments are classified as Air and Water Resource and Solid Waste Management Programs under Standard Industrial Classification (SIC) code 9511 and North American Industry Classification System (NAICS) code 92411. No industries under any SIC or NAICS codes will be included among respondents.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 119 S/L/Ts for maximum achievable control technology standards and 95 S/L/Ts for area source standards per year.

Frequency of response: One time per delegation request.

Total estimated burden: 30,383 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$1,587,350 (per year). This includes an estimated labor burden cost of \$1,585,000 and an estimated cost of \$2,350 for operation and maintenance costs resulting from photocopying and postage expenses.

Changes in Estimates: Preliminary results indicate an increase of 588 hours in the total estimated respondent

burden compared with the ICR currently approved by OMB. This increase is due to an increase in the number of maximum achievable control technology standard promulgations compared to last period. We are still in the process of reviewing the key assumptions in the ICR that will affect the overall burden estimate. These include the number of delegation activities expected to occur during the upcoming collection period, the delegation options most likely to be used by the delegated S/L/Ts, and the burden associated with each of the options. Depending on the outcome of this review, there could be changes in the overall burden estimates.

Dated: July 11, 2018.

David Cozzie,

Acting Director, Sector Policies and Program Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9980-10—Region 6]

Clean Air Act Operating Permit Program; Petitions for Objection to State Operating Permit for Motiva Enterprises LLC, Port Arthur Refinery, Jefferson County, Texas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final Order on Petition for objection to Clean Air Act title V operating permit.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an Order dated May 31, 2018, granting in part and denying in part a Petition dated November 8, 2016 from the Environmental Integrity Project, Sierra Club, and Air Alliance Houston. The Petition requested that the EPA object to a Clean Air Act (CAA) title V operating permit issued by the Texas Commission on Environmental Quality (TCEQ) to Motiva Enterprises LLC (Motiva) for its Port Arthur Refinery located in Jefferson County, Texas.

ADDRESSES: The EPA requests that you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, the Petition, and other supporting information. You may review copies of the final Order, the Petition, and other supporting information at the EPA Region 6 Office, 1445 Ross Avenue, Dallas, Texas 75202-2733. You may view the hard copies Monday through Friday, from 9 a.m. to 3 p.m., excluding

federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order and Petition are available electronically at: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

FOR FURTHER INFORMATION CONTACT:

Kyndall Cox, EPA Region 6, (214) 665-8567, cox.kyndall@epa.gov.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities under title V of the CAA. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of the EPA's 45-day review period if the EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or unless the grounds for the issue arose after this period.

The EPA received the Petition from the Environmental Integrity Project, Sierra Club, and Air Alliance Houston dated November 8, 2016, requesting that the EPA object to the issuance of operating permit no. O1386, issued by TCEQ to Motiva's Port Arthur Refinery in Jefferson County, Texas. The Petition has six claims (1–6) that the proposed permit fails to require monitoring, recordkeeping and reporting sufficient to assure compliance with various emission limits and operational requirements for units authorized by New Source Review (NSR) permits and permits by rule (PBRs); one claim (7) that the proposed permit's incorporation by reference of permit by rule requirements fails to assure compliance with applicable requirements; and one claim (8) that the proposed permit fails to identify monitoring, recordkeeping and reporting for emission units subject to NSPS and NESHAP federal rules.

On May 31, 2018, the EPA Administrator issued an Order granting in part and denying in part the Petition. The Order explains the basis for EPA's decision.

Sections 307(b) and 505(b)(2) of the CAA provide that a petitioner may request judicial review of those portions of an order that deny issues in a petition. Any petition for review shall be filed in the United States Court of

Appeals for the appropriate circuit no later than September 17, 2018.

Dated: July 3, 2018.

Anne L. Idsal,

Regional Administrator, Region 6.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0979]

Information Collections Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before September 17, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.
