**SUMMARY:** The Environmental Protection Agency (EPA or the Agency) is making conforming changes to the EPA office and address to which paper documents concerning imports and exports of hazardous waste and conditionally excluded cathode ray tubes must be sent. The change in address is needed to reflect the reorganization of hazardous waste import-export functions on April 29, 2018, from the Office of Federal Activities' International Compliance Assurance Division, in EPA's Office of Enforcement and Compliance Assurance, to the International Branch within the Office of Resource Conservation and Recovery's Materials Recovery and Waste Management Division, in EPA's Office of Land and Emergency Management. The change in address will ensure that such paper documents will continue to be received by the appropriate personnel in a timely manner.

**DATES:** This rule is effective on August 6, 2018.

**SUPPLEMENTARY INFORMATION:****I. General Information****A. Does this action apply to me?**

This action relates to the internal reorganization of the EPA. It provides notice directed to the public in general and has particular applicability to anyone who wants to communicate with the EPA office responsible for hazardous waste import-export functions, or to submit information concerning imports and exports of hazardous waste or export of conditionally excluded cathode ray tubes to the Agency. If you have any questions regarding the applicability of this action to a

particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

*B. How can I get additional information, including copies of this document or other related information?*

To obtain electronic copies of this document and other related information that is available electronically, please visit [www.epa.gov/hwgenerators](http://www.epa.gov/hwgenerators).

**II. Background****A. What action is the Agency taking?**

This action makes conforming changes to the EPA office and address to which paper documents concerning imports and exports of hazardous waste and conditionally excluded cathode ray tubes must be sent. The notice changes the addresses for U.S. postal service delivery and courier hand delivery of submittals listed in 40 CFR 261.39(a)(5)(xi), 40 CFR 261.41(a)(2), and 40 CFR 262.82(e) from those of the Office of Federal Activities' International Compliance Assurance Division, in EPA's Office of Enforcement and Compliance Assurance, to those of the International Branch within the Office of Resource Conservation and Recovery's Materials Recovery and Waste Management Division, in EPA's Office of Land and Emergency Management. The change in listed addresses is needed to reflect the reorganization of hazardous waste import-export functions on April 29, 2018, from the Office of Federal Activities' International Compliance Assurance Division, in EPA's Office of Enforcement and Compliance Assurance, to the International Branch within the Office of Resource Conservation and Recovery's Materials Recovery and Waste Management Division, in EPA's Office of Land and Emergency Management. The change in address will ensure that such paper documents will continue to be received by the appropriate personnel in a timely manner.

**B. What is the Agency's authority for taking this action?**

The EPA is issuing this document under its general rulemaking authority, Reorganization Plan No. 3 of 1970 (5 U.S.C. app.). Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(3)(A), provides that "rules of agency organization, procedure, or practice" are exempt from notice and comment requirements. This exemption applies to this action. Accordingly, EPA is not taking comment on this action.

In addition, under the good cause exemption in Section 553(d)(3), the EPA

is publishing and making this rule immediately effective. A 30-day delay in the rule's effectiveness is unnecessary for updating an EPA office and mailing address; a delay would be contrary to public interest because it could create a short period of public confusion.

**III. Do any of the Statutory and Executive Order Reviews apply to this action?**

This final rule revises the EPA office and address listed in the regulations to reflect the reorganization of hazardous waste import-export functions from one of the EPA's offices to another of the EPA's offices, and does not otherwise impose or change any requirements. This action is not a "significant regulatory action" and is therefore not subject to OMB review under Executive Order 12866, entitled "Regulatory Planning and Review" (58 FR 51735, October 4, 1993). In addition, this action is not considered an Executive Order 13771 (82 FR 9339, February 3, 2017) regulatory action, because this action is not significant under Executive Order 12866. Because this action is not subject to notice and comment requirements under the Administrative Procedure Act or any other statute, it is not subject to the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) or Sections 202 and 205 of the Unfunded Mandates Reform Act of 1999 (UMRA) (Pub. L. 104-4). In addition, this action does not significantly or uniquely affect small governments. This action does not create new binding legal requirements that substantially and directly affect tribes under Executive Order 13175 (65 FR 67249, November 9, 2000). This action does not have significant federalism implications under Executive Order 13132 (64 FR 43255, August 10, 1999). Because this final rule has been exempted from review under Executive Order 12866, this final rule is not subject to Executive Order 13211, entitled "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001) or Executive Order 13045, entitled "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, nor does it require any special considerations under Executive Order 12898, entitled "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations" (59 FR 7629, February 16, 1994). This action does not involve

technical standards; thus, the requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply.

The Congressional Review Act (CRA), 5 U.S.C. 801 *et seq.*, generally provides that before certain actions may take effect, the agency promulgating the action must submit a report, which includes a copy of the action, to each House of the Congress and to the Comptroller General of the United States. This final action is exempt from the CRA because it is a rule relating to agency management or personnel and a rule of agency organization, procedure or practice that does not substantially affect the rights or obligations of non-agency parties.
