SUPPLEMENTARY INFORMATION: These programs are located in the Assistance Listings under Nos. 10.555 and 10.558 and are subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V, and final rule related notice published at 48 FR 29114, June 24, 1983.)

This notice imposes no new reporting or recordkeeping provisions that are subject to Office of Management and Budget review in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3507). This action is not a rule as defined by the Regulatory Flexibility Act (5 U.S.C. 601-612) and thus is exempt from the provisions of that Act. This notice was reviewed by the Office of Management and Budget under Executive Order 12866.

National Average Minimum Value of Donated Foods for the Period July 1, 2018, Through June 30, 2019

This notice implements mandatory provisions of sections 6(c) and 17(h)(1)(B) of the Richard B. Russell National School Lunch Act (the Act) (42 U.S.C. 1755(c) and 1766(h)(1)(B)). Section 6(c)(1)(A) of the Act establishes the national average value of donated food assistance to be given to States for each lunch served in the NSLP at 11.00 cents per meal. Pursuant to section 6(c)(1)(B), this amount is subject to

annual adjustments on July 1 of each year to reflect changes in a three-month average value of the Producer Price Index for Foods Used in Schools and Institutions for March, April, and May each year (Price Index). Section 17(h)(1)(B) of the Act provides that the same value of donated foods (or cash in lieu of donated foods) for school lunches shall also be established for lunches and suppers served in the CACFP. Notice is hereby given that the national average minimum value of donated foods, or cash in lieu thereof, per lunch under the NSLP (7 CFR part 210) and per lunch and supper under the CACFP (7 CFR part 226) shall be 23.50 cents for the period July 1, 2018, through June 30, 2019.

The Price Index is computed using five major food components in the Bureau of Labor Statistics Producer Price Index (cereal and bakery products; meats, poultry, and fish; dairy; processed fruits and vegetables; and fats and oils). Each component is weighted using the relative weight as determined by the Bureau of Labor Statistics. The value of food assistance is adjusted each July 1 by the annual percentage change in a three-month average value of the Price Index for March, April, and May each year. The three-month average of the Price Index increased by 0.64 percent from 203.76 for March, April, and May of 2017, as previously published in the **Federal Register**, to 205.07 for the same three months in 2018. When computed on the basis of unrounded data and rounded to the nearest one-quarter cent, the resulting national average for the period July 1, 2018, through June 30, 2019, will be 23.50 cents per meal. This is an increase of one quarter of a cent from the school year 2018 (July 1, 2017 through June 30, 2018) rate.

Authority: Sections 6(c)(1)(A) and (B), 6(e)(1), and 17(h)(1)(B) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1755(c)(1)(A) and (B) and (e)(1), and 1766(h)(1)(B)).

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, P.L. 108-447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are established.

Once public involvement is complete, these new fees will be reviewed by the BLM Coeur d'Alene Recreation Resource Advisory Committee prior to a final decision and implementation.

Specifically, the Idaho Panhandle National Forests is proposing the following new fees:

- Beaver Creek Cabin; proposed fee of \$55 per night;
- Spyglass Ground House; proposed fee of \$45 per night;

- Shadowy St. Joe Day Use Boating site; proposed fee of \$5 per vehicle, per day;
- Priest Lake Information Site (RV Dump Station); proposed fee of \$10 per use.

Additional construction is required at the Spyglass Ground House to complete the renovation project and it is anticipated that this site would be available for the public to rent in May of 2019. The Beaver Creek Cabin is currently unfurnished and would be available to rent in 2018 for \$45 per night; however, once the cabin is furnished the fee would be raised to \$55 per night.

Reasonable fees, paid by users of these sites and services, will help ensure that the Forest can continue maintaining and improving the sites for future generations. A market analysis of surrounding recreation sites with similar amenities indicates that the proposed fees are comparable and reasonable.

Advance reservations for the Beaver Creek Cabin, Lunch Peak Lookout, and Spyglass Ground House will be available through www.recreation.gov or by calling 1-877-444-6777. The reservation service charges a \$10 fee for reservations.

SUPPLEMENTARY INFORMATION:

Title of Collection: Organizational Information.

OMB Control Number: 0524-0026.

Expiration Date of Current Approval: October 30, 2018.

Type of Request: Intent to extend a currently approved information collection for three years.

Abstract: NIFA has primary responsibility for providing linkages between the Federal and State components of a broad-based, national agricultural research, extension, and education system. Focused on national issues, its purpose is to represent the Secretary of Agriculture and carry out the intent of Congress by administering capacity and grant funds appropriated for agricultural research, extension, and education. Before awards can be made, certain information is required from applicants to effectively assess the potential recipient's capacity to manage Federal funds.

Need and Use of the Information: Form NIFA-666 "Organizational Information": Enables NIFA to

determine that the applicants recommended for awards will be responsible recipients of Federal funds. The information requested from the applicant pertains to the organizational and financial management of the potential grantee. This form and the attached applicant documents provide NIFA with information such as the legal name of the organization, certification that the organization has the legal authority to accept Federal funding, identification and signatures of the key officials, the organization's policies for employee compensation and benefits, equipment insurance, policies on subcontracting with other organizations, etc., as well the financial condition of the organization and certification that the organization is not delinquent on Federal taxes. All of this information is considered prior to award, to determine the grantee is both managerially and fiscally responsible. This information is submitted to NIFA on a one-time basis and updated accordingly. If sufficient changes occur within the organization, the grantee submits revised information.

Estimate of the Burden: NIFA estimates the number of responses for the Form NIFA-666 will be 150 with an estimated response time of 6.3 hours per form, representing a total annual burden of 945 hours for this form. These estimates are based on a survey of grantees that were approved for grant awards.

They were asked to give an estimate of time it took them to complete each form. This estimate was to include such things as: (1) Reviewing the instructions; (2) searching existing data sources; (3) gathering and maintaining the data needed; and (4) actual completion of the forms. The average time it took each respondent was calculated from their responses.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have a practical utility;

(b) the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.
