Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Acting Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application contains all of the required information and warrants further consideration. The Exempted Fishing Permit would allow commercial fishing vessels to fish outside of scallop regulations in support of research conducted by the Coonamessett Farm Foundation. These exemptions would support research conducted on trips to test gear modifications for bycatch reduction in the scallop dredge fishery.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed Exempted Fishing Permits.

DATES: Comments must be received on or before August 21, 2018.

ADDRESSES: You may submit written comments by any of the following methods:

- **Email:** nmfs.gar.efp@noaa.gov. Include in the subject line "CFF Compensation Fishing Gear Research EFP."

- **Mail:** Michael Pentony, Regional Administrator, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on CFF Compensation Fishing Gear Research EFP."

FOR FURTHER INFORMATION CONTACT: Shannah Jaburek, Fisheries Management Specialist, 978-282-8456.

SUPPLEMENTARY INFORMATION: Coonamessett Farm Foundation (CFF) submitted a complete application for an Exempted Fishing Permit (EFP) on July 6, 2018, that would allow gear research to be conducted by vessels on compensation fishing trips associated with projects funded by the 2018 Scallop Research Set-Aside (RSA) program. The exemptions would allow commercial fishing vessels to exceed the crew size regulations at 50 CFR 648.51(c) to place a researcher on the vessel and temporarily exempt the participating vessels from possession limits and minimum size requirements specified in 50 CFR part 648, subpart B and subparts D through O, for biological sampling purposes. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited, including landing fish in excess of a possession limit or below the minimum size.

Experimental fishing activity would test a one-way extended link gear
