

south end of the Facility's main building, called the melt shop. Emissions that would otherwise be released into the atmosphere through the roof monitor would be captured by a new system that would route emissions to a new baghouse for pollution control. The proposed Consent Decree also contains interim measures to address PM emissions; operational requirements to limit emissions; and monitoring, recordkeeping, and reporting requirements. The proposed Consent Decree requires Gerdau to pay a \$325,000 civil penalty.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Gerdau Specialty Steel, N.A., Michigan*, D.J. Ref. No. 90-5-2-1-11453. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By email	pubcomment-ees.enrd@usdoj.gov .
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the Consent Decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. We will provide a paper copy of the Consent Decree upon written request and payment of reproduction costs. Please mail your request and payment to: Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

Please enclose a check or money order for \$12.40 (25 cents per page reproduction cost) payable to the United States Treasury.

Randall M. Stone,

*Acting Assistant Section Chief,
Environmental Enforcement Section,
Environment and Natural Resources Division.*

BILLING CODE P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 18-056]

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public to take this opportunity to comment on the "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery" for approval under the Paperwork Reduction Act (PRA). This collection was developed as part of a Federal Government-wide effort to streamline the process for seeking feedback from the public on service delivery. This notice announces our intent to submit this collection to OMB for approval and solicits comments on specific aspects for the proposed information collection. **DATES:** All comments should be submitted within 30 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed to Gatrie Johnson, National Aeronautics and Space Administration, 300 E Street SW, Washington, DC 20546-0001.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Gatrie Johnson, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546 or email or Gatrie.Johnson@NASA.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections

will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

II. Methods of Collection

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

The collections are voluntary;

The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;

The collections are non-controversial and do not raise issues of concern to other Federal agencies;

Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;

Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;

Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which

generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

III. Data

Title: Extension of the Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Number: 2700–0153.

Type of review: Extension of approval for a collection of information.

Affected Public: Individuals and Households, Businesses and Organizations, State, Local, or Tribal Government.

Average Expected Annual Number of activities: 60.

Average number of Respondents per Activity: 300.

Annual Responses: 18,000.

Frequency of Responses: Once per request.

Average minutes Per Response: 5.

Burden Hours: 1,500.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection.

They will also become a matter of public record.

Gatrie Johnson,
NASA PRA Clearance Officer.

BILLING CODE 7510–13–P

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

Agency Information Collection Activities: Extension of Information Collection; Comment Request

AGENCY: Office of the Director of National Intelligence (ODNI).

ACTION: Notice.

SUMMARY: In December 2011, the ODNI accepted responsibility from the Information Security Oversight Office (ISOO) to manage the Standard Form 714, *Financial Disclosure Report*, in accordance with the responsibilities assigned to the Director of National Intelligence (DNI) as the Security Executive Agent. The Standard Form 714 is used across the U.S. Government for assessing an individual's eligibility (or continued eligibility) for access to certain types of classified information. This standard form must be completed and submitted as a condition for access to designated classified information, along with a favorably adjudicated personnel security background investigation or reinvestigation. In accordance with the Office of Management and Budget's (OMB) process for Federal agency adherence to the Paperwork Reduction Act, this 30-day Notice is to advise of ODNI's intent to now submit Standard Form 714 to OMB for review and approval and to invite comments from the general public and other Federal Agencies. As the ODNI proposes no changes to Standard Form 714 and its instructions at this time, the ODNI is seeking to extend the current version of the Standard Form 714 for three additional years from its scheduled expiration on 31 August 2018. On 12 February 2018, the **Federal Register** published a Notice inviting the general public and other Federal agencies to comment on the ODNI's intent to extend the use of the current version of Standard Form 714 for an additional three years. The Notice resulted in one comment/suggestion from the general public related to "ways, including the use of information technology, to minimize the burden of the collection of information on all respondents to the Standard Form 714."

ODNI responded directly to the individual thanking them for their

suggestion and stating that ODNI will take the suggestion into consideration.

DATES: Written comments must be received on or before August 20, 2018 to be assured of consideration.

ADDRESSES: Comments should be sent to OMB liaison to ODNI Jasmeet Seehra at jasmeet_k_seehra@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection and supporting statements should be directed to Ms. Patricia Gaviria, Director of the Information Management Division, Policy and Strategy, Office of the Director of National Intelligence, Washington, DC 20511; dni-foia@dni.gov.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104–13), the ODNI is requesting extension in effect of Standard Form 714, proposing no changes to the Form and its instructions at this time. The ODNI invites the general public and other Federal agencies to comment on Standard Form 714. The comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection reflected in the Standard Form 714 meets the intent of section 1.3 ("Financial Disclosure") of Executive Order 12968, as amended ("Access to Classified Information"); (b) the accuracy of the estimated burden of the proposed information collection for Standard Form 714; (c) ways to enhance the quality, utility, and clarity of the information to be collected in the Standard Form 714; (d) ways, including the use of information technology, to minimize the burden of the collection of information on all respondents to the Standard Form 714; and (e) whether small businesses are affected by this collection. All comments will become a matter of public record.

Abstract: The National Security Act of 1947, as amended; section 3001 of the Intelligence Reform and Terrorism Prevention Act of 2004; and Executive Order 13467, "Reforming Processes Related to Suitability for Government Employment, Fitness for Contractor Employees, and Eligibility for Access to Classified National Security Information," as amended, authorize the DNI, as the Security Executive Agent, to develop standard forms, including a standard financial disclosure form, that promotes uniformity and consistency in the implementation of the Government's security programs.

The Standard Form 714 contains information that is used to assist in making eligibility determinations for access to specifically designated
