The mission of VEMEC is to promote the health and social welfare of America’s Veterans and the Nation by initiating and coordinating projects aimed at developing evidence-based practices for use in mitigating against, preparing for, responding to, and recovering from national emergencies and natural disasters. In so doing, VEMEC helps to ensure timely access to high-quality health care for our nation’s veterans. The proposed study will be a one-time study of all VA patients in the United States. We will survey a sample of Veterans who at the time of fielding received care from any VA healthcare system in the U.S. at least once in the past 24 months.
