Project name and location: Santa Clara Valley Transportation Authority's Bay Area Rapid Transit (BART) Silicon Valley Phase II Extension from the Berryessa/North San José Station to the Santa Clara Caltrain Station, in Santa Clara County, California.

Project Sponsor: The Santa Clara Valley Transportation Authority (VTA).

Project description: VTA's BART Silicon Valley Program consists of a 16-mile extension of the BART system from BART's existing Warm Springs/South Fremont Station in southern Fremont in Alameda County into Santa Clara

County through the Cities of Milpitas, San José, and Santa Clara. VTA's BART Silicon Valley Program is being implemented in two phases, the Phase I Project (Berryessa Extension) and the Phase II Project (Silicon Valley Extension). The Phase I Project is a 10-mile extension from the existing Warm Springs/South Fremont Station to the Berryessa/North San José Station in the City of San José. In 2010, FTA issued a Record of Decision (ROD) for the Phase I Project, which is currently under construction and scheduled to be open in late 2018. The Phase II Project consists of the remaining approximately six-mile extension of VTA's BART Silicon Valley Program, and is the subject of this limitation on claims notice. The Phase II Project was the subject of VTA's BART Silicon Valley Phase II Extension Project Final Supplemental Environmental Impact Statement/Subsequent Environmental Impact Report and Section 4(f) Evaluation (SEIS/SEIR), dated February 2018, which included both NEPA and California Environmental Quality Act (CEQA) analyses. The project will consist of the design, construction and operation of approximately six miles of new double-track light rail transit to extend the BART system from the Berryessa/North San José Station through downtown San José to the Santa Clara Caltrain Station. The Notice of Availability for the Final Environmental Impact Statement for Phase I and II Projects was published in 2010.
