capacity and on a first come, first serve basis. To register, please visit www.iacc.hhs.gov.

Deadlines: Notification of intent to present oral comments: Friday, September 14, 2018 by 5:00 p.m. ET.

Submission of written/electronic statement for oral comments: Wednesday, September 19, 2018 by 5:00 p.m. ET.

Final deadline for submission of written comments: Wednesday, September 19, 2018 by 5:00 p.m. ET. For IACC public comment guidelines, please see: <https://iacc.hhs.gov/meetings/public-comments/guidelines/>.

Access: White Flint Metro Station (Red Line).

Contact Person: Ms. Angelice Mitrasak, Office of Autism Research Coordination, National Institute of Mental Health, National Institutes of Health, 6001 Executive Boulevard, Room 6182A, Bethesda, MD 20892–9669, Phone: 301–435–9269, Email: IACCPublicInquiries@mail.nih.gov.

The IACC invites oral and written public-related comments relevant to the topic of the workshop. Individuals interested in presenting oral comments must notify the Contact Person listed on this notice by 5:00 p.m. ET on Friday, September 14, 2018 with their request to present oral comments at the meeting, and a written/electronic copy of the oral presentation/statement must be submitted by 5:00 p.m. ET on Wednesday, September 19, 2018. A limited number of slots for oral comment are available and will be assigned on a first come, first serve basis. Only one representative of an organization will be allowed to present oral comments at this meeting; other representatives of the same group may provide written comments. If the oral comment session is full, individuals who could not be accommodated are welcome to provide written comments instead. Comments to be read or presented in the meeting will be assigned a 3-minute time slot, but a longer version may be submitted in writing for the record. Commenters going beyond their allotted time in the meeting may be asked to conclude immediately to allow other comments and presentations to proceed on schedule.

Any interested person may submit written public comments to the IACC prior to the meeting by emailing the comments to IACCPublicInquiries@mail.nih.gov, or by submitting comments at the web link: <https://iacc.hhs.gov/meetings/public-comments/submit/index.jsp> by 5:00 p.m. ET on Wednesday, September 19, 2018. The comments should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person. NIMH anticipates written public comments received by 5:00 p.m. ET on

Wednesday, September 19, 2018 will be presented to the working group prior to the workshop. Any written comments received after the 5:00 p.m. ET, Wednesday, September 19, 2018 deadline through Tuesday, September 25, 2018 will be provided to the working group either before or after the meeting, depending on the volume of comments received and the time required to process them in accordance with privacy regulations and other applicable Federal policies. All written public comments and oral public comment statements received by the deadlines for both oral and written public comments will be provided to the IACC for their consideration and will become part of the public record. Attachments of copyrighted publications are not permitted, but web links or citations for any copyrighted works cited may be provided.

In the 2009 IACC Strategic Plan, the IACC listed the "Spirit of Collaboration" as one of its core values, stating that, "We will treat others with respect, listen to diverse views with open minds, discuss submitted public comments, and foster discussions where participants can comfortably offer opposing opinions." In keeping with this core value, the IACC and the NIMH Office of Autism Research Coordination (OARC) ask that members of the public who provide public comments or participate in meetings of the IACC also seek to treat others with respect and consideration in their communications and actions, even when discussing issues of genuine concern or disagreement.

Remote Access: The meeting will be open to the public through a conference call phone number and webcast live on the internet. Members of the public who participate using the conference call phone number will be able to listen to the meeting but will not be heard. If you experience any technical problems with the webcast or conference call, please send an e-mail to IACCPublicInquiries@mail.nih.gov. Individuals wishing to participate in person or by using these electronic services and who need special assistance, such as captioning of the conference call or other reasonable accommodations, should submit a request to the Contact Person listed on this notice at least 5 days prior to the meeting.

Special Accommodations: Individuals who participate in person or by using these electronic services and who need special assistance, such as captioning of the conference call or other reasonable accommodations, should submit a request to the Contact Person listed on

this notice at least 5 days prior to the meeting.

Security: Visitors will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit. Also, as a part of security procedures, attendees should be prepared to present a photo ID at the meeting registration desk during the check-in process. Pre-registration is recommended. Seating will be limited to the room capacity and seats will be on a first come, first serve basis, with expedited check-in for those who are pre-registered.

Meeting schedule subject to change. Information about the IACC is available on the website: <http://www.iacc.hhs.gov>.

Dated: August 1, 2018.

SUPPLEMENTARY INFORMATION:

Technology description follows.

Substitutions-Modified Prefusion RSV F Proteins and Their Use

Description of Technology: The respiratory syncytial virus (RSV) fusion (F) glycoprotein is the primary target of neutralizing antibodies. The F glycoprotein exists in at least two conformations, a meta-stable prefusion state, and an extremely stable postfusion state. Both states share several epitopes targeted by neutralizing antibodies, but it has been demonstrated that the prefusion conformation of F contains at least one epitope not present in the postfusion conformation. Natural infection results in neutralizing antibodies that are primarily directed against the prefusion conformation of F, not its postfusion conformation. The instability of the prefusion form of F has
