

to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting*: (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to [www.ed.gov/fund/grant/apply/appforms/appforms.html](http://www.ed.gov/fund/grant/apply/appforms/appforms.html).

5. *Performance Measures*: The Department has established the following Government Performance and Results Act of 1993 performance measures for the School Climate Transformation Grant Program—State Educational Agency Grants:

(a) The number of training and technical assistance events provided by the SEA School Climate Transformation Grant Program to assist LEAs in implementing a multitiered behavioral framework.

(b) The number and percentage of schools in LEAs provided training or technical assistance by the SEA School Climate Transformation Grant Program that implement a multitiered behavioral framework.

(c) The number and percentage of LEAs provided training or technical assistance by the SEA School Climate Transformation Grant Program that

implement a multitiered behavioral framework with fidelity.

These measures constitute the Department's indicators of success for this program. Consequently, we advise an applicant for a grant under this program to give careful consideration to these measures in conceptualizing the approach and evaluation for its proposed project. Each grantee will be required to provide, in its annual performance and final reports, data about its progress in meeting these measures. This data will be considered by the Department in making continuation awards.

Consistent with 34 CFR 75.591, grantees funded under this program shall comply with the requirements of any evaluation of the program conducted by the Department or an evaluator selected by the Department.

6. *Continuation Awards*: In making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

## VII. Other Information

*Accessible Format*: Individuals with disabilities can obtain this document and a copy of the application package in an accessible format (e.g., Braille, large print, audiotape, or compact disc) on request to the program contact person listed under **FOR FURTHER INFORMATION CONTACT**.

*Electronic Access to This Document*: The official version of this document is the document published in the **Federal Register**. You may access the official edition of the **Federal Register** and the Code of Federal Regulations via the Federal Digital System at: [www.gpo.gov/fdsys](http://www.gpo.gov/fdsys). At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF). To use PDF you must

have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at: [www.federalregister.gov](http://www.federalregister.gov). Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Dated: July 23, 2018.

## DEPARTMENT OF ENERGY

### Agency Information Collection Extension

**AGENCY**: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

**ACTION**: Notice and request for comments.

**SUMMARY**: The Department of Energy (DOE), pursuant to the Paperwork Reduction Act of 1995, intends to extend for three years, an information collection request with the Office of Management and Budget (OMB). Comments are invited on: Whether the extended collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

**DATES**: Comments regarding this proposed information collection must be received on or before September 24, 2018. If you anticipate difficulty in submitting comments within that period, contact the person listed below as soon as possible.

**ADDRESSES**: Written comments may be sent Andre de Fontaine, EE-5A/Forrestal Building, 1000 Independence Avenue SW, Washington, DC 20585, by fax at (202) 586-8177, or by email at [andre.defontaine@ee.doe.gov](mailto:andre.defontaine@ee.doe.gov).

**FOR FURTHER INFORMATION CONTACT**: Requests for additional information or

copies of the information collection instrument and instructions should be directed to Andre de Fontaine, EE-5A/ Forrester Building, 1000 Independence Avenue SW, Washington, DC 20585, by fax at (202) 586-8177, or by email at [andre.defontaine@ee.doe.gov](mailto:andre.defontaine@ee.doe.gov).

**SUPPLEMENTARY INFORMATION:** This information collection request contains:

- (1) *OMB No.* 1910-5141;
- (2) *Information Collection Request Title:* Department of Energy Better Buildings Challenge, Better Buildings Alliance, and the Better Buildings, Better Plants Voluntary Pledge Program;
- (3) *Type of Review:* Extension with Revision of a Currently Approved Collection

(4) *Purpose:* This Information Collection Request applies to three Department of Energy (DOE) voluntary leadership initiatives that fall under DOE's Better Buildings Initiative: (1) The Better Buildings Challenge; (2) the Better Buildings, Better Plants Program (Better Plants); and (3) the Better Buildings Alliance. Two new information collection instruments are proposed in order to streamline the application process for a manufacturing leadership awards program under Better Plants. Other pre-existing collection forms are being amended for clarity and to reduce burden on respondents. Also, the total number of respondents and response time for individual program areas is being adjusted to align with practical experience and to account for the program's growth over time. For example, due to improved data quality controls and greater experience observing partners, the hours per response has been increased for the Better Buildings, Better Plants Challenge Annual Reporting Form. The total number of hours associated with the Annual Better Plants Program Pledge Form was decreased to account for the establishment of more efficient internal collection processes as partners gain experience in the program. The number of hours per response for both the Better Buildings, Better Plants Web Profile Development and Water Data Collection forms, respectively, were changed to reflect actual partner response time based on practical experience.

The leadership initiatives in the Better Buildings Initiative covered under this Information Collection Request are intended to drive greater energy and water efficiency in the commercial, public, residential, data center, and industrial marketplace to reduce pollution, cut costs, and create jobs. This is accomplished by

highlighting the ways participants overcome market barriers to greater efficiency with replicable solutions. The program showcases real solutions and partners with industry leaders to better understand policy and technical opportunities. There are three types of information to be collected from primary participants, also referred to as "Partners": (1) Background data, including contact information, a partnership agreement form, logo(s), information needed to support public announcements, updates on participants' showcase projects, and an energy savings goal; (2) Portfolio-wide energy performance information; and (3) Information on market innovations participants are including in their energy efficiency processes. Background data is primarily used to develop website content that is publically available. Portfolio-wide facility-level energy performance information is used by DOE to measure the participants' progress in meeting the goals of the program, as well as to aggregate the change in energy performance and related metrics for the entire program. Information on market innovation is used to highlight successful strategies participants use to overcome challenges, and is made publically available.

Additional background information is being collected from "Allies", financial and utility organizations that make a public commitment to support the energy efficiency marketplace. Background information including name, dollars committed to the market, and a company logo is also used to develop publically available website content. Responses to the DOE's Information Collection Request are voluntary.

(5) *Annual Estimated Number of Respondents:* 752, a slight increase over the current ICR's 740, which reflects modest growth in participation across the programs.

(6) *Annual Estimated Number of Total Responses:* 897, a slight decrease from the current ICR's 933, which is driven by a change in frequency of reporting from biannual to annual for one information collection form.

(7) *Annual Estimated Number of Burden Hours:* 2,232.25, a decrease from the current ICR's 2,709.25, which reflects improved data collection and reporting processes put in place by partners, especially those that have been participating in the programs for multiple years.

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* \$90,475, a

reduction from the current ICR's \$106,934.

*Statutory Authority:* Section 421 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17081); Section 911 of the Energy Policy Act of 2005, as amended (42 U.S.C. 16191).

Issued in Washington, DC, on July 17, 2018.

**Maria Vargas,**

*Director Better Buildings Challenge, Office of Energy Efficiency & Renewable Energy.*

**BILLING CODE 6450-01-P**

**DEPARTMENT OF ENERGY**

**Notice of Orders Issued Under Section 3 of the Natural Gas Act During June 2018**

**AGENCY:** Office of Fossil Energy, Department of Energy.

**ACTION:** Notice of orders.

	FE Docket Nos.
Sabine Pass Liquefaction, LLC .....	18-35-LNG
Southwest Energy, L.P .....	18-63-NG
BP Energy Company .....	18-64-LNG
Galveston Bay LNG, LLC .....	17-167-LNG
Infinite Energy, Inc .....	18-65-NG
Blue Water Fuels, LLC .....	18-27-LNG
St. Lawrence Gas Company, Inc .....	18-68-NG
Pharaoh Solutions LLC .....	18-66-NG
Concord Energy LLC .....	18-67-NG

**SUMMARY:** The Office of Fossil Energy (FE) of the Department of Energy gives notice that during June 2018, it issued orders granting authority to import and export natural gas, and to import and export liquefied natural gas (LNG). These orders are summarized in the attached appendix and may be found on the FE website at <https://www.energy.gov/fe/listing-doe-fe-authorizationsorders-issued-2018-0>.

They are also available for inspection and copying in the U.S. Department of Energy (FE-34), Division of Natural Gas Regulation, Office of Regulation and International Engagement, Office of Fossil Energy, Docket Room 3E-033, Forrester Building, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586-9478. The Docket Room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, on July 20, 2018.

**Amy Sweeney,**

*Director, Division of Natural Gas Regulation.*
