

Conditioners (MVACs) retrofitted to use a SNAP substitute refrigerant include basic information on a label to be affixed to the air conditioner. The label includes the name of the substitute refrigerant, when and by whom the retrofit was performed, environmental and safety information about the substitute refrigerant, and other information. This information is needed so that subsequent technicians working on the MVAC system will be able to service the equipment properly, decreasing the likelihood of significant refrigerant cross-contamination and potential failure of air conditioning systems and recovery/recycling equipment.

*Form numbers:* None.

*Respondents/affected entities:* New and used car dealers, gas service stations, top and body repair shops, general automotive repair shops, automotive repair shops not elsewhere classified, including air conditioning and radiator specialty shops.

*Respondent's obligation to respond:* Mandatory under 40 CFR 82.180.

*Estimated number of respondents:* 13 (total).

*Frequency of response:* Once per retrofit of a motor vehicle air conditioner.

*Total estimated burden:* 1 hour (per year). Burden is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$15 (per year), includes \$1 (per year) annualized capital or operation and maintenance costs.

*Changes in estimates:* There is a decrease of 8 hours in the total estimated respondent burden compared with the ICR currently approved by OMB (per year). This decrease is based on the decline of MVACs in service today using chlorofluorocarbons (CFCs), specifically CFC-12. After 1994, new cars in the U.S. were no longer manufactured with CFC-12 MVACs. The number of MVACs originally designed to use CFC-12 as well as the number of those retrofitted has been decreasing every year and EPA estimates a continued reduction in the number of CFC-12 MVAC retrofits will occur during the next three years. EPA estimates that in 2017 there were 18,000 MVACs originally designed to use CFC-12 operating in the U.S., and estimates that in 2018, 2019 and 2020 the number of cars originally designed to use CFC-12 will decrease to 8,200, 3,500 and 1,500, respectively. Of these, EPA estimates that approximately 0.1% will be retrofitted annually to use alternative refrigerants. Therefore, EPA estimates that in 2018, 2019 and 2020 the number of MVACs to be retrofitted are 8, 4 and

1, respectively; resulting in a total of 13 MVAC retrofits over the three years of this ICR.

*Estimated average hours per response:* Initial application, 91 hours; subsequent application, 71 hours.

*Estimated annual burden hours:* 446 hours.

*General description of collection:*

Under the Bank Holding Company Act (BHCA), submission of this application is required for any company organized under the laws of a foreign country seeking to acquire a U.S. bank or bank holding company. Applicants must provide financial and managerial information, discuss the competitive effects of the proposed transaction, and discuss how the proposed transaction would effect the convenience and needs of the community to be served. The Federal Reserve also uses the information to fulfill, in part, its supervisory responsibilities with respect to foreign banking organizations in the United States.

In addition to the application materials, an applicant also is required to publish a notice in a newspaper of general circulation in the community where the head office of the bank to be acquired is located. The notice must state the name and address of the applicant and its proposed subsidiary, and it must invite the public to submit written comments to the appropriate Federal Reserve Bank.

*Legal authorization and confidentiality:* This information collection is mandatory and authorized by sections 3(a), 3(c), and 5(b) of the BHCA (12 U.S.C.1842(a), (c) and 1844(b)). claimed FOIA exemption. Requests for confidentiality will be evaluated on a case-by-case basis.

*Effective date:* July 31, 2018.

*Current actions:* On March 23, 2018, the Board published a notice in the **Federal Register** (83 FR 12762) requesting public comment for 60 days on the extension, with revision, of the FR Y–3F. The Board proposes to revise the FR Y–3F form and instructions in order to improve the clarity of the required information; obtain additional information necessary to evaluate the statutory factors; reflect the impact of new laws, regulations, capital requirements and accounting rules; and increase transparency regarding the information that is required to consider a proposal. The revisions are intended to reduce the need for subsequent information requests, which delay the Board's consideration of a filing and create additional burden for filers. The comment period for this notice expired on May 22, 2018. The Board did not receive any comments. Accordingly, the revisions will be implemented as proposed.
