current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review
The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

procurement of U.S.-origin items for activities contrary to the national security and foreign policy interests of the United States. Specifically, the ERC determined that there is reasonable cause to believe, based on specific and articulable facts, that all of these entities are involved in the illicit procurement of commodities and technologies for unauthorized military end-use in China.

The ERC determined that twenty-seven entities, China Aerospace Science and Industry Corporation Second Academy, and thirteen of its subordinate institutions; China Electronics Technology Group Corporation 14th Research Institute, and two of its subordinate institutions; China Electronics Technology Group Corporation 38th Research Institute, and seven of its subordinate institutions; China Tech Hi Industry Import and Export Corporation; and China Volant Industry, all located in China, be added to the Entity List for actions contrary to the national security or foreign policy interests of the United States. The ERC determined that for these twenty-seven entities there is reasonable cause to believe, based on specific and articulable facts, that there is an unacceptable risk of use in (or diversion of U.S.-origin items to) military end-use activities in China.

Pursuant to § 744.11(b) of the EAR, the ERC determined that the conduct of all forty-four of these entities raises sufficient concern that prior review of exports, reexports or transfers (in-country) of all items subject to the EAR involving these entities, and the possible imposition of license conditions or license denials on shipments to the entities, will enhance BIS’s ability to prevent violations of the EAR.

For all forty-four entities added to the Entity List in this final rule, BIS imposes a license requirement for all items subject to the EAR, and a license review policy of presumption of denial. The license requirements apply to any transaction in which items are to be exported, reexported or transferred (in-country) to any of the entities or in which such entities act as purchaser, intermediate consignee, ultimate consignee, or end-user. In addition, no license exceptions are available for exports, reexports or transfers (in-country) to the entities being added to the Entity List in this rule. The acronym “a.k.a.” (also known as) is used in entries on the Entity List to identify aliases and help exporters, reexporters and transferees to better identify entities on the Entity List.

Modifications to the Entity List
This final rule implements a decision of the ERC to modify one existing entry on the Entity List. The ERC made a determination to revise one entry under the designation of China by adding three additional aliases and five additional addresses to the entry for Chengdu GaStone Technology Co., Ltd. (CGTC), for a total of four aliases and nine addresses.

This final rule revises one entry on the Entity List to make the modifications described above:
(1) Chengdu GaStone Technology Co., Ltd. (CGTC), a.k.a., the following four aliases:
—Chengdu GaStone Technology Co.;
—Chengdu HiWafer Semiconductor;
—Chengdu Haiwei Technology; and
—Chengdu Zenith.

Export Administration Act of 1979
Although the Export Administration Act of 1979 expired on August 20, 2001, the President, through Executive Order 13222 of August 17, 2001, 3 CFR, 2001 Comp., p. 788, as amended by Executive Order 13637 of March 8, 2013, 78 FR 16129 (March 13, 2013) and as extended by the Notice of August 15, 2017, 82 FR 39005 (August 16, 2017), has continued the Export Administration Regulations in effect under the International Emergency Economic Powers Act. BIS continues to carry out the provisions of the Export Administration Act of 1979, as appropriate and to the extent permitted by law, pursuant to Executive Order 13222, as amended by Executive Order 13637.

Rulemaking Requirements
1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has been determined to be not significant for purposes of Executive Order 12866. This rule is not an Executive Order 13771 regulatory action because this rule is not significant under Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor be subject to a penalty for failing to comply with the requirements of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by OMB under control number 0694–0088, Simplified Network Application Processing System, which includes, among other things, license applications, and carries a burden estimate of 43.8 minutes for a manual or electronic submission.

Total burden hours associated with the PRA and OMB control number 0694–0088 are not expected to increase as a result of this rule. You may send comments regarding the collection of information associated with this rule, including suggestions for reducing the burden, to Jasmeet K. Seehra, Office of Management and Budget (OMB), by email to Jasmeet.K_Seehra@omb.eop.gov, or by fax to (202) 395–7285.

3. This rule does not contain policies with Federalism implications as that term is defined in Executive Order 13132.

4. For the entities added to the Entity List in this rule, the provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation and a 30-day delay in effective date are inapplicable because this regulation involves a military or foreign affairs function of the United States (5 U.S.C. 553(a)(1)). BIS’s implementation of this rule is necessary to protect U.S. national security and foreign policy interests by preventing items subject to the EAR from being exported, reexported, or transferred (in-country) to the entities being added to the Entity List. If this rule were delayed to allow for notice and comment and a delay in effective date, the entities being added to the Entity List by this action would continue to be able to receive items subject to the EAR without a BIS license and to conduct activities contrary to the national security or foreign policy interests of the United States. In addition, publishing a proposed rule would give these entities notice of the U.S. Government’s intention to place them on the Entity List, which could provide them with an incentive to accelerate their receipt of items subject to the EAR to conduct activities that are contrary to the national security or foreign policy interests of the United States, including taking steps to set up additional aliases, change addresses, and engaging in other measures to try to make the listing on the Entity List once a final rule was published. Further, no other
law requires that a notice of proposed rulemaking and an opportunity for public comment be provided for this rule.

5. The Department finds that there is good cause under 5 U.S.C. 553(b)(3)(B) to waive the provisions of the Administrative Procedure Act (APA) requiring prior notice and the opportunity for public comment for the one modification to an Entity list entry included in this rule because doing so would be contrary to the public interest. In addition, the one change is limited to providing additional addresses and aliases, which will assist the public in more easily identifying the listed entity.

6. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., are not applicable. Accordingly, no regulatory flexibility analysis is required and none has been prepared.

Accordingly, part 744 of the Export Administration Regulations (15 CFR parts 730–774) is amended as follows:

32 CFR Part 80

[Docket ID: DOD–2017–OS–0047]

RIN 0790–AJ92

Provision of Early Intervention Services to Eligible Infants and Toddlers With Disabilities and Their Families, and Special Education Children With Disabilities Within the Section 6 School Arrangements

AGENCY: Under Secretary of Defense for Personnel and Readiness, DoD.

ACTION: Final rule.

SUMMARY: This final rule removes the Department of Defense (DoD) regulation concerning the provision of early intervention services to eligible infants and toddlers with disabilities and their families, and special education children with disabilities within the Section 6 school arrangements. The contents of this part have been updated and incorporated into the revision of DoD’s regulation at 32 CFR part 57, “Provision of Early Intervention and Special Education Services to Eligible DoD Dependents.” Therefore, this part is unnecessary and can be removed from the CFR.

DATES: This rule is effective on August 1, 2018.

FOR FURTHER INFORMATION CONTACT: Rebecca Lombardi, 571–372–0862.

SUPPLEMENTARY INFORMATION: It has been determined that publication of this CFR part removal for public comment is impracticable, unnecessary, and contrary to public interest since its content was incorporated into another CFR part for which public comment was taken.

This rule is not significant under Executive Order (E.O.) 12866, “Regulatory Planning and Review,” therefore, E.O. 13771, “Reducing Regulation and Controlling Regulatory Costs” does not apply.

List of Subjects in 32 CFR Part 80

Department of the Navy

32 CFR Part 701

RIN 0703–AA95

Availability of Department of the Navy Records and Publication of Department of the Navy Documents Affecting the Public

AGENCY: Department of the Navy, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: This final rule removes DoD’s regulation concerning the Department of the Navy’s Freedom of Information Act (FOIA) program. The DoD has revised their FOIA program rule to include DoD component information and has removed the requirement for component supplementary rules. Therefore, the Navy’s FOIA program rule can be removed from the CFR.

DATES: This rule is effective on August 1, 2018.

FOR FURTHER INFORMATION CONTACT: Christopher Julka at 703–697–0031.

SUPPLEMENTARY INFORMATION: On February 6, 2018 (83 FR 5196–5197), the DoD published a revised FOIA program rule as a result of the FOIA Improvement Act of 2016. When the DoD FOIA program rule was revised, it included DoD component information and removed the requirement for component supplementary rules. The DoD now has one DoD-level rule for the FOIA program at 32 CFR part 286 that contains all the codified information required for the Department. Therefore, 32 CFR part 701, subparts A through D, can be removed from the CFR.

It has been determined that publication of these subpart removals from the CFR for public comment is impracticable, unnecessary, and contrary to public interest since it is based on removing DoD internal policies and procedures that are publicly available on the Department’s website.

Department of the Navy internal guidance concerning the implementation of the FOIA within the Navy will remain in effect and will continue to be published in SECNAVINST 5720.42F (available at https://doni.daps.dla.mil/Directives/05000%20General%20Management%20Security%20and%20Internal%20Safety%20Services/05-700%20General%20External%20and%20Internal%20Relations%20Services/5720.42F.pdf).

This rule is one of 14 separate DoD FOIA rules. With the finalization of the DoD-level FOIA rule at 32 CFR part 286, the Department is eliminating the need for this separate FOIA rule and reducing costs to the public as explained in the preamble of the DoD-level FOIA rule published at 83 FR 5196–5197.

This rule is not significant under Executive Order (E.O.) 12866, “Regulatory Planning and Review,” therefore, E.O. 13771, “Reducing Regulation and Controlling Regulatory Costs” does not apply.

Accordingly, 32 CFR part 701 is amended as follows:
