

this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for each specific company listed above will be that established in the final results of this review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously investigated companies not participating in this review, the cash deposit will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent segment for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 4.38 percent, the all-others rate established in the LTFV investigation.¹⁴ These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is issued and published in accordance with section 751(a)(1) and 777(i)(1) of the Act.

Dated: July 11, 2018.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix

List of Topics Discussed in the IDM

- I. Summary
- II. Background
- III. Margin Calculations
- IV. Discussion of the Issues
 - General Issues:
 - Comment 1: Existence of a Particular Market Situation (PMS)
 - Comment 2: Additional PMS Adjustments
 - Comment 3: Allegations of Improper Political Influence in Determining the PMS
 - Comment 4: Differential Pricing
 - Comment 5: Reimbursement of Antidumping Duties
 - Hyundai Steel-Specific Issues:
 - Comment 6: Collapsing Hyundai RB with Hyundai Steel
 - Comment 7: Date of Sale for Hyundai Steel's U.S. Sales
 - Comment 8: Reporting of Hyundai Steel's Downstream Sales
 - Comment 9: Assignment of Costs for Hyundai Steel's Non-Prime Pipe
 - Comment 10: Hyundai Steel's Foreign Inland Freight Expenses
 - Comment 11: Calculation Error for Hyundai Steel in the *Preliminary Results*
 - SeAH-Specific Issues:
 - Comment 12: SeAH's Third Country Comparison Market Viability
 - Comment 13: Constructed Export Price (CEP) Offset for SeAH
- V. Recommendation

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

[Docket No. 171003965-7965-01]

Hollings Manufacturing Extension Partnership Program; Knowledge Sharing Strategies.

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice; request for information.

SUMMARY: The Hollings Manufacturing Extension Partnership (MEP) Program includes a network of centers located in all 50 States and Puerto Rico, and is a source of trusted advice about new technologies, production techniques and business management practices. In

order for the MEP System to grow, improve and have a greater impact on the growth and competitiveness of U.S. manufacturers in the global marketplace, the MEP System needs to transform to an organizationally and operationally integrated MEP National Network. This transformation will require a learning and knowledge sharing infrastructure, which NIST MEP envisions will be stood up as "The MEP Network Learning and Knowledge Sharing System" (MEP NLKSS). NIST is requesting information from interested vendors and others on possible designs and implementation of networked learning and knowledge sharing. The responses will inform NIST's planning of the MEP NLKSS, including assisting NIST MEP with the development of the final Statement of Work for a performance-based contract.

DATES: NIST will accept responses to this request for information until 11:59 p.m. Eastern Time on August 17, 2018.

ADDRESSES: Responses will be accepted by email only. Responses must be sent to meprfi@nist.gov with the subject line "MEP Network Learning and Knowledge Sharing System RFI Response."

FOR FURTHER INFORMATION CONTACT:

Michael Simpson, 100 Bureau Drive, Mail Stop 4800, Gaithersburg, MD 20899-4800, 301-975-5020, meprfi@nist.gov; or Mary Ann Pacelli, 100 Bureau Drive, Mail Stop 4800, Gaithersburg, MD 20899-4800, 301-975-5020, meprfi@nist.gov. Please direct media inquiries to NIST's Office of Public Affairs at 301-975-NIST (6478).

SUPPLEMENTARY INFORMATION: NIST will consider the information obtained in response to this request for information in the development of a Scope of Work for a competitively awarded contract to develop and/or implement any or all parts of the MEP NLKSS.

Background—The MEP System

The MEP System consists of NIST MEP and its MEP Centers located in all 50 States and Puerto Rico. For almost 30 years the MEP Centers have served as trusted advisors focused largely on the continuous improvement of U.S. manufacturers for the purpose of achieving improved productivity. MEP Centers are a diverse system of state, university-based, and other non-profit organizations, comprising more than 1,300 technical experts offering products, technical expertise and services that address the critical needs of their local manufacturers. MEP Centers are funded through cooperative agreements issued by NIST.

¹⁴ See *Welded Line Pipe from the Republic of Korea and the Republic of Turkey: Antidumping Duty Orders*, 80 FR 75056, 75057 (December 1, 2015).

Each MEP Center works directly with manufacturers in their area to provide expertise and services tailored to their most critical needs, ranging from process improvement and workforce development to business practices and technology transfer. Additionally, MEP Centers connect manufacturers with government and trade associations, universities and research laboratories, and a host of other public and private resources to help manufacturers realize individual business goals.

Through the efforts of its existing MEP Centers to provide services to small and medium-sized U.S. manufacturers, the MEP System addresses many of the needs of small and medium-sized U.S. manufacturers. However, to continue to effectively enhance the productivity and technological performance of U.S. manufacturing, and assist manufacturers with competing in the global economy, MEP Centers require access to expertise specific to a given technology, supply chain and/or sector which any one specific MEP Center may not possess.

Since its creation in 1988, the MEP System has become a source of trusted advice about new technologies, production techniques, and business management practices for a significant number of firms (about 8,000 to 10,000 per year). The MEP System engages another 20,000 to 22,000 firms each year in training and outreach events. However, NIST recognizes that past events do not predict the future, and the MEP program must continue to add new capabilities to all its MEP Centers to improve its support of small and medium-sized U.S. manufacturers in the United States.

While successful in serving U.S. manufacturers locally, there is much more work to be done to support U.S. manufacturing supply chains. In general, the MEP System can do a better job in leveraging its diverse capabilities and regional and national strengths to reach more companies. NIST recognizes a need to provide more services to more manufacturers. The MEP Program understands the need to assist more manufacturers to establish a resilient, dependable, productive, and highly-trained supplier base to meet national manufacturing needs to support a wide array of U.S. industrial sectors, for example, the defense, transportation, and physical infrastructure sectors.

Transformation to a National Network

To address the challenges facing the MEP Program and its customers, the system needs to transform from its current state to one organized and operated as an integrated MEP National

Network. The integrated MEP National Network is envisioned as an organization of MEP Centers which collectively act on a regional and national basis to provide solutions to the current and future needs of small and medium-sized manufacturers across the United States.

The transformation of the MEP System to an integrated MEP National Network will require a learning and knowledge sharing infrastructure to assist MEP Centers with obtaining access to integrated solutions for serving U.S. manufacturers. NIST MEP envisions the learning and knowledge sharing infrastructure will be stood up as "The MEP Network Learning and Knowledge Sharing System" (MEP NLKSS). The MEP NLKSS is expected to include both the human and digital networks necessary to support access to and the sharing of expertise, best practices, community resources, and training and professional development within the integrated MEP National Network, thus allowing the MEP Centers to access and impart relevant technical and strategic knowledge to small and medium-sized manufacturers locally, regionally, and nationally.

The integrated MEP National Network is being built on the MEP Centers' ability to serve as trusted advisors for their clients. By strengthening the MEP footprint with the connected MEP NLKSS, both manufacturers and MEP Centers can benefit. For example, manufacturers can take advantage of expertise, delivery credibility, and services that are not offered by their local MEP Center or that need to be delivered across regions. More specifically, using the NLKSS, manufacturers will be able to benefit from the following:

- Access to resources and capabilities from the MEP National Network to address their unique, complex, critical business and technology challenges quickly, even if their local MEP Center does not possess such solutions;
- In those situations where a manufacturer has multiple locations in multiple states the MEP National Network, and the NLKSS will allow the creation and sharing of new processes, technologies, and capabilities for all locations, consistently and seamlessly from multiple MEP Centers.

Similarly, through the NLKSS, MEP Centers will be able to share resources and expertise, communicate frequently and widely on market and manufacturing trends, and assist each other across the U.S. Moreover, MEP Centers will be able to take advantage of the broad base of expertise the integrated MEP National Network will

offer and can bring the right resources to bear regardless of their location. More specifically, the NLKSS will provide MEP Centers opportunities to:

- Serve more manufacturers;
- Partner with other MEP Centers to provide services locally, regionally, or nationally;
- Deliver services that have been developed at other MEP Centers;
- Increase capacity and capabilities for project activities with existing and new manufacturers;
- Assist manufacturers to bring new products to market quickly and effectively;
- Share timely intelligence about manufacturing trends as a repeatable process;
- Train MEP Center personnel on new services, approaches, and tools used at other MEP Centers;
- Share and deploy the unique strengths inherent to the three types of MEP Center host organizations: states, universities, and non-profit organizations.

No Confidential Proprietary, Business or Personally Identifiable Information

No confidential proprietary information, business identifiable information, or personally identifiable information should be included in the written responses to this request for information. Responses received by the deadline may be made publicly available without change at: www.nist.gov/mep.

Request for Information

Considering the description of the MEP NLKSS above, NIST MEP is seeking input and information regarding how other organizations and vendors have modeled and addressed organization learning and knowledge sharing, especially in a manufacturing services environment. The responses are intended to inform NIST's planning of the MEP NLKSS, including assisting NIST MEP with the development of the final Statement of Work for a performance-based contract. Through this notice, NIST requests information from interested vendors and others on possible designs and implementation of networked learning and knowledge sharing, particularly with respect to the following issues:

- (1) Key problems and issues NIST MEP and the network will face related to knowledge management in the near-term (1 to 2 years), mid-term (3 to 5 years) and/or long-term (more than 5 years);
- (2) Solutions (technical and non-technical) available to address the problems/issues identified in question 1

in the near-term (1 to 2 years), mid-term (3 to 5 years) and/or long-term (more than 5 years). More specifically,

a. Specific solutions available to address the needs of working groups/communities of practice;

b. Specific solutions available to address the more immediate needs of individual practitioners and management;

c. How information is best disseminated to the leadership and staff of organizations within a network, and whether this would be applicable for the integrated MEP National Network;

(3) Cultural and technical barriers that need to be addressed by any system(s) of knowledge management;

(4) Complementary services, including information services, that are and/or will be needed by NIST MEP and the MEP Centers to take full advantage of any knowledge management system and culture;

(5) Any other critical issues that NIST MEP should consider in its strategic planning for investments in this area that are not covered by the first four issues. Further information on the MEP program is available at: <https://www.nist.gov/mep>.

Authority: 15 U.S.C. 278k.

Kevin A. Kimball,
Chief of Staff.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Marine Protected Areas Federal Advisory Committee; Public Meeting

AGENCY: Office of National Marine Sanctuaries (ONMS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of open meeting.

SUMMARY: Notice is hereby given of a virtual meeting of the Marine Protected Areas Federal Advisory Committee (MPA FAC) via teleconference.

DATES: The meeting will be held on Wednesday, September 19, 2018, from 11:00 a.m. to 12:30 p.m. Pacific Time (2:00 p.m. to 3:30 p.m. Eastern Time). These times and the agenda topics described below are subject to change. Please refer to the Committee's webpage for the most up-to-date meeting agenda. <http://marineprotectedareas.noaa.gov/fac>.

ADDRESSES: The meeting will be held virtually via teleconference. Register by

contacting Nicole Capps at Nicole.Capps@noaa.gov or 831-647-6451 at least one working day in advance of the meeting.

FOR FURTHER INFORMATION CONTACT:

Charles M. Wahle, Ph.D., Designated Federal Officer, MPA FAC, National Marine Protected Areas Center, 99 Pacific St., Suite 100-F, Monterey, CA 93940. (Phone: 831-647-6460; Fax: 831-647-1732; email: charles.wahle@noaa.gov; or visit the National MPA Center website at <http://marineprotectedareas.noaa.gov/fac>).

SUPPLEMENTARY INFORMATION: The Committee, composed of external, knowledgeable representatives of stakeholder groups, was established by the Department of Commerce (DOC) to provide advice to the Secretaries of Commerce and the Interior on implementation of Section 4 of Executive Order 13158, on marine protected areas (MPAs). The MPA FAC was continued via Presidential Executive Order on September 29, 2017. The meeting is open to the public, and public comment will be accepted from 12:15 p.m. to 12:30 p.m. Pacific Time on Wednesday, September 19, 2018. In general, each individual or group will be limited to a total time of three (3) minutes. If members of the public wish to submit written statements, they should be submitted to the Designated Federal Officer by Friday, September 14, 2018.

Matters to be Considered: This meeting will focus on: (i) Approving the Committee's final findings and recommendations on Sustaining MPA Benefits in a Changing Ocean; and, (ii) approving updates to the Cultural Resources Toolkit developed previously by the Committee and published on the MPA Center website (<https://marineprotectedareas.noaa.gov/toolkit/>). The agenda is subject to change. The latest version will be posted at <http://marineprotectedareas.noaa.gov/fac>.

Dated: June 14, 2018.

John A. Armor,

Director, Office of National Marine Sanctuaries, National Ocean Service, National Oceanic and Atmospheric Administration.

BILLING CODE 3510-NK-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XG257

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Regional Administrator, West Coast Region, NMFS, has made a preliminary determination that an application for an Exempted Fishing Permit warrants further consideration. The application, submitted by the California Wetfish Producers Association, requests an exemption from the prohibition of primary directed fishing for Pacific sardine for the 2018-2019 fishing year to collect Pacific sardine as part of an industry-based scientific survey. NMFS requests public comment on the application.

DATES: Comments must be received by August 2, 2018.

ADDRESSES: You may submit comments on this document, identified by NOAA-NMFS-2018-0072, by any of the following methods:

- **Electronic Submissions:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2018-0072, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments. The EFP application will be available under Relevant Documents through the same link.

- **Mail:** Submit written comments to Joshua Lindsay, West Coast Region, NMFS, 501 W. Ocean Blvd., Ste. 4200, Long Beach, CA 90802-4250.

- **Instructions:** Comments must be submitted by one of the above methods to ensure that the comments are received, documented, and considered by NMFS. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information, or
