SUPPLEMENTARY INFORMATION:

Background

On March 2, 2012, the Postal Service published a proposed rule in the **Federal Register** (77 FR 12764–12769) to discontinue automation price eligibility for POSTNET barcodes. This was followed by publication of a final rule in the **Federal Register** (77 FR 26185–26191) on May 3, 2012.

Effective January 27, 2013, the Postal Service revised the DMM throughout various sections to discontinue automation price eligibility based on the use of POSTNET barcodes on all types of mail. However, while the use of the POSTNET barcode was discontinued for price eligibility, the Postal Service continued to allow the use of the POSTNET barcode to qualify for certain Business Reply Mail® prices and in other circumstances. The DMM therefore retained language referring to POSTNET barcodes.

Proposal

As a result, after discussion with the mailing industry the Postal Service is proposing to remove all references to the POSTNET barcode from the DMM. This decision was based on the limited use of the POSTNET barcode and the need to simplify the standards in regards to barcoding letter-size and flat-size mailpieces.

The Postal Service will continue to process mailpieces with a POSTNET barcode to accommodate customers who may have preprinted stock bearing a POSTNET barcode.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comments on the following proposed revisions to *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM), incorporated by reference in the Code of Federal Regulations. See 39 CFR 111.1.

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes.

Accordingly, 39 CFR part 111 is proposed to be amended as follows:
