The respondent burden associated with labeling requirements for registered exported pesticides decreased from 9,900 in the previous renewal to 9,240 in the current renewal. The decrease in burden is due to a decrease in the estimated number of respondents per calendar year of 2015–2017. Total labor costs for respondents decreased due to a decrease in the estimated number of respondents per calendar year from 2015–2017 and changes in the wage rates made to reflect current wage rates. The new wage estimates incorporated higher estimates for benefits than was used in the previous renewal. These changes are an adjustment.
