Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2016-0130]

Commercial Driver's License: Application for Exemption; Missouri Department of Revenue (DOR)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for renewal of exemption; request for comments.

SUMMARY: FMCSA announces that it has received an application from the Missouri DOR for a renewal of its exemption from the Agency's commercial driver's license (CDL) regulations. These regulations require a driver to pass the general knowledge test before being issued a Commercial Learner's Permit (CLP). The exemption renewal would allow the Missouri DOR to continue to waive the mandatory knowledge test requirement for qualified veterans who participated in dedicated training in approved military programs. The Missouri DOR states that its goal is to continue to assist qualified veterans in obtaining employment when returning to the civilian workforce, and granting this exemption renewal will assist those veterans who have already been through extensive military training. The Missouri DOR currently holds an exemption for the period of October 27, 2016, through October 29, 2018, and is requesting a 2-year renewal. FMCSA requests public comment on the Missouri DOR's application for exemption.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by compliance with the current regulation

(49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reason for the grant or denial, and, if granted, the specific person or class of persons receiving the exemption, and the regulatory provision or provisions from which exemption is granted. The notice must also specify the effective period of the exemption (up to 5 years), and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Request for Exemption

The Missouri DOR's initial exemption application from the provisions of 49 CFR 383.71(a)(2)(ii) was submitted in 2016; a copy is in the docket identified at the beginning of this notice. That 2016 application describes fully the nature of the Missouri DOR's request, and the reasons for its request. The Missouri DOR contends that those qualified veterans who participated in dedicated training in approved military programs have already received numerous hours of classroom training, practical skills training, and one-on-one road training that are essential for safe driving. The original exemption was granted on October 27, 2016 (81 FR 74861) and expires on October 29, 2018. Missouri DOR now requests a 2-year renewal of the exemption. The current exemption allows all States to waive the CDL knowledge test for qualified current or former military personnel who participated in training in military heavy-vehicle driving programs, but does not require them to do so.

The Missouri DOR provided several reasons for this renewal of the exemption request, including:

- The proposed regulatory change to 49 CFR parts 383 and 384 for Military Licensing and State Commercial Driver Licensing Reciprocity [82 FR 26894, June 12, 2017] has not yet been posted as a final rulemaking by the Agency;

- The Missouri legislature did not pass the enabling legislation to pursue full implementation during a recent legislative session; and

- Missouri, as well as other State Driver Licensing Agencies (SDLAs) that have implemented or want to pursue implementation of these provisions, must have an exemption renewal in place until such time as the proposed regulatory change is approved and posted as final.

In addition, because the issue concerning the Missouri DOR request could be applicable in each of the States, FMCSA requests public comment on whether the exemption, if granted, should cover all SDLAs.

A copy of the Missouri DOR's application for exemption renewal is available for review in the docket for this notice.

Issued on: July 27, 2018.

Larry W. Minor,

Associate Administrator for Policy.
