Federal Aviation Administration

Notice of Release From Federal Surplus Property and Grant Assurance Obligations at Daniel K. Inouye International Airport (HNL), Honolulu, Hawaii

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of request to release airport land.

SUMMARY: The Federal Aviation Administration (FAA) proposes to rule and invites public comment on the

application for a release of approximately 9.34 acres of airport property at the Daniel K. Inouye International Airport (HNL), Honolulu, Hawaii from all federal obligations contained in the Quitclaim Deed, dated April 18, 2000, and Grant Assurances because the portion of land is not needed for airport purposes. The land requested to be released is located approximately one mile east of the airport completely separated by a lagoon and the Sand Island Access Road, a major public roadway. The release will allow the State of Hawaii (State) to transfer the property from the State Airports Division at fair market value to the State Highways and Harbors Divisions, thereby benefiting the Airport and serving the interest of civil aviation. The proposed use of the land after the transfer of jurisdiction will be compatible with the airport and will not interfere with the airport or its operation.

DATED: Comments must be received on or before September 7, 2018.

FOR FURTHER INFORMATION CONTACT:

Comments on the request may be mailed or delivered to the FAA at the following address: Mr. Gordon Wong, Manager, Federal Aviation Administration, Honolulu Airports District Office, **Federal Register** Comment, 300 Ala Moana Boulevard, Honolulu, HI 96850-0001. In addition, one copy of the comment submitted to the FAA must be mailed or delivered to Jade T. Butay, Director of Transportation, State of Hawaii, Department of Transportation, 869 Punchbowl Street, Honolulu, HI 96813-5097.

SUPPLEMENTARY INFORMATION: In accordance with the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (AIR 21), Public Law 106-181 (Apr. 5, 2000; 114 Stat. 61), this notice must be published in the **Federal Register** 30 days before the Secretary may waive any condition imposed on a federally obligated airport by surplus property conveyance deeds or grant agreements.

The following is a brief overview of the request:

The State of Hawaii requested a release from public airport purposes and grant assurance obligations for approximately 9.34 acres of airport land from the 11.34-acre site to allow for its sale and a land-use change to use for other than aeronautical purposes on the remaining approximately 2.0 acres of airport property. In 1989, Congress authorized conveying the 11.34 acres land to the State of Hawaii under Public Law 101-189, Section 2814, *Land Conveyances, Kapalama Military*

Reservation, Hawaii. Under Governor's Executive Order No. 4454 dated April 25, 2014, the 11.34-acre parcel was set aside to the State of Hawaii, Department of Transportation for public airport purposes. The land is located approximately one mile east of the airfield, outside of the airport, separated by the Keehi Lagoon, and the Sand Island Access Road. The land has been utilized for industrial warehouse operations during most of the past ten years and is currently vacant. The land no longer serves an airport purpose.

The State of Hawaii will transfer the Airports Division's jurisdiction of approximately 8.37 acres parcel to the State Harbors Division and approximately 0.97 acres of property to the State Highways Division totaling approximately 9.34 acres for fair market value compensation. The Airports Division will retain and lease the remaining 2.0 acres of the land for fair market rental value for non-aeronautical revenue producing purposes.

The sales proceeds and rental income will be devoted to airport operations and capital projects. The reuse of the property will not interfere with the airport or its operation; thereby, serve the interests of civil aviation.

Issued in Honolulu, Hawaii, on July 30, 2018.

Gordon Wong,

Manager, Honolulu Airports District Office, Western-Pacific Region.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Meetings; A Notice by the Federal Aviation Administration

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of meeting.

SUMMARY: The Federal Aviation Administration (FAA) is announcing the upcoming meetings of the International Aircraft Materials Fire Test Forum (IAMFTF) and the International Aircraft Systems Fire Protection Forum (IASFPF). The IAMFTF and IASFPF were established to provide a forum for interested parties to review and provide feedback on FAA fire safety research driven by current and emerging aircraft systems fire threats and test methods. This notification provides details of where to find the date, location, and agenda for the upcoming meetings.

Date and Location: The meeting dates and locations are determined based upon the availability of host organizations to provide meeting space. The FAA Fire Safety Branch website (<https://www.fire.tc.faa.gov/Meetings/meetings.asp>) contains all information for upcoming meetings and meeting registration. The meetings are open to the public but due to limited capacity, registration is mandatory.

FOR FURTHER INFORMATION CONTACT:

April Horner, Meeting Coordinator, William J. Hughes Technical Center, Building 287, Atlantic City International Airport, NJ 08405, telephone: (609) 485-4471, email: april.ctr.horner@faa.gov.

SUPPLEMENTARY INFORMATION: The IAMFTF and IASFPF began in the early 1990's as forums to discuss aircraft fire safety research.

The IAMFTF began in 1991 to provide a forum for discussion of aircraft materials fire test methods, and to enable interested parties to contribute to improvement of those test methods through research. The IAMFTF also provides a setting to share research information generated by the FAA as well as other entities. Topics include tests to assess flammability properties of thermal/acoustic insulation, composite structure, electrical wiring and non-traditional metal alloys. The meetings typically occur 3 times per year in the spring, summer and fall, and are facilitated by the Fire Safety Branch at the FAA's William J. Hughes Technical Center.

The IASFPF began as a forum to discuss research and development (R&D) on replacements of Halon fire extinguishing agents in October 1993. The IASFPF originally focused on R&D into minimum performance standards and test methodologies for non-halon aircraft fire suppression agents/systems in cargo compartments, engine nacelles, hand held extinguishers, and lavatory trash receptacles. The IASFPF's focus has expanded to include a forum for R&D for all aircraft system fire protection. The meetings occur twice per year, typically in May and October and are also facilitated by the Fire Safety Branch at the FAA's William J. Hughes Technical Center.

Topics include research into minimum performance standards for aircraft handheld extinguishers, cargo compartment fire suppression systems, and engine nacelles. Halon replacement agents for these areas are also discussed. Additionally, topics such as research on powerplants fire testing, lithium batteries, fuel cells, fuel tank explosion protection (including fuel flammability, nitrogen inerting, other methods of
