relating to the health and/or environmental effects of certain chemical substances and mixtures. In order to comply with the reporting requirements of TSCA section 8(d), respondents must search their records to identify any health and safety studies in their possession, copy and process relevant studies, list studies that are currently in progress, and submit this information to EPA.

EPA uses this information to construct a complete picture of the known effects of the chemicals in question, leading to determinations by EPA of whether additional testing of the chemicals is required. The information enables EPA to base its testing decisions on the most complete information available and to avoid demands for testing that may be duplicative. EPA will use information obtained via this collection to support its investigation of the risks posed by chemicals and, in particular, to support its decisions on whether to require industry to test chemicals under section 4 of TSCA. This information collection request addresses the reporting requirements found in TSCA section 8(d).

Responses to the collection of information are mandatory (see 40 CFR part 716). Respondents may claim all or part of a response confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 11.0 hours per response. Burden is defined in 5 CFR 1320.3(b). The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are persons who manufacture, process, or distribute in commerce chemical substances or mixtures, or who propose to do so.

Estimated total number of potential respondents: 21.

Estimated total annual burden hours: 302 hours.

Estimated total annual costs: $24,435. This includes an estimated burden cost of $24,435 and an estimated cost of $0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is a decrease of 1,303 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects the realization that the methodology used in the previous ICR overestimated the burden resulting from the addition of chemicals to the TSCA section 8(d) rule. The ICR supporting statement provides a detailed analysis of the change in burden estimate. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another Federal Register document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under FOR FURTHER INFORMATION CONTACT.

Authority: 44 U.S.C. 3501 et seq.

Dated: July 16, 2018.

Charlotte Bertrand,
Acting Principal Deputy Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

For technical information contact: Harlan Weir, Chemical Control Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (202) 564–9885; email address: weir.harlan@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554–1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency’s estimates of the burden of the proposed collection of information,
including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Chemical-Specific Rules, TSCA Section 8(a).
ICR number: EPA ICR No. 1198.11.
OMB control number: OMB Control No. 2070–0067.
ICR status: This ICR expired on June 30, 2018. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the Federal Register when approved, are listed in 40 CFR part 9, are displayed either by publication in the Federal Register or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is applicable. The display of OMB control numbers is appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is currently valid OMB control number.

Abstract: Section 8(a) of the Toxic Substances Control Act (TSCA) authorizes the Administrator of EPA to promulgate rules that require persons who manufacture, import or process chemical substances and mixtures, or who propose to manufacture, import, or process chemical substances and mixtures, to maintain such records and submit such reports to EPA as may be reasonably required. Any chemical covered by TSCA for which EPA or another Federal agency has a reasonable need for information and which cannot be satisfied via other sources is a proper subject for a chemical-specific TSCA section 8(a) rulemaking.

Information that may be collected under TSCA section 8(a) includes, but is not limited to, chemical names; categories of use; production or processing volume, byproducts of chemical production, processing, use or disposal; existing data concerning environmental and health effects; exposure data; and disposal information. Generally, EPA uses chemical-specific information under TSCA section 8(a) to evaluate the potential for adverse human health and environmental effects caused by the manufacture (including import), processing, use or disposal of identified chemical substances and mixtures. Additionally, EPA may use TSCA section 8(a) information to assess the need or set priorities for testing and/or further regulatory action. To the extent that reported information is not considered confidential, environmental groups, environmental justice advocates, state and local government entities and other members of the public will also have access to this information for their use.

Responses to the collection of information are mandatory (see 40 CFR part 704). Respondents may claim all or part of a response confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 9.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 60.75 and 70.75 hours per response, depending upon whether the response is by electronic means or paper-based, respectively. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:
Respondents/affected entities: Entities potentially affected by this ICR are primarily those businesses that enter the marketplace to manufacture (import) or process a chemical substance listed in 40 CFR part 704. These entities fall under NAICS codes 325, Chemical Manufacturers and Processors, and 324110, Petroleum Refineries.
Estimated total number of potential respondents: 4.
Frequency of response: On occasion.
Estimated total average number of responses for each respondent: 1.0.
Estimated total annual burden hours: 281 hours.
Estimated total annual costs: $20,480. This includes an estimated burden cost of $20,480 and an estimated cost of $0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is an increase of 6 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects new reporting requirements in the Frank R. Lautenberg Chemical Safety for the 21st Century Act to substantiate CBI claims. This change is the result of a program change.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another Federal Register document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under FOR FURTHER INFORMATION CONTACT.

ENVIRONMENTAL PROTECTION AGENCY
Agency Information Collection Activities: Proposed Renewal of an Existing Collection (EPA ICR No. 0161.14); Comment Request

AGENCY: Environmental Protection Agency (EPA).
ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces that EPA is planning to submit an Information Collection Request (ICR) to the Office of Management and Budget (OMB). The ICR, entitled: “Foreign Purchaser Acknowledgement Statement of Unregistered Pesticides” and identified by EPA ICR No. 0161.14 and OMB Control No. 2070–0027, represents the renewal of an existing ICR that is scheduled to expire on March 31, 2019. Before submitting the ICR to OMB for review and approval, EPA is soliciting
