III. Data

OMB Control Number: 0625–0272.
Form Number(s): None.
Type of Review: Regular submission.
Affected Public: Business or for-profit organizations.

Estimated Number of Respondents: 16.
Estimated Time per Response: 8 hours per Request, 2 hours per Response, and 1 hour per Rebuttal.
Estimated Total Annual Burden Hours: 89.
Estimated Total Annual Cost to Public: $5,340.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Sheleen Dumas,
Departmental Lead PRA Officer, Office of the Chief Information Officer.

Permits; Foreign Fishing
AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.
ACTION: Notice of application for permit; request for comments.

SUMMARY: NMFS publishes for public review and comment information regarding a permit application for transshipment of Atlantic herring by Canadian vessels, submitted under provisions of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). This action is necessary for NMFS to make a determination that the permit application can be approved.

DATES: Written comments must be received by August 6, 2018.

ADDRESSES: Written comments on this action, identified by RIN 0648–XG351, should be sent to Kent Laborde in the NMFS Office for International Affairs and Seafood Inspection at 1315 East-West Highway, Silver Spring, MD 20910 or by email at kent.laborde@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Kent Laborde at (301) 427–8364 or by email at kent.laborde@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

Section 204(d) of the Magnuson-Stevens Act (16 U.S.C. 1824(d)) authorizes the Secretary of Commerce (Secretary) to issue a transshipment permit authorizing a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish or fish products at sea from a point within the United States Exclusive Economic Zone (EEZ) or, with the concurrence of a state, within the boundaries of that state, to a point outside the United States. In addition, Public Law 104–297, section 105(e), directs the Secretary to issue section 204(d) permits to up to 14 Canadian transport vessels that are not equipped for fish harvesting or processing, for the transshipment of Atlantic herring harvested by United States fishermen and to be used solely in sardine processing. Transshipment must occur from within the boundaries of the State of Maine or within the portion of the EEZ east of the line 69 degrees 30 minutes west and within 12 nautical miles from Maine’s seaward boundary.

Section 204(d)(3)(D) of the Magnuson-Stevens Act provides that an application may not be approved until the Secretary determines that no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated an interest in performing the transportation at fair and reasonable rates. NMFS is publishing this notice as part of its effort to make such a determination with respect to the application described below.

Summary of Application

NMFS received an application requesting authorization for four Canadian transport vessels to receive transfers of herring from United States purse seine vessels, stop seines, and weirs for the purpose of transporting the herring to Canada for sardine processing. The transshipment operations will occur within the boundaries of the State of Maine or within the portion of the EEZ east of the line 69° 30′ W longitude and within 12 nautical miles from Maine’s seaward boundary.

Dated: July 17, 2018.

John Henderschedt,

Fisheries of the South Atlantic; South Atlantic Fishery Management Council; Public Meetings
AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.
ACTION: Notice of a public meeting.

SUMMARY: The South Atlantic Fishery Management Council (Council) will hold a meeting of its Citizen Science Operations Committee to address development of the Citizen Science

DATES: The Citizen Science Operations Committee meeting will be held on Wednesday, August 8, 2018, from 1 p.m. until 5 p.m. and on Thursday, August 9, 2018, from 8:30 a.m. until 3 p.m.

ADDRESSES: Meeting address: The meeting will be held at the Council office, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

Council address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Amber Von Harten, Citizen Science Program Manager, SAFMC; phone: (843) 302–8433 or toll free: (866) SAFMC–10; fax: (843) 769–4520; email: amber.vonharten@safmc.net.

SUPPLEMENTARY INFORMATION: The Council created a Citizen Science Advisory Panel Pool in June 2017. The Council appointed members of the Citizen Science Advisory Panel Pool to five Action Teams in the areas of Volunteers, Data Management, Projects/Topics Management, Finance, and Communication/Outreach/Education to develop recommendations on program policies and operations for the Council’s Citizen Science Program.

The Citizen Science Program Blueprint, a framework document outlining the organizational structure of the Program, identified a Citizen Science Operations Committee needed to develop Standard Operations Policies and Procedures (SOPPs) for the Citizen Science Program. Recommendations from the Citizen Science Action Teams would be used to develop the SOPPs. The Council appointed members to the Citizen Science Operations Committee in June 2018 and the Operations Committee will meet to develop Program SOPPs that will be reviewed by the Council’s Citizen Science Committee for adoption.

Items to be addressed during this meeting:
1. Citizen Science Program Overview
2. Development of Citizen Science Program SOPPs
4. Other Business

Special Accommodations
These meetings are physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the council office (see ADDRESSES) 3 days prior to the meeting.

NOTE: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 et seq.
Dated: July 18, 2018.

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Acting Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application contains all of the required information and warrants further consideration. This Exempted Fishing Permit would exempt eight commercial fishing vessels from limited access sea scallop regulations in support of a study on seasonal bycatch distribution and optimal scallop meat yield on Georges Bank. Regulations include testing of a modified scallop dredge bag design to reduce flatfish bycatch and collecting biological samples to examine scallop meat quality and yellowtail flounder liver disease.

To enable this research, CFF is requesting exemptions for eight commercial fishing vessels from the Atlantic sea scallop days-at-sea (DAS) allocations at 50 CFR 648.53(b); crew size restrictions at § 648.51(c); observer program requirements at § 648.11(g); Closed Area II (CAII) scallop gear restrictions specified at § 648.81(b); and access area program requirements at § 648.59(a)(1)-(3), (b)(2), (b)(4), and Closed Area II Scallop Access Area Seasonal Closure at § 648.60(d)(2). CFF has also requested that vessels be exempt from possession limits and minimum size requirements specified in part 648, subsections B and D through Q for biological sampling, and § 697.20 for lobster sampling and tagging purposes only.

Participating vessels would conduct scallop dredging from August 2018 through June 2019. Vessels would conduct a total of eight 7-day trips, for a total of 56 DAS. Closed Area II Access Area would take place in the central portion situated below the Closed Area II Habitat Closure Area, including the Atlantic Sea Closed Area II Scallop Access Area Seasonal Closure. Open area tows would be conducted on the western and southern boundaries of Closed Area II. The applicant also requested to conduct tows inside the Closed Area II Habitat Closure Area. This area remains closed to bottom-tending mobile gear to protect sensitive benthic habitat under Omnibus Habitat Amendment II. Consequently, NMFS does not intend to support the applicant’s request to access the Habitat Closure Area.

There is a potential for gear conflict with lobster gear in the central portion of Closed Area II. In an effort to help mitigate gear interactions, CFF would submitted an exempted fishing permit (EFP) application in support of a project titled “Optimizing the Georges Bank Scallop Fishery by Maximizing Meat Yield and Minimizing Bycatch,” that has been funded under the 2018 Atlantic Sea Scallop Research Set-Aside (RSA) Program. The project will evaluate seasonal distribution of bycatch on the eastern part of Georges Bank in relation to sea scallop meat weight yield. Additional objectives include testing of a modified scallop dredge bag design to reduce flatfish bycatch and collecting biological samples to examine scallop meat quality and yellowtail flounder liver disease.

Project investigators working on this project would also work with New Hampshire Fish and Game (NHFG) and the Atlantic Offshore Lobstermen’s Association (AOLA) to tag female lobsters.

NOTE: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 et seq.
