SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for an extension of a currently approved information collection.

The NOAA Office of Education's Bay Watershed Education and Training (B-WET) program seeks to contribute to NOAA's mission by supporting education efforts to create an environmentally literate citizenry with the knowledge, attitudes, and skills needed to protect watersheds and related ocean, coastal, and Great Lakes ecosystems. B-WET currently funds projects in seven regions (California, Chesapeake Bay, Great Lakes, Gulf of Mexico, Hawaii, New England, and the Pacific Northwest). B-WET has created an across-region, internal evaluation system to provide ongoing feedback on program implementation and outcomes to ensure maximum quality and efficiency of the B-WET program. The evaluation system is sustained by B-

WET staff with occasional assistance from an outside contractor.

B-WET awardees and the awardees' professional development teacher-participants are asked to voluntarily complete online survey forms to provide evaluation data. One individual from each awardee organization is asked to complete a form once per year of the award, and the teacher participants are asked to complete one form at the end of their professional development program and another form at the end of the following school year.
