Title: NIFA Proposal Review Process.
OMB Number: 0524–0041.
Expiration Date of Current Approval: 10/31/2018.

Type of Request: Extension of a currently approved information collection for three years.

Abstract: The National Institute of Food and Agriculture (NIFA) is responsible for performing a review of proposals submitted to NIFA competitive award programs in accordance with section 103(a) of the Agricultural Research, Extension, and Education Reform Act of 1998, 7 U.S.C. 7613(a). Reviews are undertaken to ensure that projects supported by NIFA are of high quality, and are consistent with the goals and requirements of the funding program.

Proposals submitted to NIFA undergo a programmatic evaluation to determine worthiness of Federal support. The evaluations consist of a peer panel review and may also entail an assessment by Federal employees and electronically submitted (ad-hoc) reviews in the Peer Review System.

Need and Use of the Information: The information collected from the evaluations is used to support NIFA grant programs. NIFA uses the results of the proposal evaluation to determine whether a proposal should be declined or recommended for award. When NIFA has rendered a decision, copies of reviews, excluding the names of the reviewers, and summaries of review panel deliberations, if any, are provided to the submitting Project Director.

Given the highly technical nature of many of these proposals, the quality of the peer review greatly depends on the appropriate matching of the subject matter of the proposal with the technical expertise of the potential reviewer. In order to obtain this information, an electronic questionnaire is used to collect information about potential panel and ad-hoc reviewers. If the reviewer is already in our database, the questionnaire asks potential reviewers to update their basic biographical information including address, contact information, professional expertise, and their availability to review for NIFA in the future. If the reviewer is new, they are prompted to complete the questionnaire. This information has been invaluable in the NIFA review

process, which has been recognized by the grantee and grantor community for its quality.

The applications and associated materials made available to reviewers, as well as the discussions that take place during panel review meetings are strictly confidential and are not to be disclosed to or discussed with anyone who has not been officially designated to participate in the review process. While each panelist certifies at the time of preparing a review they do not have a conflict-of-interest with a particular application and will maintain its confidentiality in the Peer Review System, a certification of their intent at the time of the panel review proceedings is collected to emphasize and reinforce confidentiality not only of applications and reviews but also panel discussions. On the Conflict-of-Interest and Confidentiality Certification Form, the panelist affirms they understand the conflict-of-interest guidelines and will not be involved in the review of the application(s) where a conflict exists. The panelist also affirms their intent to maintain the confidentiality of the panel process and not disclose to another individual any information related to the peer review or use any information for personal benefit.

Estimate of Burden: NIFA estimates that anywhere from one hour to twenty hours may be required to review a proposal. It is estimated that approximately five hours are required to review an average proposal. Each proposal receives an average of four reviews, accounting for an annual burden of 20 hours. NIFA estimates it receives 4,600 competitive applications each year. The total annual burden on reviewers is 92,000 hours. NIFA estimates that the potential reviewer questionnaire takes an estimated 10 minutes to complete. The database consists of approximately 50,000 reviewers. The total annual burden of questionnaire is 8,330 hours. NIFA estimates that the potential Conflict-of-Interest and Confidentiality Certification Form takes an estimated 10 minutes to complete. The agency has approximately 1,000 panelists each year. The total annual burden of the certification form is 167 hours. The total annual burden of the component of the entire review process is 100,497 hours.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility

and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request to OMB for approval. All comments will become a matter of public record.

Acting Director, National Institute of Food and Agriculture.

On February 1, 2018, Commerce published in the **Federal Register** a notice of opportunity to request an administrative review of the antidumping duty order on shrimp from Thailand for the period February 1, 2017, through January 31, 2018.¹ In February 2018, Commerce received timely requests, in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), to conduct an administrative review of this antidumping duty order from the Ad Hoc Shrimp Trade Action Committee (the petitioner), the American Shrimp Processors Association (ASPA), and certain individual companies.² Based upon these requests, on April 16, 2017, in accordance with section 751(a) of the Act, Commerce published in the

Ltd.'s (collectively, Thai Union/Pakfood's), and ASPA's February 27, 2017, Requests for Administrative Review.

Federal Register a notice of initiation listing 160 companies for which Commerce received timely requests for review.³

In July 2018, all parties timely withdrew their requests for an administrative review.⁴

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if a party who requested the review withdraws the request within 90 days of the date of publication of notice of initiation of the requested review. As noted above, all parties withdrew their requests for review by the 90-day deadline. Accordingly, we are rescinding the administrative review of the antidumping duty order on frozen warmwater shrimp from Thailand covering the period February 1, 2017, through January 31, 2018.

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. Antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or
